

# The Great World Celebration

*Creating A Utopian Space Age Paradise*

By Joseph Antaree, ETI Channel

Joe Kinnee, Graphic Art

*This communication is coming directly from the Universal Mind of Cosmic Intelligence. It speaks to the enlightened world transformation that takes place as a result of full contact with Galactica — our paradise meta-galactic civilization that exists everywhere throughout the eternal Universe. The karmic cleansing now taking place all over the planet is the necessary prelude to this Event. In one day galactic spaceships will appear worldwide announcing their presence, and benevolent ETI space beings will come in on world television. A Great World Celebration will ensue . . . !*

## **The Great World Celebration**

As FULL contact with Galactic civilization takes place, all humanity will rejoice as a whole new world quickly, peacefully and easily comes into being. Together we will transform the world into a utopian space age paradise.

### **Audio Series:**

**Creating Utopia, Part1** [galactic.org/CWG173.mp3](http://galactic.org/CWG173.mp3)

**Creating Utopia, Part 2** [galactic.org/CWG174.mp3](http://galactic.org/CWG174.mp3)

**Creating Utopia, Part 3** [galactic.org/CWG175.mp3](http://galactic.org/CWG175.mp3)

What is utopia? Utopia is absolute freedom, security and abundance for all souls, fully awake and alive on a transformed, enlightened and healed world. How do we create it, bring it into being? Well, that is the subject of this little book, so read on dear soul. Know that God Loves you. If you are not already aware of this, you will discover how profound this truth is.

Who in their right mind would continue to go on living in the dystopian nightmare that life on earth has become, where life itself is threatened, when there is a real, beautiful solution right at hand, in process as you read these words?! No one. Who would turn down paradise?! Except most souls in bodies are confused by the prevailing insanity, and don't see any way out.

Well not only is there a way out of the mortal quagmire, in truth God-the-Universe is pouring out Its Omnipotent Spirit upon all flesh to redeem and deliver the souls in bodies — and the world itself. And It has a legion of angels, omni-potent, peaceful and fully enlightened galactic space beings,

acting on Its great plan to help, love and lift humanity out of hell on earth straight into a utopian space age paradise. A utopian paradise civilization that already exists eternally beyond this solar system.

Together - that is all human beings, ETI galactic space beings and God It Self - we are going to unite and carry out a *Great World Celebration* that "Stops The World," and start the world's society over on a clean slate. Our *Great World Celebration* transforms the whole world without spilling a drop of blood. We simply unite the people, all the people, to bring the old world system of negative effects to a peaceful end through creating the perfect system that takes its place, which serves all people as equals; a system in harmony and balance with Nature that is of Spirit God's First Cause: which is love as service done for all humanity, one for all, all for one. No one left out.

The anthropomorphic god of religions is gone, because it never existed except as a false belief. The illusion of the man-God up in heaven on a throne, a sometimes wrathful father-god, dissolves before the awesome reality of Macrocosm-God awakening now within the soul-microcosms of this world. Opening our hearts to God's real, infinite Love, our minds to Its supreme Intelligence, our souls to Its Christ Conscious Spirit. The energy and consciousness of the whole world is being bathed in ever increasing waves of Intelligent Love-Energy, blessing and redeeming all souls, all Life.

This is a real celebration, where we rejoice and serve every day, as we receive and share the bounteous blessings of Galactica, hearts gladdened, minds relieved, souls at peace. Life is freely lived in peace, at last.

What we bring into being is a whole new civil-social-economic society based on *holding all things common and making free distribution according to need, a new world of free giving and receiving*. Thereby creating a society that needs no money because all people share the planet and Universe that is abundantly rich in all things. Private ownership and private property gives way to the vastly superior idea of sharing the common wealth of the world. This way of enlightened common sense blesses everyone with food, clothing, shelter, care, recreation, transportation, communications and utilities on one growing high standard, free from cradle to grave. And *everyone* participates joyfully in the commonly held industry of the world that creates and supplies all needed things. An economy of free giving and receiving does this, and much, much more. No one loses anything of real value. No one is displaced from their home. In truth everyone gains material and spiritual blessings beyond measure.

