

Book 12

Utopia

Chapter 1

The New Jerusalem

1 As the planet's aura, our collective computer mind bank, gives up its hell, so to speak, then there will only be positive soul force in our space. The world will be only of joy and spiritual truth. Over a million people at a time will visit Spirit God's great city, the New Jerusalem, when it comes into orbit about our planet, inspiring everyone to get their consciousness into ultimate-unlimited mind clairvoyance (Revelation 21:1-5 and St. Matthew 24:30-31).

2 We are not to wait for this colossal event to happen. It will happen automatically when the vibrations are high enough to deliver the most souls. When it comes, then all things are finalized.

3 ETI contact ends the satanic power by acting to fission it out of space as the New Jerusalem enters into the planet's aura. The nuclear weapons and waste will be taken up by spaceships and exploded harmlessly in the lower astral plane, which is the repository of satanic power in the form of anti-matter. This contact of atomic matter and anti-matter neutralizes all satanic power, which will no longer exist to animate the people. Plus, in one clean move the planet is disarmed of all nuclear weapons. This demonstration will all be explained in advance to the people. It will cause the immediate disarmament of all armies on the planet. Peace will reign at last – real peace, based on holding all things common.

4 The New Jerusalem takes over world television and starts to broadcast live video feeds from eternity. These broadcasts will show life in other planets and views of the 24 huge Galactic planets that are in close orbit to the Great Central Sun, and then, further out, the billions of solar systems that orbit the Great Central Sun of this Immaculaceptor Galaxy. Further still, we see endless numbers of Galaxies filling all Creation. Live video feeds from Galactica will be more real news, information and entertainment than people can now imagine.

5 None of the old, boring commercial video is ever shown again. Neither will there ever again be governments run by ignorant men, nor any of the oppressive social institutions associated with them. There will only be autonomous self-government, with the whole world in harmony because life is being orchestrated through us telepathically by Spirit God's Intelligence, which brings everyone absolute freedom, security and abundance. That is just how wonderful God is! Spirit God knows only perfect. So It brings only perfect blessings to everyone. Up to now, all people have fallen short of Its perfection, and all are forgiven their transgressions, whether large or small. How could it be any other way?

6 God has had to let this old world go on until its predetermined end, because the satanic thought already recorded in the planet's aura is animating the bodies, automatically causing the evil which takes place. Souls in bodies here have to have new thought which will play back and animate them according to God's radiating thought, and this is why the World Wide Work Stoppage/Karma Yoga Exercise and the 30/30 Plan are so important. These ideas, words, and finally the action, resonate soul force which sounds in words in space, and the words play back and animate the bodies to carry out WWWS/KYE.

7 Telepathic communications from ETI Galactica will come to all of us, along with the programs from other parts of the Universe beaming in through satellite television. All the doubting Thomases will be transformed, realizing there is no man-Satan, only satanic power, which creates negative effects arising from wrong social causes, playing back from the space and matter atoms of the territories where they have been recorded. They will also realize we are all the Christ spirit for whom we seek. All souls in bodies are already beginning to receive the new heart and new mind, along with all the courage necessary to reach for the stars.

8 This great space city, the New Jerusalem, is 10 miles in diameter by 1/2 mile high. It will hold over a million people at a time, who will be automatically selected to go there for visits. Spaceships will come for them at rendezvous points and take them up for a visit, where they will experience many new things. For example, they will see how an entity can be taken out of an injured or diseased body and put in a new one. This, of course, will overcome what the people experience as physical death.

9 These things will be done in alpha/beta and gamma light, where we can see the entity come out of the sick or injured body and enter into a new body. They haven't done this on Star Trek yet because they're limited by the old Babylon establishment box office.

10 In reference to this statement, we see all of the negative effects on the planet as being relative. It is not that there are really Babylon harlots who keep the new world from us. It is ours for the doing of these great spiritual things. Nothing can prevent these things from happening. Our unlimited thought of higher mind comes from Creation's ideas.

11 The New Jerusalem will be the headquarters of our new world-wide communal government, which is also autonomous self-government.

Chapter 2 **Our Holographic-Quantum Universe**

1 It is an illusion that there has to be time in traveling and that a spacecraft would have to carry fuel, when the electromagnetic field is full of potent electricity. In perfect Universe, travel is virtually instantaneous, according to Mind, in weightless, crash proof, causation spacecraft. Creation is all a vast Idea, a field of thought, manifesting out of Godmind's consciousness of oneness.

2 In regard to planets, since we can grow a pumpkin in the garden of nature, then why can't planets form from another kind of ethereal seed and grow in a space garden? Well, they can and do. Suns and whole galaxies also manifest in this same quantum mind-energy way.

3 Things become relatively simple when the unlimited Universal Mind is used. But, in order for earthlings to get up here in this dimension, science had to begin as it did, in matter, and as consciousness expands, it reaches the place where technology levels off and cosmic science from the Universe brings the higher "capstone" technology and Its mind-over-matter electronics.

