## ***CYBERNETICS OF THE UNIVERSAL MIND***

This book includes many things, but the main objective of these opening pages is to make people aware that there is a "Universal Mind" that is omnipresent, omnipotent and omniscient, or all-knowing, and is of ETI - Extra Territorial Intelligence - which radiates thought about all things from the center of atoms everywhere. The Universe is all connected mentally to itself; and human entities have the organs of perception - or ETI qualities of Extra Sensory Perception - to be omnipresent in all knowledge, and to have the kind of emotional responses to people and things that makes them eternal and of direct service to all people and all people's projects.

No capitalistic project is a people's project. If you can find one that is, show it to me. They are all projects in which money is spent superfluously; not for the good of people, but for the preservation of people who couldn't make a living doing honest work.

But even this is relative to all its opposites. To have ETI-ESP awareness is to have living purposes and the kind of soul integrity that speaks out for the right-use-ness of all material things - that all people in the mansions of the Universe shall have radiant life with all of its wonderful attributes which, in essence, are absolute freedom, security and abundance for everyone.

Of this, most world leaders in the different fields of human needs would say: "Yes, this is all true, Allen Michael. That is the way it should be, but..." I use the word 'but' in many places in these channeled writings, but always in an affirmation of truth-reality, whereas mortals use 'but' to list the many reasons why we cannot have a heaven on earth now. Their main reasons are: "But people are not ready for a New Age, we still have mental and physical illnesses, degenerative diseases, criminals, wars, selfishness, greed, vanity, etc." These are not reasons at all why we cannot have a New World now. These things are only effects of wrong causes and will all automatically heal as the right kind of New World social environment is established.

The words God, Jehovah, Allah - or whatever name is used to speak of God or gods - all spring from the one idea of *One Universe*. Some writers, for their own mortal purposes, try to make us believe that there are many Universes. We see that there are many gods of demagoguery, but there is only one revealing Universe, or "*Uni*." ETI space beings who are on direct drive with the *Uni-Godhead*, or Universal Mind, have mapped out the Universe into 12 sections; but it is all one unit.

The God idea originates from the *knowing*, which all normal people experience, that there is life and Its nature, far flung stars in space with planets, etc. What Intelligence created IT? . .

made IT? . . . evolves IT? This is what people want to have more knowing about.

So this book reveals the true meaning of the prophecy in Revelations and other parts of the Old and New Testaments which refer to these times, to convince all people who have spiritual eyes and ears that the source of the Universe gave the Scriptures and knew all about the things that would take place here. This is the mind-blowing reality! How could the Universe send prophecy through Its ETI mediums thousands of years ago which describes in great detail, blow by blow, the very things the whole world is experiencing now, as Its Kingdom - which is the true state of *Uni-Christ Communism* (see Acts 4:32-35) - comes in all over the world?

And who are the Israelites spoken of in the Scriptures? In the word 'Israel', and 'Israelites', the *Uni-Godhead* is not referring to any national group, race or religion. The Israelites are the 'chosen people' - those who are called and who choose themselves to fulfill the Kingdom of God mission. *Israel* means only that which is real, or has its reality in the Universe's natural dynamics.

This is not difficult to imagine because the Universe is all there is. It is all-inclusive and would surely know the future of Itself in advance, and could reveal - to anyone who struck out in Its services to all people - the knowledge of the ways and means to bring about Its super kind of life.

### ***ETI REALIZATION***

You see! You could not be reincarnating here if you didn't have realization. Your realizations brought you here and can carry you thru the labyrinth and on thru the portal, into the life that you remember down deep. And even if it's just a little flicker now, it can be rekindled into normal soul force again that is aware of the wonderful things of the Universe.

By reading the *Everlasting Gospel* you will be opened up to both the yin and yang mental poles of the earth's aura. Then, as you put right words and action in place of what's recorded there, which is animating people, you will connect with ETI all-knowing experiences. Then you can help to heal all things, and yourself in the process. ETI will start to heal you by becoming active in your aura, and then thru your communal creative experiences in life and materiality, you will gain more and more use of ETI until you are cleared of all negative karma.

ETI is "Extra Territorial Intelligence," and is omnipresent with you when your solar plexus, heart and head chakras are synchronized together in first causes for all humanity.

Earth people have thought they were recording their memory audio-visually in the cells of their so-called brain, but they are not. They are recording their experiences in the space and matter atoms in their environment and above it. These recordings keep going outward to form a planet's aura. The astral plane is of the consciousness recorded in matter that is radiating outward from the planet; and the etheric plane is formed out of the spiritual use put to energies imparted to each person as life force.

In order for people to have a balanced aura, and their planet's aura to be in balance, they have to be programmed directly by the cosmic life force. And in order to accomplish this, they must create the kind of social environment in which they can experience life as it is programmed by the Universe. Obviously, the Universe, in Its Creation, prepared things so that people would have food, clothing, shelter, care, recreation, transportation, communications and

utilities. So then, what are these mentally subjugated people doing buying and selling their daily bread for their own secular profits?

The people had set their standards upon their struggle in materiality instead of upon the high standards the *Uni-Godhead* had given them in spiritual teachings - and we now see that those teachings in the Sermon on the Mount could not have brought the Kingdom of God in, of themselves, even if people had adhered to them. If practiced, they would have made life better for everyone. But not until *this* time came, when the evolving social structure could be totally changed at one time all over the world, could the kind of social environment be set up worldwide that could add all things unto every person.

Everyone will begin to know that there is nothing wrong with human nature or people in general. People are a product of their social environment and it follows naturally in this kind of project that, in evolving the social structure with money, capitalism would come, then socialism, then true communism.

Association with charities, religions and other heart chakra organizations is not going to make anyone spiritual, in the sense of overcoming the torment of mental strain in themselves that keeps them in low vibrations, which is caused by only treating effects without the thoughts and actions which heal world problems. It isn't religion, education or even science that leads people to the truth, but it is the *Uni-Intelligence* in atoms that leads us into all things that are wonderful.

The problem the *Uni-Godhead* and Its space angels of ETI have been healing in the microcosms or entities incarnated here, in these kinds of humanoid body pairs that can produce bodies, is a problem that only they know how to heal and shall heal.

Bible scholars still think the Godhead's cybernetics are referring to old times, but they are giving the *path of destiny* that the people of God's spirit follow now. The US of modern times is referred to in the scriptures as the tribe of Joseph. The USSR is the tribe of Judah, and the United Kingdom is Ephraim.

In Ezekiel 8:1-8, ETI is giving Ezekiel visions to write about the time when the one who is Emmanuel, "God with man," comes to earth to be with the *Israel people*. I believe I am the person in question. Believing doesn't make this so, but what I write and do does. These verses are telling of the Spirit of Truth being on the planet, and he turns in four directions: to the North, South, East and West. And he sees the creepy crawling things in the arsenals of the US Joseph, the USSR Judah, nationalist Israel, and in England, France, etc. The Mourners for Tammuz depicts the situation in India of people expecting Krishna, and the Vatican expecting Jesus and so on.

I say, "Wow! ETI, how are we going to keep all these abominations from unleashing themselves on the world? How can we bring these mourners, and those people who create all the detestable things to kill 'the enemy' with, into being the kind of Holy People that would rather be on top of it instead of buried underneath it?"

ETI replies: "It won't be easy! But there are ways, as you know, of playing games with people, similar to the kind the blind who lead the blind play, until they both fall into the ditch. But naturally, we do all we can to save them from disaster." Then ETI says: "They will be punished by their own hands, in the negative experience they are in, as 'instant karma' comes over the world. But before this happens, they could become aware that the enemy is themselves

and offset it with the World Master Plan - WMP."

I might say that up until now, no one has known exactly who's who according to the cybernetics of the Universal Mind given in the Scriptures. The truth is only revealed now in hopes that the world people of *Israel* will rise at this time and not let the remaining part of the prophecy be fulfilled.

But on the other hand, if part of it isn't fulfilled, then how will they know the *Everlasting Gospel* is real and *I am* that which I write about?

So then, as events unfold and the EG is spread over the world, people everywhere will begin to say: "Allen Michael told us what would happen, and it is all happening as he told of it in the EG. So let's accept him as our Comforter and fulfill the EG's World Master Plan."

As the PSI-ETI synthesis energies keep building up in the planet's collective mental library, knowledge increases and more people become aware of cause and effect karma-retribution. So they should be able to rise above their fears of seeming personal danger, especially when they realize their head is just a radio-TV station which they are listening to. How can any harm come to anyone if they are just listening to the BS and not letting it animate them? Let us only be animated to speak and act on behalf of the New World. That's all that counts. Once the proper foundation is laid for absolute freedom, security and abundance, there will be radiant, beautiful progress from then on.

All human life here has reached bottom, and all strains of bodies are affected, because they are all manifesting from the same atomic pool, so to speak. But the miracle is that all life here will be restored to the perfect order.

A great Cosmic Initiation is coming up when the *Uni-Godhead's* ETI space angels appear in ionized cloud trails and manifestations of big oval layer clouds over cities all over the planet. Energies will sweep the world that will end time, restore eternity and cause a total rebirth of *Israel people*.

"And the multitude of them that believed were of one heart and one soul: neither said any *of them* that ought of the things which he possessed was his own; but they had all things common. . .

Neither was there any among them that lacked: for as many as were possessors of lands or houses sold them, and brought the prices of the things that were sold,

And laid *them* down at the apostles' feet: and distribution was made unto every man according as he had need."

Acts 4:32-35

ETI space beings can work with earth people if there is a world movement to reinforce. As things have been, there is nothing to reinforce on a large scale except political socialism. However, many thousands of world movements are rising all over the planet, and all of them know that true Christ Communism (see Acts 4:32-35) is where it's at. But unless they can unite on the EG's World Master Plan, they have no united voice with which to communicate into the hearts and heads of the world masses what the real plan of action is that will bring about a

relaxing state all over the world.

By a relaxing state, I mean a state where all things are in the hands of the world *Israel people* because they took the decisive steps to make it very obvious to all private property owners that without workers no private property can exist. And likewise, without managers of property, plans cannot be made to manage all property for everyone.

We don't judge anyone. We are optimists, giving everyone the energies to be part of the New World *Israel people*. Those who don't make it to the end are not judged by us. They just couldn't manifest enough energies thru their righteousness to carry them thru the tribulation.

We see clearly why many people could easily eliminate themselves as we advance towards the big freak-out tribulation period that's coming over the whole world. Yet the tribulation needn't be severe if enough people turn to the right-use-ness of all things.

All establishment people are robots operating on old world thought postulates, but there is a *Uni-center* in each one of them that knows. So it doesn't do any good to speak to mortal-minded personality. Speak only to the *Uni-center*. Tell the truth as it comes into your head by letting it flow from your lips. You'll be experiencing yin and yang thought from the planet's collective aura, but this thought is just radar that you bypass to form perfect judgement. Perfect judgement does not judge people, but only gives proper judgement to social changes that must come about if people are going to have liberty, justice, equality and pursuits of happiness. It manifests through our simply helping, loving and lifting all people.

I can't be personal about any of this. It is not my direct concern, but it is the Universe's problem and I just do what I'm telepathically led to do by ETI. It doesn't take more than a small detachment of the Galactic Command Space Complex to handle a little project like this one.

I marvel at great Masters of Light who carry the PSI synthesis energies that stabilize whole galaxies and keep millions of inhabited planets in clear light. However, this planet is just part of the Galactic-ETI project in these parts. This is a solar project of ETI that encompasses all the planets in this solar system.

The earth planet, when delivered, becomes the base from which the others are carried on into their next step ahead.

This is why total changes come here at this time. We didn't intend to keep the whole solar system waiting another thousand years for the splendid new life they can have now.

Here is a reality that will show all of you how feeble your judiciary-penal system is. Could the government order the bringing in and trying of all who are guilty of treason against the purposes which the *Uni-Godhead* has set forth in the US Constitution-Bill of Rights? At last jurisprudence has to admit that it is helpless to catch the big fish. It can only catch the little fishes - enough of them to keep its business going. You know . . . keep the lawyers and bondsmen and all the rest of the employees that are paid high salaries for doing nothing but treating effects.

Part of the people scream: "We need stiffer penalties, more prisons and police." Another part of them sing the prisoner song, "O if I had the wings of an angel, over these prison walls I would fly." (It's hard to determine which prison down here is the worst, the one outside or the one inside.) Thru imagination all the prisoners have angel wings. They just have to unite and spoil those who spoil them and rob those who rob them - of the opportunity to go on robbing them. This is what the Lord God tells *Israel people* to do when the old world is folding up (Eze.

39:10). Of course, this doesn't mean to repeat the cycle by reversing the order, where prisoners try their judges, lawyers and bondsmen for false judgement of people instead of their environmental factors.

This is really funny! Thru this long journey we hop from room to room, but finally we all come to the same room and see all the people in it whom we loved and hated and robbed and killed and gave good gifts to. But in the last room we all are there and alive, and we are all equal as of one class. So then what can we do except laugh about it, seeing that we're all alive and forgiving! And there's really nothing to forgive, for we know we have all fallen short of the *Uni-Godhead's* glories in many ways. We are to rob those who have been robbing us of the opportunity to go on robbing us, by spoiling their whole tea party. You would think a lot of judges, lawyers, bondsmen and DA's are not going to like me. Whether they like me or not isn't important. But I'll bet the silver dollar that Washington threw across the Potomac that most of them will take action to end their boredom.

As an example, Watergate was brought forth in the US by ETI for the purpose of causing the high people in government and law to be convinced as to who the people are that make secret war plans and why; so that at last they would know and could begin to give the people bits of truth.