Surrender all your egoic beliefs so you can know the Truth, for Truth sets us free. You are a soul in a body, a child of God, living spirit. The Spirit of Truth is God's real eternal Presence coming alive in us here and now all over the world. This IS Universal Christ Consciousness awakening in us.

We are all the Christ for whom we seek. All spiritual masters express this consciousness, and now all humanity to varying degrees as a great spiritual Awakening takes place. As soul-microcosms, we and Macrocosm-God are all one in real Christ Spirit.

And what It leads us to do is create a whole new world. We do this by setting up the ways and means for the intelligent sharing of all things.

Sharing is easy to do. It is not complex nor confusing, it is simply loving one another with our innate soul awareness and intelligence.

## 2

We accomplish all this by activating, organizing and setting into motion the *Great World Celebration*; in which we keep only the necessary services and supplies rolling — while we end our involvement in all the secondary, useless activities and industries that have no real meaning — and act together to begin building our new society. In the process we transcend the whole mindset associated with the old world. We awaken in God Mind, the all-knowing Universal Mind that IS the Universe.

This Idea whose time has come and cannot be stopped is the Universal Christ Idea, the actual and real Kingdom of God coming forth on this world. The foundation is holding all things common, making distribution according to need. This brings fulfillment to all religions, and they end as such.

These are all obsolete in an enlightened society: money in any form, usury capitalism, private ownership of land, buildings and industries, governments of nation-states, nation states themselves; the military murder factory; evil judiciary-penal system, mortal minded media, false education and retarded health care, all corrupt corporations. War, crime, poverty, disease, inequality end *automatically* as society unites and transcends the old world, principally because money will no longer be needed to live or die by. All people will be free in their soul, living in harmony on a higher plane of existence, participating in creative service with their fellow beings, all their needs met from cradle to grave.

Contact with Galactica, our eternal civilization that exists everywhere throughout the infinite Universe, together with God-the-Universe is bringing higher consciousness into being on this world; and in turn galactic beings and humanity *united* transform the whole world, and bring into being material abundance way beyond anything now existing. Not overwhelming quantities of useless junk consuming the planet's resources and life force; but real, useful tools for living, like abundant seeds for recreating the whole world into a true Garden of Eden once again.

Our galactic civilization can deliver more real goods and equipment to this planet in one month than all the armies of the world moved in WWII. Note: the energy of WWII armageddon is being balanced out daily by ETI Galactic Space Command using PSI energy to alter and redirect crises, including full control of nuclear weapons. Yet brutal negative events continue to play out. Humanity is going thru a controlled letdown of world karma into a new world.

Were GOD not delivering this world, rebalancing the karmic letdown in ways that offset a planetary meltdown, all flesh would be lost. God's Love and ETI Galactic Space beings are quantum levels of energy and power beyond any national army. Soldiers will gladly become messengers of peace, who go forth to willingly serve in the actual rehabilitation and rebuilding of the world, including curing all third world conditions of hunger, poverty and disease wherever they exist.

[ETI technology](#) is in effect a million years beyond earth's. In Galactica, technology doesn't mimic elements of the Big Machine that is the Universal Mind in Creation; it is operated by the UM directly, along with Its

ETI Space Beings. The UM is the ultimate superconscious all-knowing holographic multidimensional quantum computer. This technology will be delivered here with directions to be reproduced thru human industry - after the planet is disarmed down to the last water pistol, all armaments put thru the smelters and turned into useful tools and supplies for living.

Also, mortal science will dissolve all their false ideas about the origin and nature of the Universe; which is eternal, infinite, from everlasting to everlasting and filled with Life everywhere. Reality changes everything, makes all things new. There shall be a final end to war. People will love and serve one another as a great global family. All tears will be wiped away, and even death shall be no more.