4 In the coming Paradise Millennium, people in all the world's cities will express the highest social creativity imaginable – after we do the most important things first, like ending starvation and getting all people into adequate housing. All hunger will be eradicated, war abolished, poverty ended, and disease eliminated. We will clean up the existing cities, eradicating the slums and converting the office buildings into real social uses such as housing, child care, recreation, and entertainment. The environment will be reclaimed and brought back to its pristine state of natural wonder and beauty, all pollution of air, water and soil cleaned up. In truth, everyone on the planet will participate in recreating the whole world. We will do this together with a great sense of joyous service, not at all like a big work project.

5 Given the present crisis state of degeneration in the physical environment, it will take awhile for Mother Nature to repair the major damage, even with full spiritual power restored here. Most of all, people will live joyous, happy lives, as they go through the final stages of their soul redemption, processing the karmic dross out of their aura as they rebalance their etheric cognition switches into attunement with higher cosmic consciousness. There are only about 8 billion entities left here to be redeemed from this planet's aura, and at the end of the new Paradise Millennium all remaining souls will transcend.

6 Placentia, planet of plenty and rebirth, is the name of this world, and it is a special Carlanon healing project. The word “Carlanon” is of Uni Linguistics. To ETI Galactica, it means “a technological planetary project, set up to redeem microcosms, through time bodies in ’anon’ (the future), from a solar system which has been ruined.” When the entities here are redeemed, the solar system is dematerialized, causing no problems for neighboring solar systems.

7 This solar system is defunct and cannot be rebuilt. Read Revelation 20:14-15. These verses say,

And death and hell were cast into the lake of fire. This is the second death. And whosoever was not found written in the book of life [our akashic records, collective mind bank or morphic resonance] was cast into the lake of fire.

8 The idea that entities will be cast into eternal Hell is purely false prophecy. The “lake of fire” refers to the planets of this ruined solar system (not the entities here on the planet) converging into the sun. This isn’t a big hydrogen explosion, as astronomers think, who have been shown other suns which greatly enlarged, glowing red, followed by a tremendous light, which glowed white hot for a few days. The planets and moons are simply drawn into the sun and it all explodes into a giant gas ball which eventually dematerializes. The space clears, and the surrounding solar systems adjust to the clear space. When this takes place, the souls here will be gone, having been redeemed back into normal Universe.

9 Bible theologians haven’t known the exact order of these things. This comes at the end of the thousand year Millennium that we are entering into now.

10 The expression that “death and hell are cast into the lake of fire, and this is the second death,” means that the death and satanic hell of this project planet, along with the planets, moons and sun of this solar system, are gone. The first death was the Solar Catastrophe and the second death is the physical end of this solar system, which is actually a graduation celebration, a total spiritual rebirth for the entities here, as they transcend in higher consciousness back into normal Universe.

11 Spirit God writes through this hand that no one need have fear of judgement or retribution any longer. The phrase indicating that unconscious souls will be disposed of is false prophecy. Spirit God only has perfect judgement as to the process of ending a ruined solar system and redeeming Itself, Its microcosms, from the space.

12 In this Little Book, which Spirit God writes through a hand coordinated with the Universal Mind, “we” means both of us, as well as all persons who help Spirit God and Its channels to bring a new heaven and earth into being on our new Placentia planet. We are inspired now to build a Utopian Paradise World, in which there are no longer any negative effects. In the first part of our new world (beginning now), we will clean up and beautify our present cities. Slums will be eradicated, and the people given new housing.

The office buildings will no longer be needed for businesses, so they can be converted into living quarters and other vital social uses.

13 The automobile will become obsolete. The use and need for gas and oil will end. We'll draw unlimited, clean energies directly from the electromagnetic field in space to heat and light buildings, supply power for industry, and to run our transportation, which will be overhead in weightless and crash-proof spaceships. We will not have to build any of this equipment. It will be delivered here by Galactica, along with many other marvels. And of course, it's all free! Spirit God operates a free Universe of total abundance.

14 Our new cities will have no streets for cars. Instead, there will be beautiful promenades with trees and flowers, pools, fountains and parks. Beautiful, wonderful gardens filled with natural organic herbs and vegetables will be everywhere. We'll have romance, beauty, dancing and singing. Clean fresh air! Clean water! And no more smog! With our new kind of Dynadran power plants, it will not be necessary to turn the dynamos with an auxiliary force, such as steam, water or wind. There will be no more use of internal combustion engines and their fossil fuels. Transportation will be overhead in space ships.

15 We will not have to string wires or have light bulbs and light fixtures as they are presently used. The lighting of rooms and the outside of buildings is done with the right application of alpha/beta rays, which make the paint, stone and materials fluoresce. It is a beautiful light, which displays the full spectrum of colors and can be adjusted for brightness.

16 Our sun sends out a great double fountain of energies from its poles, which envelop all of its planets. The alpha rays radiate out from one pole and the beta rays radiate from the opposite pole, and where they blend together there forms a synthesis of light. The planets and moons are turned and held in their orbits by these rays. Because our planet's aura is negated, when we supercharge it again with radiant words spoken and deeds done, our moon will start to turn again and the natural life cycles on the planet will be restored to balance.