The Eternal Scriptures reveal another force that follows the intuition of the Universal Mind, rather than religious thought. Those of the established churches only follow a religion. But the high people of the Adamen follow psychic intuition. They are those incarnating down from the ancient times of the Pyramid Temple Cities, revealed in Von Daniken's "Chariots of the Gods" as part of the uncovering of the far past. These truths are brought forth now, so that the omnipresence of the *Uni-Godhead* and Its high space beings, called Angels, can be brought forward to explain the present and shape the future of our people and this planet.

### ***BEYOND THE AMERICAN DREAM***

The Lord, so to speak, said to Abraham: "Get thee out of thy country, and from thy kindred, and from thy father's house, unto a land that I will show thee: And I will make of thee a great nation, and I will bless thee, and make thy name great; and thou shalt be a blessing: and I will bless them that bless thee, and curse him that curseth thee: and in thee shall all families of the earth be blessed" (Gen. 12:1-3). Now, who in history does this refer to - this message from the Lord's space complex? Naturally, it was Christopher Columbus! What did he do when he landed on the shore of the Americas? A landing party went ashore with him, and when they stepped onto the beach he drove his sword into the sand, bent to his knees and said: "I dedicate this land to Christ." Columbus didn't believe in a savior Lord. He believed in the *Uni-Christ Idea*.

Now, is it just coincidental that his name means Christ-bearer?

There's so much of our real history that is left out of popular historical books and periodicals! And in the popular books and media those things of history that are quoted are usually twisted into some kind of propaganda that makes the general run of US citizens believe that the destiny of their nation is in the present "business-as-usual" tactics, and to give the impression that the US has its mission within its own boundaries and can do what it pleases or

what suits its usury economy in other countries.

Marx said (this is not an exact quote, but it is what he meant): "When capitalism is forced home to its own base [meaning the US, because the big money center is in it] and can no longer get cheap sources of labor, raw materials and finished products from other countries, then capitalism will be finished." Marx also said that capitalism would create the contradictions in itself which would turn the world masses against it.

How true! This is happening all over the world! The contradictions in capitalism are of itself. Capitalism rose out of effects and *is* effects. And it has nothing to do with the way of life US citizens were supposed to live or what the Americans equate as their way of life. The only thing that's wrong with the American way of life is that the money and productivity of the people are controlled by people in the US who have world aims that are not the same as the true aims of the US tribe of Joseph, which *Uni-Godhead* founded here and gives in prophecy. Any group that opposes the idea of a communist world is half cracked, and they are in economic contradictions where they are going to get totally cracked, if you know what I mean.

People could logically, and with reason, disagree with the way Soviet Communists are going about communizing the world. But in their logic they would have to rise in consciousness out of nationalism to see the relativity of the situation that exist between the opposites of capitalism versus socialism, which must synthesize into *true Communism*. The balance is that, as socialism grows, capitalism automatically declines proportionately. It is the reaction and wars that those who are subject to cyborg capitalism are bringing against the people they call communists which forces the expansion of socialism, and determines the necessity for the Communists to take over the whole world. That time is coming soon, and ETI space beings have the power to cause the whole world to be properly communized and not socialized.

The socialist countries and people will not resist the communizing of the whole world, as it is given in the EG's World Master Plan, because they are high enough in the rising New Age vibes to stay on top of what's happening all over the world - which is that the whole world is being communized and brought into a One World Communal Democracy; and not necessarily by the Soviet or Red China Communists, but by the uniting of many people on the planet into the one superb IDEA. This is the way the natural laws of the Universe work. The Universe can only support those groups of people "who love life, its nature and the Universe with all their heart and soul, and who do unto others as they would want it done unto them." Suppose there was just one loaf of bread in the whole world. Would you want its maker to sell it to you for money, so you could eat it all up yourself, while the rest of the people went hungry? There would be plenty of bread to nourish everyone if it were shared. And soon all things shall be shared; and not thru any kind of magic, which is just priest-craft, but simply by cultivating land, seeding it, and harvesting an abundance for everyone. And it is the same with every necessary commodity!

Looking at things logically and with reasoning, there *is* only one loaf of bread. And those people who go on buying and selling it for their own secular profits will end up with no bread at all. In fact, except for the few bakers who take the pains to bake natural bread from whole grains - leaving all artificial sweeteners, preservatives, coloring, etc., out of it - there is no real bread now from profiteers. That is, unless the profiteers have the knowledge of proper nutrition and, at the same time, have right use of money and live properly. This isn't likely, because to

know one falsehood or contradiction of the system leads us to know them all.

One thing is sure, people under the cyborg beast are educated. Educated in a brain-washing factory that has taken away their natural intuition to KNOW. Now they are thinking, guessing, supposing and giving opinions. There was a time when education served a purpose, but education itself is supposed to evolve into actual learning experiences that are in the actual doing of things. For example, in the building trade, the persons learning engineering, architecture, interior decorating, furnishings, plumbing, cabinetmaking, electrical work, steel framing, concrete work and so on, should all be learning these things as a part of the actual building of people's facilities. In our New World reclamation projects, with the building of many new cities, this is the way it will be done. The present colleges and universities, and even high schools and grade schools, will all become part of the New World commerce. Everyone from school age to adults will be in daily schools of experiences in which useful things are accomplished for everyone. Constructive recreation is part of the learning experience. Half of the world's population will be traveling around the world at a time, enjoying their creations, and the other half will serve them and operate the facilities; and every thirty days they can alternate.

The American way of doing things has all evolved backwards out of error. St. Matt. 21:42-44 tells what the error is. The US has gone along for two hundred years under usury money, like a ship without a rudder, tossed and turned by every tempest; and even in this late hour, few people know what the real problems are.

High school, college and university students in America cannot enter into the actual doing, because the system educates them and provides the only jobs. They would interfere with trade union workers, private contractors, business people, etc., who are having a hard time staying on top of it as it is.

We see that the present educational system of the US is not oriented towards teaching people the real meaning of liberty, justice, equality, pursuits of happiness and the ways they are obtained. Rather, they teach youth to be satisfied with the status quo, in a theme of "keep plugging away Johnny and some day you'll be rich."

The real kind of government of, by and for the people has never happened in the US or Israel. And the *Uni-Godhead* tells why: "They had all fallen short of the glories of God." Naturally, as long as they were thinking about a Father God up in heaven, where they would eventually go, then they wouldn't get down to the real chores of building a *heaven on earth*.

Getting rich or making the top ten isn't the spiritual theme of radiant Universal Living. It is to *actually have* liberty, justice, equality and pursuits of happiness.

The US people don't have these things, because they borrow their own money from private banks, which keeps them in hock to the company-owned store.

As St. Matt. 21:42-44 tells (and it is the US tribe of Joseph, sent to the North American Continent, that this prophecy speaks of), the cornerstone never got laid for the right use of money, which would begin a New Order for the Ages. This would have to wait until now.

As far as God, the Universe, is concerned, It always has been and always will be; so we need not worry about ourselves or It. We are simply to build beauty in all things and to express the *Uni-energies* as they are created in their perfection.

In these later times, it is not that the world people have but two choices: to remain under capitalism or under socialism. There is a third choice that's really a first choice and a must, and

it is to begin to form communal industries, where all things are held common, thus coming into *true communism*, the Kingdom of God. Most people familiar with the Kingdom of God term think of it as a kingdom brought by a man-God or Father God. And they say "He" to refer to God, but there is no such man-God as they depict. The Kingdom of God is a state of being, and that state of being is a kingdom built by people - one that is built to correspond with nature, life force and the Universe.

Status quo business could not compete with communal industries. In the US, the "*Uni's Truckin' Church*" is tax-free. As no one draws wages, then no one pays income tax; nor do we pay private property taxes. Let the Gentiles go on paying taxes, because it is they who prevented the men of the Adamen from getting the cornerstone laid - the stone the builders rejected of St. Matt. 21:42-44 - when the US was founded. So they are just paying for their error, but we are correcting it. Let the Gentiles become confirmed in the *Uni-Christ Idea* and then their taxes will end.

Have you ever wondered why people pay taxes? Most people do not even wonder, because it seems natural to them that they would pay extra money for schools, libraries, roads, sewage service, and for county, state and federal buildings, etc.

The truth is, the people are paying taxes because the privately owned FRS (Federal Reserve System) and private banks have the franchise to handle their money, and so their government cannot print free cash flow money to spend for the people's, and it's own, needs.

If money is used by a people, then what is the purpose of it? Its only purpose would be as a medium of exchange, as the US Constitution has ordered that it would be.

If nature's God (RNA-DNA) ordered that the government of the US Israel print the money and regulate the value thereof through the commerce of the people, then why didn't the US government do this from the beginning? They didn't because the so-called American Dream was scuttled when the nation was born. The American people unknowingly turned their money over to the world banking system, and from then on they have been paying taxes, borrowing money from private banks and getting insured by private insurance companies.

Here it is, two hundred years later, and all this time the Gentiles have ruled the US Israel. The US government of, by and for the people has not yet been born.

When about 10 percent of the essential industries of a city or nation are converted to communal free enterprise, this would cause the rest of them to quit, because they could no longer make profits.

Also, a status quo government could not compete with communes, because the *Uni-government* is amidst communal people. The communes flow with *Uni-programming*. But the status quo is into so many mortal-minded, secondary causes - in which it takes them so long to count their money and bank it and keep track of their checking account - that, in the meantime, half the world is starving.

In the United States the opportunity is great for the advancing of communal industries and natural living experiences because, in its Constitution-Bill of Rights, the *Uni-Godhead* has prepared for just such a time as this, when the US tribe of Joseph would begin to feel the spirit and awaken to their destiny mission.

Communal living experiences can freely produce all the needs of the people and begin to rebuild the whole world according to the master plan, which brings in true communism, where

people all freely give according to ability and receive freely according to need.

Socialism can convert into true communism, but capitalism cannot without dissolving itself. Capitalism is only effects that evolved out of the wrong social use of material things. It came out of oblivion and now must return to oblivion.

Some of those people yet under the red dragon (cyborg capitalism), which is only effects and not an economic system in the first place, are saying they must fight for their "free world." But the analysis of their so-called "free world" shows that it is only free to those who have money - many of whom do not supply any essential needs to anyone and just buy their way around, and around, and around, on the merry-go-round that sells tickets and goes nowhere important - it just goes round and round. But it is squeaking terribly, because it has "no oil to light its lamps" (St. Matt. 25:1-13).

This could be taken two ways: either as grease, gas, or oil products in general, to lubricate parts and heat things. Or as the kind of spiritual intestinal fortitude it takes to light up your own being-ness with the *Uni-Godhead's purposes*.

Sound like I'm coming down hard on the Americans? Not really. Because there are no Americans! There is only a North American continent and its people, who are the US tribe of Joseph and are supposed to be dedicated to the building of the Kingdom of God - or New Order for the Ages - on this planet. And this has nothing to do with this piece of real estate, but only has to do with a people who love life, its nature and the Universe with all their hearts and souls, and can do free things for other people as they would want it done unto them.

Now, who in their *right mind* would sell their brethren war supplies for profits; or, for that matter, would even buy and sell their daily bread? Why don't they forgive their debtors and mark the slate clean? And then no one would be led into temptation any longer to spoil and rob those who have been spoiling and robbing them.

Gen. 12:3 says of the US tribe of Joseph, led to this continent by Abraham: "And I will bless them that bless thee, and curse him that curseth thee; and in thee shall all the families of the earth be blessed."

It is the Ugly American Nationals who take peace from the whole world at this time and are now despised by almost the whole world and could not bless anyone with anything good. But the time has come when the citizens of the *US Israel* project will come forth, recast the Old Liberty Bell and ring out real life, liberty and pursuits of happiness for all people of the earth. And they will not use money or military means to do so, but will demonstrate to all the *world people of Israel* how to build a One World Communal Democracy.

### ***THE CORNERSTONE***

St. Matt. 21:42-44 puts the US citizens on the spot. It tells that when the US was founded they would not lay the cornerstone, and they didn't. Can you believe it? The US has gone along all these years under an error which has caused them no end of grief.

So, finally they come to this time when their sister republic, the USSR tribe of Judah, *has* laid the cornerstone, and the US citizens are *still* without their Constitutional money that is printed by the government and is circulated as free cash flow thru the people's commerce. The US citizens must go to private banks or lending agencies to borrow their own money, and the

interest they pay for this hot air supports a comedy of errors *and* puts them further into debt; and those who are into the superfluous commodity games have greater control over the US than the US citizens do.

It's going to be a great surprise to earth people when about 85 percent of all they do now and have learned falls out of the picture. Even all the words that explain effects will become obsolete, because all earth people have to do to heal all things is to return to natural food, apply their gained knowledge in science and technology to the ideals of absolute freedom, security and abundance for everyone, and reorganize their social environment so that all the world's natural resources and industries are held common.

The common people thought they had a free press and a government that informed them. But a few men made secret plans that involved many nations in a great Armageddon - the one the *Uni-Godhead* had prophesied would come (Eze. 38). Even then it would not be the end of Gog's demagoguery. Ezekiel wrote that after Gog's army had been turned back by the *Mountain of Israel* (the USSR Red Army), there would be a sixth part of them left, and there was. They rose as the American Nationals, still led by the International CIA Ring, and they struck out in Korea and Vietnam to try to win the world back for their kind of usury and their belief in God's "promise to the chosen people."

The USSR tribe of Judah (Eze. 37:16) will dwell safely in their land during the battles to come in the last part of Armageddon; and both they and Red China (the Buddha project) will come to the rescue of the US tribe of Joseph if they go into their karmic cleansing revolution to prepare them for their destiny mission with the Spirit of Truth.

None of this needs to happen, if the US tribe of Joseph gets busy and supports me and those sent to be with me in the part we play in bringing Michael's stand to the Holy People of the World. The Holy People are the Cosmopolitan World People of the greater *World Israel*. They are the "Pyramid Temple Builders," who don't build temples in which to worship a pie-in-the-sky God, but build industries that are capable of bringing abundance to everyone and condominiums that provide good living quarters for the people.