### 3

To achieve all this, Spirit God has given humanity Its utopian vision for autonomous self-government in the *New Covenant/World Bill of Rights*. This was channeled by cosmic master Allen Michael in 1947, fulfilling the prophecy of the *new covenant* coming to humanity, which is given in Jeremiah 31:31-34:

*Behold, the days come, saith the Lord, that I will make a new covenant with the house of Israel, and with the house of Judah:*

*Not according to the covenant that I made with their fathers in the day that I took them by the hand to bring them out of the land of Egypt; which my covenant they brake, although I was a husband unto them, saith the Lord:*

*But this shall be the covenant I make with the house of Israel; After those days, saith the Lord, I will put my law in their inward parts, and write it in their hearts; and will be their God, and they shall be my people.*

*And they shall teach no more every man his neighbor, and every man his brother, saying, Know the Lord: for they shall all know me, from the least of them unto the greatest of them, saith the Lord: for I will forgive their iniquity, and I will remember their sin no more.*

All things change now. We no longer use any teachings of the Bible that are of the past, which is not part of the mental causation of normal Universe. This New Covenant replaces the Ten Commandments, giving a new vision for living that is perfect in every way. The "house of Is Real" is all humanity, who choose themselves to be guided by Spirit God's Cosmic Intelligence. And are blessed accordingly.

## **The New Covenant World Bill of Rights**

**Let each of us share all the world, the Kingdom of God, and call one place of our choosing our own, and be free to come and go in the world and stay at any dwelling place accommodating travelers.**

**Let each of us give of ourselves to the extent of our ability to the One World Company, and in return all things shall be added unto us.**

**Let each of us be judged only by our conscience in God, and let no people judge their fellow beings, but rather take judgement of their own thought and action.**

**Let no person or group hold any authority over another, except that people be willingly led by wisdom and true personality.**

**Let the government be of the people, where the people are self-governed; by the people, where the people enjoy perfect freedom; for the people, where the people give themselves abundant living.**

**Let the government seat be only the storehouse and inventory of the people's products.**

**Let all things be done unto edification, for God is not the author of confusion.**

*Channeled from the Universal Mind by Allen Michael in 1947*

If you meditate on these precepts, you will begin to see the profound beauty of these great ideas. This is the clearest expression of the great

Idea, whose time has come and cannot be stopped. This World Bill of Rights is all human beings need to govern themselves in righteousness, with right-use-ness of all material things. No more will souls in bodies be governed by the so-called laws of men and governments, that control and enslave, serving the few at the expense of the many. No bureaucracy of any sort. No hierarchy, religious, political, social or economic. Nor will people run wild. People will be self-governing thru their awakened conscience in God. Peace, harmony and love as service done will prevail.

First and foremost of these rights is full participation in sharing the world, living where you please, how you please and with whom, with God-Force sponsoring our undertakings. Participating fully in the global service and industry that produces our needs. Your choice. And having free access and use of the whole world, which will blossom once again. This is the beginning of real freedom.

All souls in bodies shall be guaranteed these rights from birth to ascension. And all people will joyfully participate in the world's creative industry, that combined as a cooperating global network will be a great *One World Company*; whose single purpose is to serve the people, in balance with the earth's ecosystem, which will be restored to radiant health in as little as 20 years.

The *One World Company* is the global industrial network supplying food, clothing, shelter, care, recreation, transportation, communications, and utilities for all citizens. The *One World Company* is wholly owned and operated by all people, as equals. It incorporates all manner of talented,

willing individuals and groups, material goods, resources, energy, existing useful industries, and services. No money used.

Money has taken us as far as it can. Now it's time go beyond money, to actually create absolute freedom, security and abundance for everyone. This is our great vision, and without vision the people perish. What vision does the status quo offer? The American dream has become a nightmare, offering a bitter, never ending road of heartache, pain and suffering. War, death and violence 24/7. The money changers make money from financing both sides and laugh all the way to the bank, which they own.

Our new world begins with forgiving all debt. And doing away with money altogether leaves that whole predator disaster known as global usury capitalism behind, forever. God forgives all of our trespasses, and we are to forgive one another - and ourselves. All have fallen short of the glory of God's purpose here. But no more, for we are rising together into a real space age paradise.