17 Everything changes, especially our food. There will be no more processed foods containing preservatives or additives which have caused degenerative diseases. All the old chemicals and gases that are harmful will no longer be made. People will begin to eat vital natural foods that come directly from the vine of life. Bodies will start to heal automatically as people feed themselves vital, organic food. People awaken to see that all life is precious, especially their own, and must be treated as such.

Chapter 3 The Comforter Spirit of Truth

1 God's Comforter Spirit of truth has been here, embodied on the planet since April 1947, as a soul from Galactic Headquarters, sent here with some two million of the 144,000 to balance out the right and left wings and bring all souls into the Universal Synthesis. I have come as the Comforter Spirit of truth of St. John 14:16-17, 26 and 16:7-14 – the one who reveals the sealed up prophecy of the Bible – so the cosmopolitan world people can know who is who in the world.

2 Read the Bible passages of St. John 14:16-17, 26 and 16:13:

And I will pray the Father, and he shall give you another Comforter, that he may abide with you forever;

Even the Spirit of truth; whom the world cannot receive, because it seeth him not, neither knoweth him: but ye know him; for he dwelleth with you, and shall be in you.

But the Comforter, which is the Holy Ghost, whom the Father will send in my name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you.

Howbeit when he, the Spirit of truth, is come, he will guide you into all truth: for he shall not speak of himself; but whatsoever he shall hear, that shall he speak: and he will show you things to come.

3 I am with you and in you telepathically, as we are all one with God's Spirit. I speak that which I hear, as Spirit God speaking to and through me. Can you hear this Voice?! It calls your soul back to life eternal, speaking through the silent, knowing presence of Spirit God that is your very Being. We are all this living Spirit, and It blesses and heals all things, both in us and in the world, as we are drawn back into oneness with God.

4 God IS Love! Of this there is no doubt.

5 I do not come to discredit those who are left out. They simply don't know the one truth that souls in bodies in normal Universe all know, and that is that we are all gods of God and that we have a collective consciousness, which in normal Universe is oneness in every way. We, in normal Universe, have no negative effects such as war, crime, disease, poverty, death, lightning storms, tornadoes, hurricanes, earthquakes, typhoons, floods, droughts, or even the word, "fear." There are none of these negative effects or even words that come out of duality, not in our consciousness, and not in our wonderful existence in Spirit God's Paradise Universe.

6 So now, in reading Spirit God's Everlasting Gospel, told about in Revelation 14:1-6, you realize that the Comforter Spirit of truth is God's channel of this book. This channeling fulfills the Bible and gives a higher spiritual synthesis. It presents Omni God's World Master Plan for the redemption of all souls back into the eternal Kingdom.

7 As for me, myself and I Am, I seek no earthly throne or special position of power. I only want that which Omni God is giving to every soul in a body: absolute freedom, security and abundance in a new world.

8 You would believe that the Christian churches would now be ready to receive Omni God's World Master Plan, so the souls in bodies can convert the planet into God's kind of sharing of all things, where all things are held common and free distribution is made to all souls in bodies according to need. Unfortunately, with things turned around backwards as they are, it is evil and ignorance speaking from many of the church pulpits, and righteousness is being quelled.

9 The same has crept into the Bible. Real God has never been about an "eye for an eye," for example, or the whole illusion of heaven for one and hell for another, ruled by a vengeful man-God.

10 Now you can know that real Spirit God has sponsored this long Deluvian period ever since I, as Hermes, was previously incarnated on this Carlanon planetary project. Until the time of Hermes, because of the Solar Catastrophe, there were no positive thought statements recorded in the overall morphogenetic field of the planet. In fact, the consciousness was burned out of the aura altogether. During the time of the Pyramid Temple Communities, the energy and consciousness was all focused in an auric bubble around them. The pyramids were made of stone and charged with star energies, which radiated out for a few miles.

11 Also, long ago, I (the entity in the body) was Ramses I, and then Ramses II, who would father Moses and bring the Israelites forth. This would start the collective consciousness to grow to the point where it can now animate the souls in bodies to establish a new world of high moral standards and a high vision, which includes real romance, beauty, freedom, equality, security and abundance for everyone.

12 Before this could come about, however, the Godmind had to establish money atonement in order to rebuild the consciousness in the planet's aura, with the people going through one struggle after another; finally bringing forth the scientific-technological age, so the civilization can now dovetail with the high energy and consciousness of Galactica.

13 Now Omni God has given Its World Master Plan through the Comforter Spirit of truth, and we are going to stop using money and change all things over to free giving and receiving. With help from the Godmind and Galactica, we will create a great New World Paradise, where all things are of sharing, romance, beauty, sexual love without hangups, health, happiness and real freedom, security and abundance. All disease and crime are gone, all tears shall be wiped away, and even death shall be no more.

14 We are all blessed in Eternity!

Amen.