High people in the Soviet government seem to be the ones, besides myself, who have great ideas along ETI lines. It came into their heads, just like it comes into my head, and the only difference between them and me is that that which I write, I write knowing it is true. I am not motivated by the conditioned reflexes in this planet's akashic records. Earth people are, however, and that leads them astray and lets harmful conflicting problems arise. Then they only deal with their effects. They should know that all negative effects are from the people's wrong causes, and all anyone has to do to eliminate all negative effects - such as war, crime, disease and poverty - is to go to the causes of them. The causes are always in basic simple errors. For example, the whole body can be well and feeling great, then a little sliver can get into a hand or foot and the pain can be terrible until it's removed. A simple operation, but nevertheless, until it's removed the body cannot be free of pain.

So it is with the seemingly little error of the majority of US declarators, in their not getting the cornerstone laid for proper spiritual evolution when the nation was founded. Because it wasn't, the nation has drifted off into all kinds of businesses that make money off of treating effects, when it's simple to heal all negative effects in ways that do not cost money. The businesses and institutions that are treating negative effects thru defending against an enemy -

or against an organism, such as with mental and physical illnesses, degenerative diseases and poverty - are usually the highest paid. Yet they can never heal any of these things. They do give comfort to people, but in the final results they cannot heal any of the conflicting problems. Only a World Wide Buyers' Strike can heal them now.

Genesis 12:1-3 is telling of Abram (who is Abraham) who gathered spirited people out of Europe and led them to form a new nation on the North American Continent which was supposed to be different from the other nations, because it would not be a nation of usury, coveting and priest-crafts. But ETI had already given the prophecy that they wouldn't make it in St. Matt. 21:42-44, and we read that the Kingdom of God mission would be taken from them and given to a nation coming forth with the fruits thereof. That nation is the USSR Judah.

Now, how did the USSR lay the cornerstone for the beginning stages of a heaven on earth? They did this by doing away with the ownership of private property, creating socialist free cash flow money, and operating their industries as workers' collectives in which their people would work towards one common goal. And the one common goal is to deliver themselves and all people into true communism, which is the same as the Kingdom of God.

Dear Comrades, we don't evolve into true communism some time in the distant future. Has world communism risen to this point through evolution? Not at all! It has risen to its prominence where it's ready to receive the whole world because it just falls into our lap. ETI has arranged for it that way.

The *Universal Mind* is at work all the time creating the launching platform for a Great World Celebration by leading progressive legislation in these latter days to build community colleges and universities, creating a new kind of objective rehabilitation of law breakers and giving welfare and SSI (supplemental security income) to people. They have also tried to rectify the housing situations of slum areas through federal guaranteed loans, which is a hard nut to crack in America because it steps on the toes of the private bankers, who seem to have more of a voice in the government than the progressive legislators.

All of these things can be held up as achievements. The progressive legislators have been preparing the US socially for this time of crisis. Many people are experiencing the gift of free commerce, and at last they have something to defend, if need be, besides old American national traditions. Loans from private banks are not a gift, but are actually promoting violent revolution. The gifts to the people did not derive from American capitalism, but rather from that little part of government that serves the people. The dilemma in the US government stems from the "stone the builders rejected" when the US was founded - the most important plank in the Constitutional platform (which was never laid) regarding the right use of money.

Imagine a people creating a government and then leaving out the most important plank! Of this, Amschel Rothschild said that he didn't care who made the laws, it was who controlled the money that counted. So far he has been right. But let's say the old European Bankers that have kept America under usury money have just been filling in until the 'Lord' came to set all things upon the right path, and then even they would rally with him, if for no other reason than that they were left with no other choice.

The US pioneers of a "New Order for the Ages" had only to lay the kind of governmental foundation that legislated the right use of money, then the US would have grown strong in positive ways and, in its first hundred years, would have changed the whole world to the same

kind of economic system that the Soviet Union has now.

In the *Uni-Godhead's* giving of the prophecy in St. Matt. 21:41-44 - hundreds of years before Christopher Columbus came to the American continent - we might ask why ETI could not have gotten the cornerstone laid thru Abraham's group or thru Its men of the Adamen.

We could just as well ask why Abraham Lincoln came a hundred years later to keep the US Union together in its so-called Independence, which the Americans thought they had won in 1776. And we could also ask why Prophet Marx hadn't arrived with the ABC Gospel about money, property and materiality until after the US had already been taken over by private banks, which would, of course, lead to private money and private property. This was all due to the *Uni-Godhead's* timetable for the rising of knowledge and consciousness, and the sending of later prophets to tell what money and property are.

The majority, then and even now, of US Senators and Congressmen had never experienced money - to be without money or to be without property. No one can find a thing until first it is lost. And until a person 'loses their self' in the mass of human conflict, they could not possibly rise out of duality to be of service to anyone. If US money were used properly, then value wouldn't be in money or property.

### ***WORLD COMMUNIST MOVEMENT - TRUE CHURCH OF UNI GODHEAD***

It has taken all this time to bring forth a group of people with the tolerance and understanding to represent the Universe, Its nature and creative life-force to the world people - and it is the "World Communist Party". I'm not omitting the Catholics, Protestants and Jews from the church of the *Uni-Godhead*. The persons who formed the beginning Communist Movement came mainly from Catholicism, Protestantism and Judaism. The difference is that the Communists have 'oil to light their lamps'. As we noted before, this can be taken two ways: one would be material needs and the other would be spiritual needs. Socialism (property, industries and natural resources operated collectively by and for the workers) leads to true communism, but capitalism cannot lead anyone anywhere except where it's going: oblivion!

Those who remain in 'the faith', or religions of Catholicism, Protestantism, Judaism, etc., stand in judgement and have yet to prove their faith. The Communists have proven theirs. They have a hammer and a sickle! The church and temple Catholics, Protestants and Jews do not have a free hammer or sickle. All they hammer out is controlled by Gentiles, and what they cut down for the state is coming back to cut them down.

At least this is what it says in Rev. 6:9-11 about the righteous ones who died in the WWII Armageddon. They rose into the etheric heavens, were reprogrammed, and since have returned to the earth plane as this generation of New Age flaming youth, who are carrying on with the *Uni-World Revolution*, or the IDEA whose time has come and cannot be stopped. They are not going to be deceived again. Let all the nations fall. Who cares! We are going to get rid of national boundaries anyway!

The whole world is in Communist hands, and "upon whomsoever this stone falls it shall grind them to powder" (St. Matt. 21:44). Those people who are yet subjects of the satanic cyborg beast (under capitalism) are only furnishing the reaction to force the Communists to take

over the whole world. And ETI will see to it that the planet is not brought under socialism, but true Communism. The true church of the *Uni-Godhead* will carry the world people on into *true Uni-Communism*, or Christ Communism. It may not be the Soviet or Red China Communist parties that do this. Maybe it will be the US communal people who do this. Anyway, the Soviets and Red China have their hands full, trying to support the revolutions of *Israel* people in many nations, while maintaining themselves.

The new youth are not indoctrinated with Marxism or Maoism, but they are intuitive dreamers of a New World Paradise. Why not?! Why peddle anything except the vision of true Communism. This will become clearer to Communists when it is apparent that capitalism is falling out of the picture of itself. Then the Communist parties will say, "Oh, we didn't expect it to happen this easy," and they will scramble to teach and practice True Communism.

The last part of Armageddon coming up isn't a war in the sense of wars. It is more of a big freak-out, where predator robot bodies suspended in the New Age incoming energies are mesmerized into exorcisms. Of course capitalism is all an exorcism. The last days of the Vietnam situation, in which the *Israel* people took over Vietnam out of necessity, proved this.

The basis of our New World Government, which is rising out of the revolutionary Cosmopolitan World People of *Israel*, is a world wide Communal Democracy in which every person has absolute freedom, security and abundance. All the national governments are dissolved by means of their obsolescence, and the New World Government that comes will have no power over life and death. And it will be exactly as it says in the New Covenant-World Bill of Rights: "Let the government be of the people, where the people are self-governed; by the people, where the people enjoy perfect freedom; for the people, where the people give themselves abundant living. Let the Government seat be only the storehouse and inventory of the people's products."

Government should have managed the necessities of life all along to produce liberty, justice and equality for everyone according to ability and need. But national governments do not do this. They manage a privately owned Federal Reserve System and the people are in business against each other.

The Roosevelt Administration saw this clearly, so they put the people's government into big businesses for the people. They couldn't buck the FRS without changing money all over the world, outside of the Socialist nations. The Socialist nations had already made their money free cash flow to nourish their people according to ability and need. Socialism's use of money can liberate the people, because it is not under the interest-bearing notes and taxation of the Gentiles' FRS-CIA system.

But capitalist money is all interest-bearing and taxed, except for the *Uni-Godhead's* Constitutional Church, which is financed by ETI. ETI is of the righteous ownership of all things (righteousness is right-use-ness). When we own all things "by right" rather than "by might," then all things are shared and there is abundance of all things to go around to make every person a king. In the literal meaning of king, though, who wants to be a king? Normal people simply want to be free to express their creativity and go and come as they are inspired. In our New World every person will have all things at their fingertips: food, clothing, shelter, care, recreation, transportation, communications, utilities and all kinds of creative industries that produce all the art, drama, ballet, music, etc., for all the people.

No money will be used in our New World, and there will be no form of military or penal establishment. Our space comrades of ETI have no kind of military or penal system, and use no money. And their social science is so far superior to that of this planet that earth people cannot hope to entice them to change to their ways. Plus the technology they have is so mighty it completely dwarfs anything here. Yet it is within the comprehension of the high people on this planet.

Let us let go with our hunches, our intuitions now, expressing our real feelings about the *Uni-Godhead's* Space Angels. The whole of the Scriptures is about space beings, communism and the Kingdom of God. The Bible is a book, part of which is the *Uni-Scriptures*, and it was to lead the "heart people" of the earth elsewhere. You can see they will be the most difficult to change. They will sacrifice themselves for the religions they created around Jesus. But so far, no sacrifices have produced anything real for anyone. It is more like Jesus got nailed to a pole in the form of a cross, not for the remission of sin, but because people believed in sin and executed him! Why didn't they see their errors or transgression against nature, life and the *Uni's* natural laws in general? When they do, instead of a penal system, every person will be objectively helped, loved and lifted regardless of what they have done.

The penal system is only an illusion, glazed over the real, pre-existing spiritual truths that the people should put foremost in their ways of living. The murders and robberies in society are no different from the murders and robberies that ostensibly take place legally in wars, where soldiers obey the illusion of a state which has erroneously taken power over life and death.

For those who believe that human nature will be changed without the proper social environment in which people are free - according to a master plan that is all for their benefit - let them forget it, because without it people only go on reaping what they have been sowing in mental seeds, and are still sowing because they do not have a social environment in which they can live according to *Uni-natural dynamics* and record right experiences.

Usury money only lets infidels and fools rise to the top of status quo doings and play silly money games with the people, who in turn are spoiled by false religions, false education and false government.

The existence of many conflicting social, religious and political groups, all claiming to represent the world people's interests and those of the working class, can be seen as representing a particular stage of the World Revolutionary Movement. As Prophet Marx observed, "The development of the system of socialist sects and that of the real workers' movement always stand in inverse ratio to each other." Notice the words Marx uses, "inverse ratio."

Where does the word socialism apply, and where does the word communism apply to the World Revolutionary Movement? Socialism derives from a society that is sociable, and communism derives from the idea of holding all things common. The amount of conflict between different national and social groups is in inverse ratio to their knowledge and vision about the task at hand. The Universe knows what the things are that need to be done here, and can tell anyone about them who wants to know and has the heart and mind to carry out orders that are for everyone's freedom, security and abundance. Any limitations expressed are the limitations of the person expressing them. And it only derives from the desire to maintain a status quo where some people have special privileges.

All the good things that people have who are under capitalistic effects are of communism,

community or cooperation. Their libraries, schools, welfare, social security, and even the structure of the family unit and the military is communistic. Those facets of society that don't function in cooperation are controlled by the usury money of private banking. A lot of people are employed in the exorcisms of capitalistic effects, such as people in banking, insurance, government paper work, the Internal Revenue Service, and all people associated with business as usual. When the ETI Communist revolution came in Russia, where it was chosen to happen, all these kinds of jobs ended. And a workers' collective came forth that eliminated private property, interest-bearing money and taxation. The Soviet people became the government of, by and for the people.

Let's be realistic and altruistic... Did the Communists really inspire the Soviet people to overthrow the ruling class in Russia in order to build socialism there, the step the World Communists would take before the whole world was communized? It was, in one sense, a spiritual group on bloody Sunday that gave the Russian Socialists the backbone in dialectic discussion to begin the uniting of many people to rid Russia of its old ruling class. And there never was any other idea to change anything into except pure communism. But the stage of socialism had to come first, because no people in Russia had ever lived the communist lifestyle. Therefore, there were no mental seeds sown for it and recorded in the aura of Russian cities or the collective aura of Russia in general.

The One World Family Commune, since its origin in 1967 in San Francisco, has sown the mental seeds in the planet's aura of its ways and means. So in reading this World Master Plan of true *Uni-Communism*, many people will get hooked in telepathically to its knowing ways and means, and doubts about it will leave them.

When the appointed ETI scientists, who have built the big electronic scanners to pick up messages from higher celestial centers in the Universe, add a kind of speaker and television tube to their light show, then they will pick up messages that read allegorically just like the messages that are already given in the Scriptures. The prophecy I reveal at this time has been in the Scriptures under your noses all along. But only appointed writers like Thomas Paine, Adam Smith, Joseph Smith, Marx, Lincoln, Mary Baker Eddy, Lenin, and the writers who brought forth the Jehovah's Witnesses, the Latter Day Saints and The World Tomorrow programs (Herbert W. Armstrong), and so on, have progressively revealed unfolding prophecy. Of course there are also those scientific and philosophical writers who have furthered the Adamen world movement, notably Albert Einstein. But now in this *Everlasting Gospel* the Universal Mind is laying the whole trip on you, through my channeling of these writings.