What is this paradise? Bottom line: all people are happy, joyful, loving, at peace in themselves, with one another and with God. We'll wake up in the morning full of energy ready for a highly creative, useful and entertaining day. Once the planet's returning to balance, where useless industry and superfluous activity like war no longer exist, only half the world's population will be needed at one time to produce our daily bread; while the other half are enjoying free use of the world's resorts, hotels, restaurants, entertainment, travel, sports, etc. on a sharing basis. Half the populace are producers, the other half are consumers, no middlemen needed. Then every 30 days we switch roles, from producers to consumers

and vice versa. Plus, the world will run so smoothly and efficiently people who are on shift will serve about 5 hours a day, the rest of the day they'll do as they please.

This is Spirit God's great *30/30 Plan*: 30 days of giving followed by 30 days of receiving, all people benefiting from the growing common wealth.

Judgement of people by anything or anyone ends. No person or group will have any authority over another. We will be guided by our own conscience in God. And this guidance leads us to cooperate and co-create together.

We make the key transition economically by agreeing to forgive all debt and establish money as Free Cash Flow, available to everyone as grants thru the *World People's GROM Bank* — GROM means Get Rid Of Money. This bank is owned and operated by the people themselves. No usury, no taxation.

We use this free money as the needed grease to turn on all the wheels of industry, commerce and society to their maximum potential, while directing the force of this energy towards supplying all basic needs of our Global Civilization. We quickly establish a new world society that operates beyond money entirely.

We dissolve the superfluous structure of separate nation-states by merging into a unified *World Wide Communal Democracy* of, by and for the people; within which every being on earth is self-governed by God in us and with us telepathically. Therefore, we no longer need a military, for there is no enemy, only us. The judiciary-penal system becomes obsolete, for there is no one to judge, only conditions of life to improve.

Our absolutely real *New World Government* includes everyone. Its function is to simply facilitate the life of the people to be as beautiful, perfect and joyous as possible. This requires simple organization and common sense, and no red tape or bureaucracy. Sharing requires only that people give and receive freely: "One for all, all for one," which is what our internal self-governed consciousness leads us to do. Quite simple, actually.

A free Internet is our global communication system to provide real time access to all information in its many forms, by all people and all elements of industry and government. All people will have unlimited opportunity to develop and express their creative talent and abilities. No one will be held back in any way from expanding their consciousness and intelligence thru their chosen fields of service. These fields are: Food, Clothing, Shelter, Care, Recreation, Transportation, Communications and Utilities; along with the complementary services of Science, the Arts, Education, and Engineering/Technology.

## Blueprint For An Enlightened Civilization

One For All, All For One

The graphic blueprint of our *World Wide Communal Democracy* is a model of the vital elements of a new world society. It represents a free social-economic structure for the existence of life in a natural, sharing manner; the elements that make up the major aspects of our life — home and family, community, industry, government — all synthesized together in a harmonious whole. From the greatest scope of organization to the least, life will function smoothly to build a beautiful new world on one growing high standard for everyone.

The *New Covenant/World Bill of Rights* spells out the basic precepts for our New World that grant each of us unlimited potential in our lives in all ways. All of us free, autonomous world citizens, responsible to each other according to our own conscience in God. This bears repeating: no person or group will have authority over another. People will be led by souls with wisdom and true personality.

God the Universe refers to our new world system as Christ Communalism, from each according to ability, to each according to need. Total wise sharing, guided by the intelligence within our very Being of the Christ Conscious Spirit of Truth that IS God. This cannot be emphasized enough, for it is the essence of our world transformation. This is exactly how galactic society lives and operates, which earth's people join thru our *Great World Celebration*.

The *World People's Council's* only purpose as a coordinating body having no power over anyone is serving the people. It replaces the antiquated Nation States. The government seat shall simply be the storehouse, distributor and inventory of the people's products. Coordination of

administrative functions within our New World Government will insure the logistical flow of resources, goods, people, information, ideas and money to all facets of the *One World Company* industries, as well as all cultural centers, living environments, and the people themselves.