The underlying factor is that, in the truth of progress here, there was only one path at the beginning of this earth dispensation; and at its ending there is still only one path. But as the world people progressed, they divided yin and yang according to their words spoken and acts done. Their material progress was recorded in matter, as well as in the space atoms about them, which reach out to form the planet's akashic records in the planet's aura. This is the collective consciousness of all the entities of this project.

The fact that increasing wars, crimes, diseases and poverty go on ravaging the planet is proof that the leaders who formed the false religious groups mentioned didn't remove their followers from duality and inspire people to build a heaven on earth. This could have been done by the churches pitching right in to raise food for people, and sending out missionaries who

would lead the people into the kind of industrial communal projects Jesus was teaching about in the days he treaded the dusty paths of the Roman provinces. I realize, as I say this, that it wasn't possible then, because all human life on the planet is subject to the akashic records which have collectively been recorded thru many incarnations.

For example, Herbert W. Armstrong, with The World Tomorrow radio and TV broadcasts and the college facilities and offices they have established in the US, England and other places, couldn't have come forth without people of wealth contributing to his cause. Had he shown any sign of liberalism towards communism he wouldn't have gotten to first base in the US. Now they are in a position to take this *Everlasting Gospel* and fulfill its truth, which is the real mission they have been building up to.

So then, the *Everlasting Gospel* is really putting on the spot what I would call progressive and powerful religious groups such as Jehovah's Witnesses, Latter Day Saints, Unitarians, Baptists, Presbyterians, Methodists, Quakers, the Herbert W. Armstrong group, and others. They could all accept this "World Master Plan," put it up front as the main topic of news, and have it all over the planet in 90 days with their present facilities. They wouldn't have to accept or reject political communism. All they would have to accept is the Kingdom of God, here and now, thru the promotion of a World Wide Buyers' Strike, which can do all the things right now that socialism couldn't do in even a thousand years.

So what if we solved all the problems of materiality and had our material needs fulfilled, but we still hadn't fulfilled our spiritual needs for real freedom, security and abundance in every way? What is it that drives us on in the face of utter stupidity in regard to nuclear war? What causes us to cling to beliefs we have had for fear we'll lose out on what religious people claim is their God fulfillment? And what causes many people to pursue the socialist challenge? Where does the common ground lie to which the Creative Intelligence of the Universe has been leading us? It lies in the uniting of all people to fulfill their destiny mission for all humanity, according to the *Uni-ways and means* of the EG's World Master Plan.

What is the book the Scriptures speak of that is opened in this end time, out of which all the people are judged according to their works? They could not be judged according to the things the prevailing religious hierarchies made out of the teachings of Moses or Jesus, because they are not complete. The book is the planet's akashic record, and the world people can only be judged according to their acceptance or rejection of the EG's World Master Plan. They are not judged by anyone's speaking. They are judged in the finals as to whether they rallied with me to build the Kingdom of God now, or whether they dilly-dallied along the path of duality which must synthesize into a true World Wide Communal Democracy.

The fact that a great army under the Communist Party has risen in every nation that has been invaded by Gog's army makes them the most important and potent force on the planet.

Zionists feel their last hope is in the nuclear weapons that they believe their man-God up on cloud nine has given them to be used against the forces of evil. But the untamed, evil forces have only risen out of the Hebrews' beliefs that are, if anything, teaching them to be true Jews. But to them, God has used 'atheistic Communism' as a prod to force the Hebrews back to true Judaism.

Naturally, the Zionists, the Latter Day Saints, the Jehovah's Witnesses and The World Tomorrow people still cling to their original error, which is the idea of a chosen people, the fall

of mankind in the Garden of Eden, Satan as a person, Jesus as a world savior, and so on - which is all one grandiose illusion! They cling to these crutches because to come right out in the open and seek first the Kingdom of God, which is in nature and the energies of the *Uni-Godhead*, would make them Communists.

They have said they would rather be dead than red. They spoke it, so then, unless they change their ways, they will be dead. All the world religions could be gone in one day after the system of capitalism falls. By this I mean that after those people mentally subjugated to capitalism lose their ability to make war and it is demonstrated that they can't win with nuclear weapons because ETI controls them, then where will the religions be? .

If Jesus comes for his church, then they will be taken up into the heaven he has prepared for them. This would only be a small percentage of the people on the planet.

It's a real problem, as those of you who are open-minded free spirits can see. The Scriptures tell of the time when the Israelites cast in their sickles and reap the world. They cut down the bad wheat. Not really bad, just too stubborn to try something new and different.

This is done at a time of great upheavals in every nation as yet under usury money. The *Uni-Communists*, who are the real spearhead of Judeo-Christianity, will have the power, and they know if they don't make a clean sweep of it while the opportunity presents itself, then the setting up of the New World could drag on for years.

If a phony peace came before all the religions had ended, along with the other institutions that foster world ambitions and the old ways and means, then this would not be a total conversion of all people into the *Uni-Christ Idea*.

Now - so that some people will not call me this, that and the other thing, or vainly think that I am setting things up to be the big wheel - the *Uni Godhead* has settled all of this in presenting the highest goal to be achieved as *absolute freedom, security and abundance for every person*. This is the high spiritual goal. There's no place in it for religion or politics or any kind of power, except just plain every day serving the *Uni-Godhead's* creation with all your heart and soul and serving your brothers and sisters as you would want to be served. This in no way stops anyone from believing in the Universe and Its nature, life and spiritual drive within them. It causes people to be omnipresent in God's purposes. But it will not tolerate any sect that sets up a religion to tell superstitious people stories about a God that supposedly gives them more than the Universe Itself gives.

The facts, relative to the battles since 1914, reveal that the Communist party didn't have to export soldiers to any area of the world to win the territories they have. They held out against Gog's armies (the Axis powers) in the new Soviet *World Nation of Israel* thru the Soviet people who rallied with the Communist Party. They held out in Korea in the same way with people who wanted changes. They took Vietnam in the same way and are winning in Africa and India. And as the Middle East, South America and the US come up, they will win in these places also.

Why must they win? Because the masses of people all over the world will throw off the old status quo yoke when the opportunity comes to them. There's no returning to the old, there is only true communism to build.

I haven't said much about the Catholics or the Vatican in Rome. The Catholics were tamed long ago, in the 15th and 16th centuries, thru the democratic opposition they ran up against because of the big power trips the Vatican laid on entities like Copernicus, Galileo,

Luther and others. These entities were all of the elect, of the one in command, bringing forth knowledge that would lead the world people into the scientific-technological age. This was, and still is, more important than all the religions put together.

We could say, and rightfully so, that the Catholics, as well as other religions, have only remained this long in their worshipping a Father God image of themselves because, in the *Uni-Godhead's* giving of the US Constitution-Bill of Rights, religions were given freedoms that set them apart from the state. This set the pace for the whole world up until the time of the communist revolutions in Russia and China.

The reason the *Uni-Godhead* set things up this way was because the Messianic Complex would be set down in the *US Israel*. That is, it was from the US melting pot that I would rise, along with those chosen to be with me, and bring forth the Universal Industrial Church of the New World Comforter that would have the World Master Plan and bring forth the books of the *Everlasting Gospel* that would fulfill the *Uni-Godhead's* purposes for all humanity.

These elect and I have rights in the US now because we had them established in the US Constitution when the US was founded. The US Bill of Rights has shaped the nation - not its people or even its religions, even though they have had the freedom under the US Constitution to bring about the Kingdom of God, which I'm sent to bring in now. As people of the different religions read the EG and see how easy and ideal it would have been to set up the Kingdom of God on the planet before this time now, when it's a must or else all flesh could perish, they will say, "Gee, why didn't we set up communal free enterprise before and hold all things common?"

I have spoken to you thru this Gospel and shown you, in the One World Family Commune, the ways and means of the Kingdom of God, your heaven on earth; and so far, no people or government has come to aid us in our greatest of all causes.

But as the karmic cleansing closes in on the US citizens - as the ultimate state of Fascism rises again - the man child, who is to rule all nations and is of the *Uni-Godhead's* throne, and his company of radiant persons will be taken into a land where we have a place prepared by God, where we can live during the 1290 days of planned tribulation. This period comes before the 1335 days told about in Daniel 12:1-13. If Allen Michael and his comrades can't lead the US tribe of Joseph, in the first part of the 1290 days, into a World Wide Passive Resistance Movement which entails a World Wide Buyers' Strike, then we shall be taken out of the US as the karmic cleansing closes in, and be in a safe place until it is over. We will then come forth to set the whole world up as a great One World Communal Democracy. By then most people of the world will know that what I gave turned out to be true.

In other words, I, Allen Michael - the one destined to unite all nations - and those of my company of the 144,000 (Rev. 14:1-20), placed among the US tribe of Joseph to lift them, won't be the ones behind the eight ball, so to speak. If the citizens of the US cannot be rallied by the EG's World Master Plan, which was circulated in the first book of the EG that went out in 1974, then there is no need for us to remain here and go on thru the US karmic cleansing.

It is the truth that makes all of us free, regardless of race, color or creed, and not the work of the Orthodox Jews or Christians, or for that matter the Moslems, Hindus, Buddhists, etc.

Only the World Communist Movement is in a position to receive the whole world or to bring about the kind of detente that will end the tribulation period and bring in the New Age now. All the rest of the world people under the cyborg beast have bills to pay. The communists

have no bills to pay. They are economically into the natural law of supply and demand. Their prices can't go up so that they would boom and bust, boom and bust; nor can the workers of socialism ever be out of work. They've got plenty of work to do to rebuild the whole world, which they can do because they don't need money to do it with and they have plenty of natural resources, industries and willing hands-hands and voices rising all over the world. "Glory to Christ Communism!"

### ***THE NEW WORLD COMFORTER***

In St. John 14:16, 17 and 26, we read: "And I will pray the Father, and he shall give you another Comforter, that he may abide with you forever;

"Even the Spirit of Truth; whom the world cannot receive, because it seeth him not, neither knoweth him, but ye know him; for he dwelleth with you, and shall be in you.

"But the Comforter, *which* is the Holy Ghost, whom the Father will send in my name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you."

I AM the one sent by the *Uni-Godhead* to fulfill this prophecy. And my mission with the elect of the 144,000 is to establish the Kingdom of God *now*, and not after a thousand year millenium.

I'm not sent to just bind Thatons (Imperialists and reactionary people) for a thousand years - a millenium in which the world people would be under socialism without ridding the world of money, or the judiciary, penal and military systems - but I am sent to bring the fullness of the Kingdom of God in at this time. Read Daniel 2:44 and 45 and you will see what I mean.

ETI is of the *Uni-Godhead*, and we go right on past the Father God to bring in the Kingdom of God now. The meaning of my being the Holy Ghost is that I am a well-trained and experienced adept in satanic matters, but I am the full representative of the Holy Spirit, or Spirit of Truth. As I seek no world throne or to have anything other than that which I would share with everyone, then I cannot be led into temptation to cash in for anything less than a true communist world now.

For those of the antithesis, who oppose *Uni-Communism*, their contribution to the New Age is that they formulate of themselves the contradictions and repressive situations that cause the reaction which forces the world people into the Kingdom of God, whether they want to go or not.

However, the two opposing world forces at this time are free enterprise versus socialism (leaving capitalism out of it because it is only effects and has already fallen). The leaders of free enterprise will fit into the communal state, but not into the socialistic state under the present communist dictatorship that was necessary up until this point. But now detente calls for the Communist Party to begin planning for the true Communist World.

As I am fulfilling the work of Marx, Lenin, Eddy, Lincoln, and all the other inspired persons who contributed to the Messianic Complex - all who were acting as ETI cosmic channels of the truth - then the Communist Party and those of Judaism, Protestantism and Catholicism must confer with me. The early Communists conferred with Lenin, the Catholics

confer with the Pope, the Protestants with their head Bishop and so on, so then why shouldn't they confer with me? Of course, I know what the problem is. All the others proved themselves in time, whereas I precede time. How could ETI prove its worth in time, when it was here before so-called earth time began. I am ETI, comrades. Check me out and you'll see!

I ask, "Why are they so timid about inviting me to sup with them and to talk about how we shall lead the world people into the true Christ Communist state now?"

Do they believe that if they give me an inch I will take a mile? This is foolish! They judge according to their feeling and not according to the truth, in which every person who channels for a New World should be up front and in the world news, telling about the ways and means of our New World and demonstrating them.

As far as my taking a mile, I already have the complete ring; so if they give in an inch, then we can all go the last mile together.

This is the period of detente. Let us use the real affirmations of truth now, because when the Middle East erupts, then it will be too late to plan civil social action. Then, when the Middle East is occupied by Christ Communists and the US tribe of Joseph has risen in the US, the world will be ready to accept the EG's World Master Plan.

If the EG's World Master Plan is not put into action until the last part of Armageddon is over, this only means that millions of people who went on in their old ways - vainly believing that the world problems would resolve themselves or that their politicians would take care of them - would be put down because they were blocking the birth of the New Age Child that is travailing in birth to be born now. Read Rev. 12:1-8 and you will get a picture of what's happening. The woman with child having a ring of 12 stars over her head is symbolic of ETI space beings who bear the New Age gift to their long lost comrades of the earth plane.

The books of the *Everlasting Gospel* bring to all people of the earth the ways and means of the Kingdom of God. It only seems like those people mentally tied to cyborg capitalism are fighting for their free world. They are only fighting according to their beliefs; and the result is that they are forcing in the New World over their ruined selves.

If the reactionary people who haven't real faith were going to stop me, they would have done so by now. The point is, can they stop me? It would seem that the destruction of a body would end the campaign of a spiritual person. Some persons, who have been shot through or imprisoned or disposed of in other ways, have been removed for a time, but have come back and carried on. All the great persons of the past have incarnated now and they are getting their stand with me ready now; and they will receive these messages because I am here in the flesh and also sounding in their head/radio-TV transceiver (St. John 14:17).

No one can touch me as long as I do not get scrambled up in my head. If I were to take sides or act outside of the "one idea," or wear my heart on my sleeve for suffering humanity, then I would become their idol of worship. Then they would never know that I am them and they are me and what I do is purely to have the freedom to express my creativity along with everyone else, where we can all develop talents and ability. We are not to take thought of what we will get in return, because any person can see that when every person is giving to the common needs of all people, then everyone's cup runneth over with all the things they could possibly need or use. But when people are getting for self first, as they are under usury money, then they are trying to cut their piece of pie out of the middle, and only those who play their

game get pie and the rest of the people get the crumbs.

Enough blood has been spilled trying to maintain illusions. So let us unite together and go the rest of the way into our New World thru real logical reasoning and thru the democratic means that are in our hands in Constitutional Law. And by this I do not mean thru legislators. There is a government of, by and for the people and it is only in the people themselves. The legislators can legislate into being the ideals of the EG's World Master Plan, but only the united people can carry it out, and whether the legislators act in behalf of the Kingdom of God doesn't matter, for the power is with the people.

Who can disarm the world? Only I have ordered it in a realistic way, and only the truth makes it so. Who controls the nuclear weapons and for what purpose can they be used, if at all? The *Uni-Godhead's* angels of ETI have control of all things here that can harm life and this planet. There are undoubtedly people who think they are life because they live. But there's more to life than just being born. People who cannot see the eternity in all of it have been the blind leading the blind! They fall into the ditch, but they don't have to. Some people fall into the cursings and others receive the blessings. And this is already predetermined by their past conditioning. Naturally the past is gone. Each moment that clicks off on the tape can be eternal for those people who are not moved by time. All things in the Universe move and keep going thru eternal cycles that have no time.

I don't have to gain eternal life in the Universe. I already have eternal life - not in a body, because who wants to stay in one kind of body when bodies grow all over the place in *Uninovas*; and entities can select their own cloak and be male or female just by living spiritually and planting the mental seeds of higher imagining, which go into mental causation and create what you program from the cosmic life force (which is, of course, already programmed to have perfect health, vitality and abundance in all ways). All things come from the Universe, even the ideas that advance science to the point of *knowing*. Then science stops thinking, because everything is *known*. Everything! All things already exist in perfection with the high space people, who live on planets or in space, and in or out of bodies at will.

For example, my consciousness is Universal. I am everywhere I need to be in the Universe to have all knowledge that is needed for whatever assignment I am sent on. I give a World Master Plan which comes from the only authority there is, the *Uni-Godhead*, and is full life, liberty, equality and pursuits of happiness for everyone. Plus it is full of freedom, security and abundance for everyone, which goes way beyond the former.

No one can put it down! They can only add unto it by entering into its ways and means. No entity is ever lost for very long. Eventually they are all recovered, because the Universe restores all of us. It has no waste or byproducts. All is continually recycling. Special energies are provided for entities in bodies to stay in, and there's no need for a body to be in nature's disposal system (degeneration) while an entity is in it.

I am giving you the vision, without which you are perishable. It makes good sense to return to the vine of life for all your food and to no longer depend on dead things for food.

The persons who have the best products to sell, so to speak, don't have to push them. I cannot be personal about your beingness. I can only tell you of the path that returns you into eternity once again. I AM an example of that eternity. Not my body, though, because it is subject to the energies of this planet.

I'm a very patient person. I have been here and about for over a million years with other ETI personnel for only one purpose, and it is to see this planet and its people thru into the Kingdom of God - ETI organization - which comes through the observance of the right ways and means in which we are loving and lifting all people.

There is a hot line of energies we will call the *PSI synthesis* that runs through the whole maze of things, so get on the "Hot Line" with Michael - that's me - in the stand I am making with the Holy People of the world. The prophecy in regard to Michael's stand with the Holy People (Cosmopolitan World People) is in Dan. 12:1-13.

The Kingdom of God comes not thru intellect, but thru intuitive psychic knowing. The Kingdom of God is coming thru people who hear something else in their heads besides the razzle-dazzle of the smart set.

It has been creeping up on us for a long time, causing us to come out in the open and express ourselves - Hallelujah! - to know that we are together and each of us can say, "I AM."

Affirm to all people with joy that this is the TIME, and we are the people, and I am the one sent to bring to everyone the *Everlasting Gospel* (Rev. 14:6) and its World Master Plan, which all people can cooperate with to bring in the New World - now thru world-wide organized *passive resistance-civil disobedience*.

I want the same things I would grant to everyone and everyone would grant to me.

I want absolute freedom to express my creativity.

I want absolute security in a world where there are no prisons or military and no money hang-ups.

I want absolute abundance, because the planets I live on are abundantly rich in all things and there is no lack of anything because all things are shared!

I am you and you are me and each of us is the Christ for whom we seek. There's nothing to be 'saved' from except ignorance!

### ***THE LAST WAR FOR THE WORLD***

As I have told you, coming up in the Middle East and in the US is the "Last War For The World," in which it would seem to those under capitalism that they could at last win the world back from *Uni-Communism*. This would really be going backwards!

War is the only way the Thatons, or Gog's Army, can maintain. But they cannot destroy Christ Communism with nuclear missiles. Should they try, ETI space beings have control of all nuclear warheads and could fire them and direct them all into the "valley of passengers," the route between the Pentagon and Wall Street America, where Gog's Army is at last buried.

Ezekiel, chapters 38 and 39, tells about this fantastic event and its outcome, and so does Revelations, chapters 17 and 18. "Babylon" is the usury money system of the American Nationals and the part of the world that is yet directed by them.

Psychologically, what is being said here about the American Nationals? It is this: As American nationalism falls, then all the people who thought I was talking about them suddenly become citizens of the *US of Israel*. In other words, for the people who do not know the difference between being *property*, which America refers to, and being a Nation, which the *Uni-*

*Godhead* has chosen "to be a blessing to all the families of the earth"; they had better learn real quick about the destiny mission of these people. Are we to suppose that we are going to stay in America forever and defend it against its enemies? From the looks of things, in the hearts of other people over the world, they would feel that it would serve the Americans right if war came to their own backyard.

But war on the North American Continent is not going to hurt. In fact it would liberate US citizens from the ladies and gentlemen (gentiles) not confirmed as yet into the real Christ mission on this planet. Naturally, the American gentiles are good people in their own right; but as Lenin led Russians into the USSR, now I lead the US tribe of Joseph, the sister republic of the USSR Judah, into a *United States of the World*. People who are still thinking of themselves as Americans, Germans, Japanese, Chinese, Russians, etc., and allow themselves to be property, do not have any identification with reality.

According to the *Uni's* numerology and its ETI absolutes, numbers, no matter how used, begin with zero and go up and down the light spectrum scale and always come back to zero. So then, the US citizens under usury money have been going up and down in number games to boom and bust, boom and bust; booming for a short period, and afterwards busting with depression and inflation - then off to wars to fight the enemy that isn't there. Prices are soaring, workers are being laid off and there is no capitalistic remedy for it. Babylon has reached its end. But this is great! Now the *US citizens* can go on into true Christ Communism, while the *Soviet Israel* holds down the drawbridge to help them pass on thru.

Usury money has attached the people to numbers, so the people themselves have become the livestock, so to speak, of the Stock Exchange, who are sold to the highest bidders on the stock market.

As things are now, the US Tribe of Joseph is controlled (hog-tied) by the last of the old Gentile Order, which has run America (not the *United States of Isreal*, but America) for the last two hundred years. They involved the US citizens in the World War Two Armageddon, out of which much of the world's land mass and population was brought under socialism. They involved the US citizens in the Korean War, out of which half of Korea is under socialism. And still again Gog's Army struck in Vietnam, and the result of this demagoguery was the taking of all Vietnam by an army that rose out of the people and was supported by the Socialist Bloc.

The US citizens, at this time, shouldn't wait for the ten percent who are going broke to lead them off into what will be the "Last War for the World." If this happens, the US citizens will be rescued by the Soviets and Red Chinese; but not necessarily from capitalism, because capitalism rose out of error as a cyborg beast and is fed by past karma. When the karma that makes Americans fight out of fear of duress by their own establishment is depleted, then the error is gone and so-called capitalism automatically returns to oblivion from whence it came.

The world center of the stock market plays number games with the workers and their products and the food they produce. Ezekiel calls it Magog, and John writes about it in Revelations as a beast with seven heads and ten horns.

Chapters 17 and 18 of Revelations are all about American Babylon, and tell of its final judgement, in which Magog, which is New York City, is utterly destroyed by fire (Rev. 18:10). These chapters read as timely fiction when understood; but when the truth is told about them, they cause the people to act upon a timely reality that will not let this prophecy happen. Such

negative prophecy can be offset by taking the kind of action I propose in the big promotion of a really far out World Wide Buyers' Strike. This is the only feasible way of preventing the calamity that otherwise is sure to come.

The EG's World Master Plan went into world circulation in early 1974, and as yet hasn't been brought forth by the Zionists, Catholics, Protestants, Masons or Communists (but the Communists are the first to respond to me and my elect). Therefore, there is as yet no World Master Plan thru which the big argument can be resolved as to who will rule the world or how the planet shall be run. So the Zionists, Catholics, Protestants, Masons, Communists, and all the people, must go on to the end of the road to witness the big display of fireworks that comes to Magog when she is utterly burned with fire, destroyed by nuclear missiles made in America, but guided by ETI. Our World Wide Buyers' Strike is the only sensible spiritual way out thru real democratic action.

The Godhead's judgement of Gog and Magog utterly destroys Gog's Army in the Valley of Passengers, which is the route between the Pentagon and the New York Stock Exchange - that is, if they don't do better with these next books of the EG than they did with the first book, which was mailed free to all nations and hundreds of prominent media people and religious leaders in the first part of 1974. So get these writings into the forefront of news topics, and then we can have real things to talk about and unite people behind to build our New World, and not go on with this old dying order.

The judgement of the *Uni-Godhead* on Gog and Magog is in no way an arbitrary judgement of a personal God or man-God. It is a technicality the Universe cannot change without changing Its own natural laws, which It cannot do without changing the whole Universe. Its governing law, built into atoms and our conscience, is cause and effect, karma-retribution. *Uni-Godhead* never punishes. The people are punished by their own unrighteous doings.

The soldiers of the world will unite and save their hides from the cyborg beast - the mental seeds they have sown into their planet's collective aura; either that or else this dragon will go right on dragging them through the tribulations until they have all killed themselves and ravaged many cities. For once let them use natural logic and reasoning.

The soldiers can use the media and bring unity among themselves. I have talked with people in the military and they always agree with me, but they think it's unrealistic that soldiers (because of the duress they are under) could ever agree that in battle they would not fight each other, but would simply go through the motions of pretending to fight.

In the past the kind of World Wide Passive Resistance Movement that I am promoting could not work, because the past karma that fed the wars with its paranoia was too powerful. But now many people are feeling the tugging spirit of the mind energies that the Spirit of Truth radiates, which open up the vision to them of total changes that will come.

All of this past struggle since 1914 has nothing to do with what people want or what seems right to body senses or mortal mind. It has only to do with those eternal things that *Uni-Godhead*, thru Its ETI space beings, has ordered for earth people. The destruction is what they bring upon themselves.

It is obvious that there is only one army on this planet, and it divides yin and yang to go to war only because its leadership is divided yin and yang - or antithesis versus thesis, which

evolve one upon the other into the Synthesis. If the opposites finally synthesize in the "Last War for the World" - the last part of Armageddon told about in Ezekiel 39, which erupts in the Middle East and spreads to the "valley of passengers" in the US - then this only means that the words were not spoken and the necessary deeds were not done that were before the facts.

As far as an accidental nuclear war is concerned, all people of ETI know it is all under control. Atomic bombs were not used to destroy Hiroshima and Nagasaki. ETI, simultaneously with the CIA charade bombings, exploded the aura of these cities, which rebalanced Japan's aura. This is why they took off on the fantastic industrial undertaking they did. But they did not change their economy to match their new technological revolution. So now they have built up the same karma all over again, which is causing paranoia (mental toil and strain) to lead them into the same war all over again.

All wars down thru the ages have been the same war. The wars in themselves are only karma. The truth, in words and deeds, that ends war forever, sets up the kind of world social environment in which true exchanges of all things come about naturally, without taking thought of the things in themselves.

The trade deals, as they called them, that the Soviet government set up with American businessmen are doomed to failure. So are any papers signed to prevent nuclear war. If the last part of Armageddon is played out and, in paranoia, the American Nationals fire nuclear missiles at the Soviet Union, then ETI can intercept all nuclear missiles and burn them up in the sky, or lob them into the ocean and then explode the aura of Magog, which is New York City. This in itself will so shock the whole world that all useless struggle will end right there.

In the meantime, the *Israel army* of the Soviets, called the "Red Army," will have occupied Arabia, Egypt and the Hebrews' Israel. They will have come in support of the *Israel people* in these nations and also to the United States to end the useless bloodshed there.

When cyborg capitalism goes in the US, then it goes all over the world. Everyone who is literate to telepathic communion is ready to give up capitalism now, but socialism isn't the answer that the inner soul seeks. Naturally, when all resistance is gone to the "idea whose time has come and cannot be stopped," then there is nothing left but to build true communism worldwide.

Then the Soviets will have a real problem on their hands. It will be how to build the *true Communist World*.

The World People shall unite with me and the 144,000 now to carry out a fantastic, realistic, altruistic World Wide Passive Resistance Movement to offset the Last War for the World, if it comes to that, in which the World Communists, out of necessity, will be forced to occupy every industry and institution on the planet and set them up communally.