We turn all public facilities and seats of current government administration into an efficient, integrated global network of *World Service Centers*, to house the necessary governing elements for People's Councils, Administration/Logistics, GROM Bank, and the New World Planning Commission — at all levels of coordination: Community, City and/or County, Regional, Continental, and Planetary.

People will rotate thru positions of varying responsibility according to their developed talents and abilities. No one stuck in any 'boring job.'

Unlimited educational opportunity in all levels of the *University of the Universe* will be available to learn new skills in any field of endeavor. All learning will be right in the doing of direct services under the guidance of masters in the subject at hand. Education will be a lifelong process, in truth a journey of spiritual Self Realization as well as developing talents and life skills.

We automatically eliminate all superfluous and artificial elements of life as we apply our industry to real needs. This, along with unlimited free energy supplied thru technology such as the *ETI Dynadran System*, which draws energy directly from the Electromagnetic Field, will streamline our industry and technology to the point where we meet our needs thru a *30/30 Plan – 30 days on and 30 days off rotational shift schedule*. A daily shift will average about 5 hours per day per person, with half the people

producing our needs and serving the other half, and switching roles every 30 days. Free access to all the planet's recreational, travel and resort facilities will be available to all those who are on a holiday period.

We will restore the biosphere to its natural pristine state, and regenerate the planet's gene pool accordingly, eliminating all that is destructive to a healthy and vital world.

Thru a *Global Common Market*, all goods and services will be freely available at the fingertips of the people, whether they are at home, serving in industry or traveling about the planet.

You can envision this great plan coming to life, by seeing the whole structure as one living organism inclusive of all people, moving naturally around the planet according to a Free System that simply facilitates all that we do. In truth we are one atomic body of living consciousness, flowing together thru ever more perfect experiences of Universal God-Consciousness. Our social-economic system serves the people thru perfect ways and means that come from inspired, unlimited imagination, which flows thru us directly from the God Force, our Life Itself.

#### 4

Macrocosm-God is omnipotent, omnipresent, omniscient. And ETI galactic space beings are Its agents. In Galactica, Life exists on the inside of hollow planets, which have a biosphere and internal sun that changes intensity to give day and night, and seasonal change. There are openings at both poles for spaceships to come and go. This is how all worlds are inhabited at varying distances from the solar sun. Microcosms, us, eternal souls, inhabit

beautiful eternal bodies that can levitate and teleport, able to express the full range of cosmic consciousness.

The eternal civilization that is Galactica is a synthesized communal network; our consciousness fully integrated thru the 12th density of Cosmic Awareness. This solar system has been of a 7th density hierarchical consciousness, for reasons you are about to learn.

This world, with life on the outside surface is a special healing planet for spaced out entities, who are being redeemed back into eternal life thru a process known as Evolution. This world was activated to bring forth life on the outside surface by the Godhead and the Galactic Elohim about 6 million years ago — after a catastrophe took place in this solar system, destroying all life. An atomic firestorm created by a large contingent of self-negated entities who lived here burned out the etheric life force of all the planets. Entities are living spirit and as such cannot die, ever, once we are given birth by the Godhead. Some 24 billion souls were caught up in this event, and they lost their eternal bodies and were drifting in the empty astral auras of the planets where they had lived. And they were holding the negated mind energy seeds as latent karma in their traumatized spirit soul. Hence the creation of this world by God and ETI Technology to redeem these damaged souls.

The Solar Logos lost contact with the 5 higher dimensions of consciousness, going from 12-D to 7-D. Those missing dimensions in truth are the cosmic Christ Spirit in all Creation; and the microcosms here in bodies and the world itself are being restored now to eternal 12-D consciousness, as the full cosmic Christ Spirit comes Alive in us and

radiating thru the centers of atoms in all space and matter. All the dark forces that have shunned the Light for so long are dissipated into nothingness, the entities set on their own road to redemption. As for the masses of souls who have toiled long and hard, working to bring forth a righteous world; your greatest wish comes true, which is to know God in you as Love It Self. Together we cast off the chains of oppression by doing the very thing needed all along: creating a society that is one for all, all for one. This is how this world rises up into the 12th density Cosmic Christ spirit again.