The CIA demagogues are just acting out a part. They don't really care whether they win or lose and do not even know the difference. They are just programmed into what may seem like adventurous parts to them, and they just go on playing out their roles (which really amounts to the tripping up of the people who lag behind because they depend upon governments to make policy for them).

There is man's kind of government, in which he simply plays with material tinker-toys. There is Universal government. And the *Uni-Godhead* does not play games, but thru eternity has been known by trillions upon trillions of righteous beings throughout the Universal Family

to operate an omnipresent, omnipotent and omniscient Universe.

As our purpose is to change people, and at the same time set up the right kind of social environment in which people can be free and have real security and abundance, naturally we are not going to fight with the so-called bad guys. The CIA guys and gals will set up the war games for those who want to fight wars, and the *World Army of Israel* will be on hand to occupy all the territories after those who fight have killed themselves. What better way is there to rid the world of persons who will fight for illusions? Now, you know very well that I'm not the kind of general that tries to get a paper peace signed by men. It isn't worth the paper it's written on. The peace that is everlasting comes because there is no one left who would fight for any secular gain.

### ***BEYOND MORTAL MIND HALLUCINATIONS***

The old world people, with their old world religions and politics, see Communism as anti-Christ and anti-God. This is because they are yet in *mortal mind*. They see Jesus as Christ, but Christ is *Universal Consciousness* and there is no man-God. There is only the omnipresent Universe sounding all around us and in us, audio-visually, from atoms.

Space atoms become a television screen on which you can project monsters and villains that manifest your exorcisms so you can have shocking traumatic experiences. Even this eventually leads the blind back to a point in reality.

On the same space TV screen, you can command energies that will show you pictures and give you details of a workable hypothesis to solve all problems conflicting people.

It is for us to know the difference between that which is real and material, and that which is unreal and not a materialization of actual physical things. This is simple to know, because all things and all associates with you have but one common problem and purpose, and it is to make life here as joyful as possible for everyone. There is only time being wasted on people, and by people, who need more time to make up their so-called mind. Time runs out! And in reality, people have no mind to make up. The One and Universal Mind is already made up, and they had better learn to accept the things that are real and stop pretending that their hallucinated he-God is real, that capitalism is real, that religion is real and that science is real. For none of these things are real.

I realize that for people to begin seeing themselves as eternal entities, and not as bodies or of a race, is really advanced truth for some people. However, most of the people of the East know this, and it's high time that the people of the West have this realization also.

The American Nationals celebrate on the 4th of July with fireworks and go to McDonald's and eat the hamburgers that come from the slaughtered cattle, which of course gives them enzymes to go right on with the slaughtering. But soon all the Big Macs end and we all become vegetarians, because in our New World, people will no longer be exploited by false ideologies or even false health beliefs.

The end of slaughterhouses comes when people are totally liberated, as they shall be. Then who is going to raise the livestock and run the stock market? Who is going to want to raise livestock, slaughter it, butcher it and serve it on platters?

Looks like the meat eaters will have to start a "beef club" and set up shifts to do all these messy things themselves. And this alone will change their animal nature, which comes from eating animals, fowl and fish.

The only things that are real are *nature, life, and the Universe*, and they are all the same thing - they are all basically energy or spirit. In scientific terms, the Holy Spirit is PSI-ETI, and the Holy Ghost is the sounding board of space that causes people to be logical and reason about things.

The earth doctor says: "The operation was highly successful, but nevertheless the patient died." ETI beings say of their Placentia project here: "It is a total success and no one was lost; some people just couldn't be contacted at the time to be of the delivering energies." This is not usual in these kinds of project planets. But those souls who don't make it at this Cosmic Initiation can be put into the aura of another similar planetary project upon leaving their bodies and carry on there, with their wheeling and dealing, until the synthesis delivery energies build up to the place in them and their respective planet's aura so that ETI can come in and be recognized by them and fulfilled thru them.

I'm sure that every person who reads these channeled words from ETI will ask: "What can I do to be in the harvest at the end of these days?" This question was already asked of Jesus by Nicodemus, and Jesus replied that he must be "born again of the spirit." To this Nicodemus, in mortal mind, wondered how he could go into his mother's womb and start over again. Jesus was relating to Nicodemus that, in this life, he should be doing all the things that are building a heaven on earth for all people, and that its ways and means are thru holding all things common, as taught in Acts 4:32-35.

The reporters who wrote the stories of the old religious hierarchies of earlier times wrote the stories surrounding Jesus' teachings to relate to the person Jesus, instead of the truth he taught as a revolutionary who threw the money-changers out of the world.

Chauvinistic men entered into the picture. They had framed Eve in sin and put the oak leaf over her lower solar plexus to make it appear that sex not controlled by the state (the state of confusion) was sin. The real revolutionary Jesus has been hidden behind the oak leaf, so to speak, so that people would seek out Jesus to be saved from sin and wouldn't see what was behind the oak leaf - the state of confusion itself, which the Christ Spirit in each one of us who *is real* will now cast out, not thru violence, but just thru having fun.

The Kingdom of God for earth people, or the entities of this project, has never waited for any special time. It could have come at any climactic period in history, such as when the US was founded. Or it could have come when the Communist revolution took place in Russia, if leaders had talked about one idea that contained real freedom, security and abundance for everyone. All that was needed to start it was the holding of all goods and services common among all people. Had this come about in the beginning of the US, it would really have been the government of, by and for the people.

### ***WORLD WIDE BUVERS STRIKE***

Science and technology has already surpassed the status quo and is destroying the people, but at the same time it could liberate them, if they would now surpass science and technology

with the super wit and vision that would make it the servant of the people, instead of enslaving them. So, let's carry out a fantastic, fun World Wide Buyers Strike - WWBS - and cause all that is superfluous to fall out of the picture. Put all those people on vacation who are not producing things that are part of New Age living, until they can be absorbed into *first cause love services for all humanity*. No one will lose anything of value, but everyone will gain everything: life, liberty and the pursuits of real happiness - *absolute freedom, security and abundance for everyone*.

Since I have spread the ideas in circles all over the planet about a World Wide Buyers Strike, I have received argument as to its seeming extreme ways. But a World Wide Buyers Strike is not actually extreme at all! It is the only sensible way to end the old world and, at the same time, be building the New World, which is set apart. World leaders will come to see that, according to the present psychic and psychological make-up of people of both the right and left and their extremes, only a World Wide Buyers Strike fits the bill.

Our World Wide Buyers Strike can change the whole world in as little as just 90 days after it really gets into swing. The people will discover that it is more good, exciting fun than they have ever had, and will maintain nonviolence.

It is as if we ourselves decide to spoil all that we have been doing commercially to receive our daily needs, and it's all Constitutional; so no one can legally stop us or use soldiers and police against us.

The soldiers and police will just go thru the motions of pretending to serve the Thatons; but all the time they are part of the world people's democratic movement for the Kingdom of God and they keep the peace. The police stop drumming up business for lawyers and bondsmen, and the soldiers stop going into battle to shoot at each other.

They are all the same soldiers and from the same people all over the planet, and it is only the military leadership that makes them fight for those things that are already dead. People of the Thanatos nature fight for private ownership and money, and people of the Eros nature defend what is already theirs - the whole planet. Why should soldiers fight for crumbs when they can all be *Universal Soldiers of the New World Israel Army*, and finally get total freedom, security and abundance by not fighting at all, but by just causing business as usual to deteriorate to the point where it all goes broke. Then, of course, all superfluous or unnecessary jobs and kinds of business will end forever; and we will abolish work as we know it now and all begin in New World communal industries - schools of creative experiences - to produce unlimited goods and services to be held common by all of us thru our common marketplaces in each community.

Our World Wide Buyers Strike puts all people in the same boat, so to speak. If the workers don't have food, then no one has food; and the same with all the other necessities of life. So all people will cooperate to see to it that the essential services continue.

Just go ahead and plan our World Wide Buyers Strike, and figure out all the jobs people have that will end and begin mailing out circulars to them of the new things that will open up for them. About eighty percent of the jobs that people under capitalistic effects now have will end. All things will become free, but will have to be structured.

If a rush comes with some people to buy up things before our World Wide Buyers Strike takes over, pay no attention to it. What they try to hoard will be useless to them and will choke them.

The vision to hold, in which you will receive the life energies to be cared for, is of a paradise world, where half of the people at a time go on thirty day exchanges, to be free, to be served and to travel all over the planet wherever they want to go.

The other half of the world's population will keep the world supply lines moving and the services operating. All airlines, hotels, resorts, etc., will be kept booked solid, with all people sharing in all things. Thousands of new kinds of resorts will be opened, and as we pass on into the remodeling of all present cities, the automobile will be discarded. Most city streets will be obsolete.

There will be no money to deal with any longer. Everyone will oblige the city planning commission, who will draw up plans for the total renovation of cities. No cost-plus to figure, the sky's the limit!

The idea will not be to create jobs for people. The work-a-day world as we have known it ends. All thought automatically changes to the needs of the people. What each person will be doing, from then on, is for themselves and everyone. The people will clearly see that they can have whatever they want and they can build it.

Real talent and ability and individualism will be expressed to their fullest potential. No more false standards to try to make it to the top. Everyone will be at the top, with full use of all things at their fingertips.

All negative effects will automatically heal when all things are shared. Our World Wide Buyers Strike will bring about the sharing of all things.

No real progress can be made on this planet until all people know what they want. And in what they really want there can be no argument, because they are things that are right for everyone - every person having everything they can imagine that's natural at their fingertips.

Whatever a person imagines is true and is happening somewhere. Even hallucinations can be unraveled and taken back to the point of reality they sprang from.

In other words, in the World People's Government, of which the people themselves are the main body, they do not vote. They build into everything real freedom, security and abundance for everyone, and don't sponsor anything that is not natural. Anything that is a perversion of the *Uni-natural law* will be taken away; and, as the *Uni-Godhead* tells in Jeremiah 31:31-34, in giving Its New Covenant, Its law will be written in everyone's inner parts and they shall all know God (their Universe they have their *being* in) and they shall all be Its people.

There are no dual decisions left to make or negative effects to treat. There is only to build new cities, remodel the old ones and furnish the highest standards of food, clothing, shelter, care, recreation, transportation, communications and utilities for everyone.

Even on this planet, if we trace every negative effect back to its cause, we shall see that the cause is in things that seem harmless. The buying and selling of merchandise for secular profits seems perfectly harmless, as does the running of a private bank or the commercial processing of food; but it is these things that are the direct causes of war, crime, disease and the possessive character of many persons that results in greed, bad temperament and degenerative diseases. So then, in knowing the truth, what do we do? We carry out a World Wide Buyers' Strike that will end the whole thing and start us over again with the proper foundation.

We will have no trouble winning the world masses of common people into a real passive

resistance-legal civil disobedience movement. Thru our World Wide Buyers' Strike, we need only to prove to the people who think they are going to continue owning property, that they cannot use it without workers; and that the property they seem to own has become part of the world property of all people, and that all things will be shared. We leave the establishment unable to enforce laws or to make war. All power comes into the direct hands of the people who are no longer responding to duality government, but who, because of their direct spiritual action, have become the *real* government.

During this preliminary period, every person beginning to open up to the vibrations of the intuitive, telepathic Universal Mind would be led to do great things in whatever field they pursued. None of this was wrong. It was expected, in this kind of a restoring planetary project where entities incarnating here are building a new aura, that many of them would rise to great ability in some fields and fall back to the bottom again in disease and poverty many times, before, through suffering from their own wrong doings and dealings, they could reach the common ground of *first* being a "worker of the world." The world needs servers, not bosses, managers, financiers, and all the other things that are just effects of the people's inability to continue the world reformation without bloody revolutions.

The workers of the world can rise now together and carry out a well-planned World Wide Buyers' Strike that, in as little as 90 days, would completely end all struggle on the planet. Then we start this civilization over again, losing nothing positive that has been gained, and adding unto each person untold blessings! And to top it off, the old world establishment couldn't do a single thing about it, except throw in the towel and become workers of the world themselves. Every communist would talk just like this at top level meetings now if it weren't for fear of throwing the mentally subjugated people under the cyborg beast into reaction to use their nuclear weapons. ETI space beings of the Galactic Command Space Complex will soon prove to the whole world, in a very dramatic way, that they have control of all nuclear weapons and can prevent their use by any group, or even turn them back against the people who would try to use nuclear warheads to destroy their so-called 'enemy.'

Entities of this planet need a new heart and mind, a positive aura that can operate in space and in an eternal body. This is the great prize, so to speak; and cooperative establishment of the right order in material things is the only way it can be accomplished.

All bills will end. All debts will be paid and we'll start over again on a clean slate. The *Uni Godhead* will bless our undertaking and help us to *rid the world of money altogether*. Let's fulfill the Scriptures by everyone repenting of their sins - ha! Then the religions of the 'father God' up in heaven will come to a happy end, and the *Universal Godhead* that's omnipresent everywhere will become the real life in everyone's heart and mind.

There is only one other way the Kingdom of God can come in now short of a severe tribulation; and that is by the *world people of Israel*, for the first time in history, making a united stand with the ideas the EG's World Master Plan lays out, thru the kind of World Wide Passive Resistance Movement I am given to bring - which surpasses everything else in doctrine except for the Lord's Prayer, and *the Lord's prayer is what the World Master Plan fulfills right now*.

The mortal game is that each person has an individual brain, and with this individual brain they are supposed to figure out what the Universe, Life and Nature are all about. They

also believe that they can educate this brain of theirs, which is already their natural mechanism for channeling the *Uni-Godhead's* super intelligence.

Obviously, their game is thinking, guessing, supposing and opinions. The records of their pursuits of happiness testify that, as yet, they haven't even found out what *mind force* is.

Socially, the people haven't changed at all. They still have the same money games, churches, schools, governments, likes and dislikes, etc., as always. The only thing that has changed is that science and technology have improved their material environmental envelope. But basically the same quarrels are there around materiality. And the environment in nature is degenerating out of the same ignorance.

So then, why quarrel over material things when the psychic, intuitive scientists and technologists and the workers have already created the world of abundance for everyone! Now is the time to set up the world of true sharing. To have this, we need to unite the workers, soldiers and students into a real movement dedicated to the service of all the world's people.

By carrying out a World Wide Buyers' Strike now, no one loses anything of value, there need be no bloodshed, and everyone gains all the wonderful things they could ever dream of or imagine.

### ***ETI SHAPES FUTURE - OPPOSING FORCES RELATIVE***

Do the means of transformation of the people fit the ends, or do the ends fit the means? There's only one absolute thing that can happen here on this planet and it is the fullness of the Kingdom of God. So then, why the concern about who controls what or what nations fall and what nations rise? Is this not all the work of *Uni-natural dynamics*?

Why do some people resist evil when what they call evil might be good? And why do some people cling to that which they call good and use evil to keep what they have? A perplexing question to ask? The answer is that they haven't been taught the ways of the Lord or the ways of civic social democracy. Most all is vanity, vanity, vanity! We are now entering into the critical time where all opposing forces, which have been evolving one upon the other into the Christ Synthesis, become relative to each other.

The War of Intervention that took place from 1919 to 1921 in the Soviet Union seemed to be a plot to end Communism then in Russia; but as it turned out, the War of Intervention was a karmic cleansing to prepare Russia for its world destiny mission with the *Uni-Godhead's* truckin' communist church. The war was ended finally when the news about it got out to the world people, and their indignation demanded that the foreign troops leave Russia.

So it is at this time, with the covert operations of the International CIA Ring being exposed to the people. The *Uni-Godhead* has told that in the end time, before the Kingdom of God came in: "all that is hidden in secret chambers shall be exposed to the people," and even that which is hidden from sight shall be uncovered. Eric Van Daniken and other ETI personnel have been busy doing this. Orthodox science must fess up to some serious questions about all those "impossible" records of advanced developments that date back to periods of 20 to 30 thousand years ago, and even several millions of years ago, and even before then. Soviet scientists ask: "If some ETI repeatedly visited our earth over such a long period, why did they stop coming? They definitely have not come for thousands of years, or we'd know for sure."

Then they say: "ETI could be here right now, on earth - everywhere, but in a form not noticeable to us. There could be some kind of robot sent here by the real ETI (living somewhere else out there). It is not impossible that living robots - perhaps even microscopic things - could exist here on earth and transmit to their 'masters' all required information."

Here's the pun. The Soviets say: "The CIA, we hope, hasn't worked on this yet! We'd never know."

Here's good news for Soviet people: The inspired scientists among them - men like space pioneer Tsiolkovsky, Dr. G. E. Pokrovsky, and Dr. V. B. Kudrine are a few of the people in question - are closer to the reality of ETI all-knowing than the robots of the CIA. Soviet ETI personnel determine the *action* of the CIA robots by what they say and do. In other words, if Soviet leaders try to destroy CIA action that's aimed against them, then with what force they meet Gog's army, in that is it measured to them again. History shows that in all the wars since 1914, those of the thesis won, but they never took the next step ahead to prevent the next war. So then, what did they really win? Just time until the next war.

Gog's army only creates the contradictions that the Soviets and other *Israel* people have to defend themselves against. They shouldn't resist them at all with words, or fear them. Rather, they should use words to describe them, and then act to save them and all the people who might be buried with Gog's Army in the Valley of Passengers (Eze. 39: 11-16). ETI has arrived in quite a few heads of the earth realms. These people are before the facts, but it seems customary to say, "I think," rather than, "I know." It seems earth people don't know how to prevent horrible catastrophies from happening, because so far they have always arrived after the facts, licked their wounds, cried over the great sacrifice they made, and praised the great victory they won. These are normal emotions, but absent before the facts.

We can all be sure that ETI "is real." Soviet scientists wrote about ETI, so it must be real. Soviet leaders are in high vibrations because of their perseverance of right-use-ness as applied to all social and material problems. So then, they know the difference between that which is only partly real and that which is totally real. But when the writer of "The Hand of God? Man? ETI?" said, "The CIA, we hope, hasn't worked on this yet! We'd never know," he was denying his own ETI hypothesis. The CIA now knows about ETI because Soviet scientists informed them. The CIA has existed all thru the ages. It is formed of psychics. For example, Adolph Hitler was a psychic. He talked with spirits, but they were of the astral plane, or Holy Ghost. They even had seances and took directions from the spirits they were in rapport with. The point here is, why is it that people of the occult, astrology and alchemy - who were of the most tormented nature themselves - have brought the greatest gains in science? Or why is it, with people who do what seems to be the greatest evil, that it turns into the greatest good in the long run?

You see, in the planet's aura there are two heavens where entities go between incarnations. The area out to the moon's orbit is the astral plane, and it is the heaven of those of antithesis. From the moon on out to the ring of white light (the balanced energies in this planet's aura or akashic records) are the etheric heavens, where those of the thesis sojourn between incarnations. Put them all on a line that follows the light spectrum from infrared to X-ray, according to their soul evolution, and you have entities functioning at different vibrational frequencies, between solar plexus (antithesis), heart chakras (thesis), and a few at the top of the

scale with opened head chakras who are of the ETI synthesis.

The three main intelligence centers of our nervous system are in our etheric body, and our material body is constructed from our etheric form. Our etheric body is called soul in the Bible and in esoteric truth teachings is called microcosm. The Universe is called Macrocosm.

I'm taking you beyond material science into metaphysics, or the cosmological order of things, which 'book taught' material scientists reject. They reject UFO's for the same reason. They reject everything that would interfere with their status quo position and pay.

Right and left wingers are halves of the same nature, but heart chakras win out over solar plexus; and opened head chakras of the synthesis between the two win out over both right and left.

Our conscience is in the neutron centers of the atoms that comprise higher life forms. We have Thanatos and Eros natures as well, which correspond to protons and electrons in atoms. In atomic science, protons and electrons have a different meaning; but here the word proton refers to matter or body, and electrons refer to the neuro-electrical or energy part of body and soul. The protons and electrons are governed by their neutron centers. This is the natural, balanced state of opened head chakras correlated with solar plexus and heart chakras. Through our conscientious actions in service for the common good, all distortions of character are balanced out in our aura. And as the *Uni-three-in-one synthesis energies* channel thru us, our real spiritual nature returns unto us.

Right-wingers are Thanatos characters, because they are predominant in solar plexus energies, and have not opened up their heart chakras to begin to take heart of the human suffering. Eros characters are predominantly of heart chakra, and are usually wearing their hearts on their sleeves trying to feed the poor starving masses through charity - which is false charity amidst plenty. Of course, some charity is better than no charity at all. But the Christ Communist is of the Synthesis; not trying to feed the starving masses through charity, but building the kind of world order that, when completed, will no longer have any starving people or people in need of anything they cannot obtain freely.

It is obvious that there are right wingers, left wingers and liberals, but why is this so? Because the persons under these labels are in the corresponding thought forces of alpha, beta and gamma rays of their soul evolution. But it's not that some of them are 'good' people and others of them 'bad' people. Their actions and morals are governed by past conditioning, and their ability *now* to come out of the past and be *omnipresent*.

I have told you that if earth people really want to find out what causes the negative effects they call evil, such as crime, then they must look and see what is lacking in what they call good. That which is lacking brings wrong-doing and causes negative effects. All so-called evil can be traced right back to the improper social environment; and until the errors in the ways people receive their daily needs are corrected, then the perpetrators of evil, although they are innocent in themselves, will suffer the cure and the righteous people will also have to suffer along with them until the proper foundation for spiritual social living is laid.

The Thatons (Imperialists and reactionary people) fear the Communist ideals of the Soviet Union and Red China, simply because their perverted nature cannot let them be part of a collective people all working together for the common good of all. Thatons, or those of the Thanatos nature, are hung up in the Van Allen Belt and astral plane, and can only play out

exorcisms until at last their kind of world is taken away from them.

They may all be killed in the Transformation, along with the soldiers they control who do their fighting for them. And in this they can go on playing out their karmic parts. If their karmic parts were of natural soul evolution and, thru their kind of ways and means, they could evolve into natural people, then there would be some sense to stringing along with them. But as the saying goes: "Satan cannot cast out Satan," and the satanic laden people will just do themselves in.

Satan is only satanic power collected in the Van Allen Belt. As I am the Comforter, who can represent the Holy Ghost (St. John 14:26), then I can explain what Satan is. Also I can formulate the plan to cast 'Lucifer' (which is only a symbol used by people who deceive other people) into chains. This means, simply, to end demagoguery.

The Van Allen Belt is between 'the astral and etheric planes of the planet's aura. It is the area in which heavy atoms, or negated atoms, have collected because of the evil acts of people who are more into aggressive warfare than anything else. The trend of evil began not with Eve, who biblically represents the first woman, being led to sin by a being called Lucifer; but it began because, after the root races of bodies were colonized here on different parts of the planet and individual entities began to incarnate into the bodies, they still could not follow the plan that the ETI personnel among them were leading them into, which was always of a communal nature. They proved to be secular in their ways, and what is called greed, selfishness, vanity, etc., began to evolve. All because their secular ways could not produce abundance for everyone.

Society uses laws that business people make to run business as usual, thru which they are trying to eradicate what they call crime. But their laws are not based on the reality of *Uninatural law*. They are made for their own secular conveniences and their exploitation of other people. Of all things, they buy and sell our daily bread for their own secular profits and ways of secular living.

Are ye not all, who buy and sell for secular profit, criminals in the eye of truth - robbing Peter to pay Paul? The Christ Ideals do not judge you for this; they only teach you to do right things in regards to those led into temptation to do covert things. But what does society at large do to those they accuse and judge as criminals? They try to punish them, vainly believing that this will stop crime. But in the final run, that part of society that accuses and judges by its overt means is judged by what judgement it has judged.

If the few people on the planet who are in the synthesis energies were leading the world people, then the line-up of people would never divide yin and yang, or antithesis versus thesis. The contest is for the people to rally with leaders who are of the ETI synthesis.

The CIA has personnel who read everything pertaining to the World Revolutionary Movement and the scientific developments thereof. They are of the Holy Ghost, but Soviet Intelligence is of the Holy Spirit. Those of the Holy Ghost are in the echo chambers of negated atoms, where all is ghostly and ghastly fearful. The things they fear motivate them, whereas those of the Holy Spirit are on a direct course into the Kingdom of God, because their dreams and visions are of the final restoration of that which *is real*.

Lenin felt the torment and wickedness of his own soul, and said about wickedness that everything would be understood - *everything!*

Stalin, carrying a heavy load of world karma, sent many of his comrades to concentration

camps. Had he known that what was happening in his head radio-TV transceiver was only his computer - extra sensory mechanism - calculating the aura of another person as relative to all karma, then he would not have been possessed to react as he did towards the people he suspected of being the enemy. He would have put right thought and action in place of acting on paranoia.

The Soviet *Israel* couldn't have lost the war. ETI had it calculated so that the *World Nation of Israel* would hold out and turn Gog's Army back, and they did. Naturally at that time the Soviets couldn't know this.

I tell you these things now so that if the world people cannot rally with me at this time because they cannot move against world karma and the last part of Armageddon is fought out, then let not Soviet leaders be concerned with victory over the so-called enemy, which doesn't really exist; but let them carry on thru to the occupation of the whole world. ETI personnel will see to it that the Communists communize the whole world and not socialize it.

Had the Soviets known, as they drove the German army (Gog's Army) back to Germany, that there would be a sixth part of Gog's army left that would rise as the American Nationals led by the International CIA Ring - and also that atomic weapons couldn't be used against them - then they would have rallied *US Israel* troops with them and swept across Europe to occupy all of it. The Roosevelt Administration would have gone along with them. But as the Scriptures tell, there would be a resting period. ETI ended the war when they did and as they did because, at that time, the ideals of true Communism hadn't evolved far enough so that communists would communize the world instead of socializing it.

Since it was a karmic war and was fed by the mental seeds earth people had already sown into the collective consciousness, then the war consciousness was rising. And at this time the energies are completely different than at the time of the WWII Armageddon. "Know the time you are in!"

The paradox on such an overcoming planet as this, inasmuch as ETI only moves forward and carries progress, is that those of the Holy Spirit (opened in solar plexus and heart chakras, and coming into ETI head chakras to be intuitively all-knowing and allaffirming) cannot make aggressive war.

How were lords of karma like Adolph Hitler made? They were people who in their past incarnations were always kicked out, beaten up, not allowed to be heard, penalized for their kind of revolutionary drive. They found peace in their astral heavens because they were all of like vibrations there. Those who led the astral heavens, upon reincarnation back into their strains of bodies on the earth plane, received great support from their corps of astral beings. Rev. 12:3&4 is telling of them. Rev. 12:1&2 is telling of ETI space beings, and Rev. 12:7&8 is telling how ETI at this time has to shake up the astral heavens, or else, before the Kingdom of God comes in, they would raise more useless havoc here. Rev. 12:5&6 is interesting because it is part of the original Bible. These other verses I have shown you are those that ETI put into the Scriptures at the time of the King James revision. We did this all thru the Old and New Testaments so that we could reveal the truth now.

Without stumbling blocks to cause *Israel* people to stumble into the Kingdom of God, the state of true *Uni-Communism* could not be manifested, since they would not unite to receive the Kingdom of God thru their good works. That is why the CIA decoy is necessary up until the

time that *Israel* people unite. When they unite, then Gog (demagoguery) is turned into a pillar of light. If they don't unite, then Gog fulfills his last act.