We have only touched lightly here on a deep, difficult subject, because we're going to focus on the here and now transformation, not dwell on the past. All these subjects and more are covered in depth in the channelings of the Universal Mind that is the Everlasting Gospel prophesied to come in Rev. 14:6. These vital all-knowing channelings came thru Allen Michael, the founder of the One World Family Commune; a cosmic adept who incarnated here from galactic worlds to serve as the Comforter Spirit of Truth spoken of in St. John 14, 15, who brings all things to our remembrance. [Here is the link to the Everlasting Gospel.](#)

A quick mention of the 400,000 year Garden of Eden period of the ETI Pyramid Temple Communities where some 16 billion souls were redeemed. [Here is a pdf link to an in depth channeling on the history of this solar system and planet](#); known as Plentoria solar system and Placentia, planet of plenty and rebirth, on ETI Star Maps. Our galaxy is Immaculaceptor Synthesia, immaculate conception of the Synthesis.

## 5

In summary: We create a free cash flow money system as a first step to getting rid of money entirely. We forgive all debts and all debtors, and we turn on the whole planet with free money for everyone and everything vital. This frees the people from money atonement with one master stroke. This is a necessary step to getting rid of money altogether. In a fully communal world money is unnecessary. The new world commune comes into being automatically, as we set up the new sharing world of free giving and receiving. It's so simple a child can do it.

Serving one another with joy produces lasting happiness for everyone. The new world commune is right in the every day love services done without thought of remuneration that provide our daily needs: like making and serving wholesome dinners, cleaning or building houses, planting and harvesting fresh, vital organic food from the garden. All people will serve and be served as equals, with all basic needs guaranteed from birth.

Imagine it! Freedom at last from the struggle for survival. Freedom from all spiritual and social-economic oppression. This we will do and more.

The class struggle between capital and labor, between the haves and the have nots, ends as we help, love and lift everyone regardless of what they have done. All people will be fed, clothed, housed, cared for, and supplied with needed communications, transportation, recreation and energy in all forms.

With the money issue solved, we can turn to the immediate tasks at hand, starting with emergency relief to the 1.3 billion people living in poverty,

and cleaning up of cities and our environment in general. We will treat the environment with all the love and care it deserves, ending the toxic destruction of the biosphere by bringing society and industry into balance with nature. We will give the whole planet a thorough cleansing, a face lift for Mother Nature, who is a little worn out at this point from caring for her wayward children. Spirit God will supply all the inspiration we need!

A real People's Government is formed by the transformation of the existing government structure into a free-flowing communal organization of pure service to the people: all bureaucracy and systems of operation quickly streamline as that which is extraneous and superfluous is dropped. The real things to be done will be obvious, with no voting necessary. Communal (consensus) decision making governs all councils of the people. Red tape and useless regulations fall out of the picture. All governing bodies will turn to the real tasks of serving the people, with no money issues involved other than appropriation and distribution. The presses that print money will belong to the people, to be used for our common benefit.

The World People's Government has an initial primary focus of getting emergency food, supplies, shelter and care to the poor and impoverished of the world, as well as creating the communal infrastructure that brings their life into health, harmony and happiness. All people will respond to this effort, and join in to wipe hunger, poverty and disease from the face of the earth. Gardens and large scale organic farms will blossom everywhere to feed people living, wholesome food directly from the vine of life.

With peace established, the resources of the world's military can be applied to this task, with the world's Universal Soldiers and youth in general being the backbone to carry it out. All useless weapons go to the smelter to be made into the likes of hammers, nails, rakes, hoes, and shovels, as well as plows and tractors – and used accordingly.

With Galactic contact established by the Elohim in great spaceships, all limitations of materials and energies are removed. The Universe is a place of material abundance for all, and the ETI Dynadran power units draw unlimited energy right from the electromagnetic field to power and energize all of life's needs.

The Galactic Initiation is on schedule to take place, keying off in energy shifts like going up the notes of a musical scale, then switching to a higher, transcendental key altogether. This contact is already taking place, with a big new wave of energy-in-consciousness coming in now.

Most importantly, our *Great World Celebration* ends the *cause* of crime and violence, which is social-economic inequality and oppression. All prisons will be torn down and people rehabilitated back into society. There is no disease, either physical, emotional or mental, that can't be healed by God's loving, omnipotent spirit. People will learn how to channel this energy in real, meaningful ways, to be healed accordingly.

Quickly, the emergency government gives way into our autonomous New World Government that is absolutely of, by and for the people. Nation-states and their bureaucracies dissolve in the process of building this new union, in which all citizens have full equal rights as citizens of Placentia.

Begin to see yourself as a cosmopolitan world citizen, with free access to the whole world, part of the new communal world. You'll probably live with your extended family, souls you are on vibration with, with your own space as part of a communal family complex. Empty office buildings will be converted into housing and other service centers. You'll schedule your own love service shifts, as well as recreation and transportation, on the Internet. Industries and government services will also gear up to use this system.

The Internet system will be greatly enhanced, expanding out to quickly serve all people worldwide. With Galactica's arrival, new ETI holographic computer-communicators will be delivered here. These new computers are flat crystal-like devices that come in different sizes according to need. They respond to psychic vibrations of mind force. Imagine a universal communicator with no limitations. You can speak to it, and the Uni Mind will speak to you. Through the New Jerusalem mothership, we will all be connected to the Galactic Internet, the life-matrix of Universe itself, with 4-D instantaneous access to anyone, anywhere and anything in the Universe, your mind in perfect telepathic synchronicity.

Spirit God has brought us the world Internet to use as the electronic nervous system of the new autonomous world social organization, which is all a free flow of energy and not the static limitations of business as usual. It will quickly be the channel for all communication media. Imagine the energy potential of a world people inherent in a commercial-free world! The new system is autonomous and self-governing, with equality for all. No more artificial controls over the people, who will only be led by

those who have wisdom and true personality: not as bosses, but as true servants of the people.

Money was originally intended to be a free medium of exchange, and that is how we begin the *Great World Celebration*, by using money as free cash flow, i.e. free of interest. The debt of the world is forgiven and eliminated. We simply direct the real wealth of the world to be distributed among all of its inhabitants as God requests, through the bank teller window. We Get Rid Of Money – GROM – by first declaring all financial services on the planet to be joined as the *World People's GROM Bank*, wholly owned and operated by “We the people.” This is how we peacefully end the commercial buying and selling world.

*To organize the logistics of this great world transformation involves all the world's people cooperating together. The key step is agreeing to hold all things common and make distribution according to need.* Then we begin by creating a world forum using social media — to identify and map out the real industry and services that keep us alive. We will organize and plan out our transformation over the course of a year or so - with ETI involvement. And identify all problems needing solutions. Like world hunger, and the damage to the biosphere. As we see and put into motion real solutions to the world's problems, all that is not of real value will quickly fall out of the picture. When we activate our *Great World Celebration*, it enables society to hit the reset button and start over on a clean slate.

We will use the internet to connect the labor force to the tasks at hand. Search engines and websites of all sorts will enable people to choose

where they wish to serve, and schedule their vacations, R & R, booking travel, entertainment, dining, etc.

Clearing and cleaning up the environment is a top priority. ETI space beings can take the carbon out of the atmosphere using energy beams, which is a key to restoring the planet to ecological balance. And ETI space beings will deliver Dynadran energy systems to bring clean unlimited free energy to the whole world, energy drawn directly out of the electromagnetic field. The subsequent transformation of industry will result in zero pollution.

The monumental changes it will take to help, love and lift this world up out of its current state of war, crime, poverty, disease, pain and suffering everywhere, into a balanced, sharing and caring society will be accomplished. Because human beings will have the full assistance and guidance of the God Force and Its legion of Extraterrestrial Angels. Together we shall carry the day.

— *Love is service done*