The *Uni-Godhead* tells that, in order to put this planet on the right road, a great sacrifice has to be made. In the light of eternal reality, what would seem like a great sacrifice - of one third of the population and possibly many cities - is an everyday occurrence somewhere in the Universe. What happens if a person is grounded and gets connected to electric wires? If they are discreet they may only get knocked to the ground, or they could burn up. Nearly everyone knows about what electricity can do to them if they do not handle it properly. So then, let's learn what atoms that make up an aura can do with you if you short-circuit them. It's easy to do. All you need to do is to answer questions in the vernacular of saying, "I think, I guess, I suppose," and then sum it up with "my opinion is this, that or the other thing." Then it must follow that you get burned if the lesson isn't learned in at least your first three contacts with reality. The reality in this case is the person or persons you're talking with. Why not tell them the greater truth realities?

You mean you don't know that the *Intelligence*, which is responsible for Nature, Life and the Universe, centers, surrounds and fills all things?

And there is no death in the Universe, as all things go on being recycled back into planets and bodies. The entities in bodies have always been eternal and can't die, so all things are always healing, no matter if they go up or down the energy scale or zig-zag across the echo chambers. All yin and yang thought and the pro and con argument that creates sides is simply bouncing off walls of atoms, which is causing static in the planet's collective conscience.

Entities lie in limbo until they spring back into *Uni-activity*, usually from boredom, to the enlivening of their spirit again.

So then, the sacrifice the *Uni-Godhead* makes here, which ETI space beings set up, is no more than taking entities out of a bad situation they cannot do anything about. If ETI could be doing any more about healing the planet and people, they would be doing it.

In this final run, true communism is only a gracious way of life that people live. And when they begin to live it, then they have it and it is real.

The leaders of nations can only do so much for the people. They can only take the people so far. They can help the people in the letdown of unfolding karma into the New World, but neither they nor anyone else can do "IT" for them.

Those of the Holy Spirit energies will defend communist goals, and those of the lower Holy Ghost frequencies of energies will automatically drive the people into war until some people somewhere make noise of definite protest, with their voices and positive action, that rings out the good news of the Kingdom of God.

It's a case where the world people of *Israel* must begin to celebrate the Kingdom of God now, before they have it set up in their social environment.

Obviously, what *is real* has to arrive in *mind*, pre-facts, before it can become fact. The event of another war is not fact, but fiction. Nevertheless it happens, but only as earthlings bring their fiction to life.

If the last part of Armageddon is played out karmically, then there were no pre-facto people in control of the world news media and they let the whole world go down in the cellar to eat more sauerkraut.

As we come to the end of this old dying status quo world, everyone that has eyes to see and ears to hear should be able to see and hear clearly that the Kingdom of God is a way of life that, when lived by people, adds all things unto them.

The world struggle, on the higher level, is simply between two ideas, and one of them is the superior idea. The first idea is that people can have the good life by letting money regulate it. The other idea is that people can only have the good life when all things are held common. So is it really a contest to see which side will win out? It is not a contest at all; it is simply for the *Israelites* to rise and begin to set up communes in every industry. Then all things change from superfluous head trips, in which mortal-minded baboons give their silly opinions, into an all-knowing government not separate and apart from the people, but totally in the activities of the people fulfilling life to one another, all on the same high standards for everyone - much higher standards than even the most well to-do people have had to date. The dictatorship of the Communist Party then withers away, because all the necessary controls are built into the world social environment.

Many people that have heard me express the idea of absolute freedom, security and abundance for everyone are blown out by such an idealistic-altruistic concept. Right away they think: "O, with people the way they are, it's impossible."

When we have the combination of a properly planned world social environment - in which no money is used and where all things are freely at everyone's fingertips - and real freedom, security and abundance existing for everyone, then everyone is in the aura of three-in-one balanced energies, where there is no escape from *Uni-conscience*.

### ***NO MILLENIUM MESSIAHS***

As we see in these times, the beings of Jupiter have produced their new Bible in the Urantia Book. It shows exactly where they are at in their thinking about what the problems are here. UPO beings of this solar system reported in their original Bible that the first woman of the Earth planet was made out of a rib taken from Adam's body. They called this planet "Urantia" (the word means a planet wrenched out of their hands by Luciferic beings).

They are going to bring Lucifer before their government and try him for his evil deeds. Rev. 12:1-7 has already prophesied what the results of their forts will be. The war in heaven described there is not a physical war fought with weapons. It is simply a mental war in which the beings with the higher mind radiations (ETI beings of the Central Sun of this galaxy) send UPO beings back to their base on Jupiter until this planet is delivered, so we do not have any millenium messiahs coming in here to set up the same old religious hierarchies all over again.

The personal intentions of UPO beings are good, just as the CIA's personal intentions seem good to them; but the *Uni-Godhead* tells that "there are ways that seem right to thinking people, but the ends thereof are disastrous to all."

How could UPO beings bring Lucifer to justice when there is no Lucifer? There are only luciferic energies, which have formed in the planet's aura in the big 'spare tire' around the planet which ETI gave their team here to name the Van Allen Belt.

Is it just a coincidence that your Comforter is of the Holy Ghost and my space name is Allen, which means "all in one"? The last name of this body I am seated in now was Noonan,

which means "high noon" and refers to the high time. Thus, when I was seated in this earth body in my 1947 UFO experience, I was given the name Allen Michael because I would be carrying out Michael's stand with the Holy People of the Earth Planet (Dan. 12:1-13).

ETI beings, thru their high strain here, can put doubles in bodies being born here. Then, when they need to flash down a higher entity for a special assignment, the high entity doesn't have to go thru the process of growing up in an earth body. And the doubles are of a vibration that they can be brought up into our spaceships and put into eternal bodies, while we are taken out of our eternal bodies and flashed down to the earth plane for special assignments. These are some of the really good things ETI has worked out for all the people who want to be space travelers.

UPO beings of the 7th density, in their observation of what was happening on this planet, would naturally think that the high ETI beings of 12th density were evil beings and the cause of the fall of the people here; just like the third part of the earth people who are of the red dragon think that communism is the cause of the earth dilemma.

UPO beings gave earth people religion, which isn't what they intended. It was only their psychological approach to the problems here, and it resulted in the religions of the Old and New Testaments. And as I have told you, ETI loaded the Scriptures with some real signs, symbols and allegories that are being revealed now in these writings.

At the time of the King James revision of the Old and New Testaments, ETI didn't change any of the writings of UPO prophets, but only put the synthesis ideals into their chapters. Anyone reading the Old and New Testaments from an open-minded, impartial view could see thru the duality that UPO beings were in, which taught earth people to sacrifice themselves rather than to form a people's army to defend the truth. The factions UPO beings have formulated here on the earth plane, which are the present denominational churches and temples of the Old and New Testaments, have absorbed from the Bible mainly an escape to heaven. And as the Hebrew race was the advanced race of earth people at the time UPO beings appeared on Mt. Sinai to Moses (who had formerly incarnated as Merk, and then later as Jesus), then the Hebrews carried on with the idea of a kingdom built upon this planet. Thus, it would follow that thru their kind of wit they would get control of the money, which was and still is the predominant factor of progress - except in China where human resources have become capital. ETI beings come in on any light that lights up here, and in this way they infiltrate into every organization. For example, they put Pope John right into the Vatican chair and he started a great left-wing movement in Catholicism.

Soviet Socialism is the advancement of Judeo-Christian progress, but now ETI has infiltrated Soviet Socialism to cause it to turn to true *Uni-Christ Communism*. Both the Soviet and Red China projects are the fulfillment of the spiritual teachings given by the "twelve cosmic masters," with whom I was the first to incarnate into an earth body as part of the thirteen, who came to the earth plane from the 12th density and took up life here in the advanced hybrid bodies that could finally carry our energies. It is apparent to persons who study the Soviet and Red China ETI projects that the Soviet Communists have evolved more out of the Old and New Testaments, whereas the Red Chinese have evolved out of the teachings of the Buddha and Confucius. Also, both projects are compatible with the truth in Hinduism, Brahmanism, Zoroastrianism and Moslemism. And we will see the blending of Western culture into the East,

and the East into the West.

As the western climates, so to speak, were more conducive to industrial-technological progress, then many persons advanced in these facets were led to the Western world to begin the great scientific-technological feats that would at last deliver all people into a world of abundance and beauty for everyone. The Yoga Masters of these times have come from the East to the West to teach a new generation cause and effect, reincarnation, mental causation and so on. These are the old standards of truth of the descending Cosmic Masters. It should be noticed with these yogis that they are like new babes coming into the energies. Many of the new youth are actually older, experienced souls who have already evolved yoga into its high forms of inventive genius in music, art, literature, science, ballet, opera, etc. And this, with the application of higher computer electronics, has given rise to electric bands, modern art and dance, movies and so on, to bring this generation of flaming youth out and upon the world stage to declare the New World for themselves and all generations to come.

In this kind of a planetary project, entities just arriving or opening up to the beginning of psychic reality would lead those who already have ETI capabilities back into mysticism, instead of on into *Uni-Christ Communism*. Take the instance of Soviet scientists writing about ETI, not knowing they are ETI themselves and are fulfilling the Scriptures as the forerunners of the Judeo-Christian campaign for a Heaven on Earth.

Then there are the Uri Geller breed of psychics who come forth at this time still trying to solve the mystery that is in the TOY, so to speak. Now, he can repair watches and bend silverware without human hands, but still can't explain why he can do these things. How do Uri and other psychics do such things? They are teamed up with etheric beings from this planet's high heavens who can act with them and, of course, are invisible to an audience. Take a Kirlian photograph machine that photographs auras and you'll see light energy forms on the stage with Uri, who act with him to accomplish what is called psycho-kinesis. They can accomplish these feats by using energies in reverse polarity.

The same reverse-polarity energy causes earthquakes thru the building up of anti-matter particles in an aura, where the people in that area are now - or even hundreds or thousands of years ago - contributing to the negation of that ETI space. This happens as a result of people acting in opposition to the energies of the Universal Life Force, reversing the poles of atoms by using mind energies for their own secular purposes. Then, as they record the emotional impact of their experiences with people and with material things in their own aura, they become emotionally unstable whenever they are mentally cognized into space where the thought is negated. This is what we call their heavy karma; whereas their light karma is the positive things they enjoy doing. All karma is good, and we should receive it as such and learn how to stay in yin and yang mental balance.

The point is, how can people know, and know that they know? They can only know when they play their hunches, so to speak, in ways that are helping everyone and judging no one.

ETI can use luciferic energies to accomplish positive things, and can teach those of the expanding thesis to stand in defense of their progress. Had not the *Soviet Israel* people and their leaders stood in defense of their *New Nation of Israel* - had they been over-run by the people under superstitious fears and foolish paranoia - then the whole world would have returned to the dark ages.

The real reason why the USSR Judah turned Gog's Armies back, as Eze. 38:4 said they would, is because ETI had set it up that way and could be there in the battles to ensure their outcome.

You might ask, "Why then, if ETI can do all this, couldn't they prevent the WWII Armageddon, heal the whole world, and bring about the desired Kingdom of God?"

This would be like saying, "If we could give everyone new brains that function properly, then there would be a Heaven on Earth."

The problem is that the one 'brain' - which animates all life here in its knowledgeable action and reaction - is recorded collectively by all people in the planet's aura; and if all of a sudden the planet's aura rebalanced, then only the balanced people would survive here. In other words, if your heavy karma were neutralized in the planet's aura all at once, then there would be no salt and pepper in your stew to savor your conscience so you would know right procedures from wrong procedures.

The *Uni-Godhead's spirit* being poured out on all flesh (high PSI synthesis energies being beamed into this planet's aura by ETI space beings) is done gradually to enliven the positive and negative karma of everyone. But the climax finally comes, so it should behoove everyone to get on the "great ship the builders have built" that will sail on into eternity.

Also, if the planet's aura rebalanced all of a sudden - which it would if ETI weren't controlling it - then there would be havoc played with the land below. This did happen with Atlantis and Lemuria, and that is what caused the sinking of large land areas. Anti-matter particles (negated atoms) had their polarities switched around because people didn't use the energies of the life force imparted to them, moment by moment, in the ways the *Uni* has programmed things to be. ETI programming of all things is in giving and receiving, the sharing of all things, the creative experiences of producing things and the freedom to use them.

Of all things! Part of the world is still buying and selling its daily bread for its own secular advantages. The affluent people know this is stupid, but even they have no imagination as to how to correct it short of a bloody revolution.

At least the Uri Geller group, intervening down thru time, has learned new ways of magic in which they can repair watches and bend metal. This is an advancement over letting your bitterness call down the dross from the plasmic astral plane, disturbing the elements to rain kinds of bacteria and creatures from there onto the people you dislike and feel you are being enslaved by.

The One World Family group of ETI personnel have entwined down thru the ages, and we have no mortal-minded guile in our mouth, meaning we have lived in sharing ways whenever we assembled here in groups.

About five hundred people have passed thru our communal experience. The original people, who first gathered with me to put the project together, are still here. And some came in later on as they were assigned by ETI and led to us by etheric beings of our command who can carry out many kinds of important tasks. Most of the people who went on to other experiences have told others about us in good ways; but some of them said all the same negative things about us as some of those who came into our Pyramid Temple Cities of long ago.

Then the beef was that we didn't pay them.

We didn't give them what they construed to be their personal, democratic rights.

We had them on shifts and they suspected that the core group took their productivity for the ruling class, and so on.

In these times we have the same beefs from a few people, who didn't last long in our experience; but anyone with an open mind in living just a few days with us could see that all our daily needs are held common and shared, and no one is exploited, nor is there any kind of a hierarchy in our commune. There are people with greater ability than others, and they do the tasks of higher skills and, in this way, are leaders in promotions and demonstrations we are bringing to the *world people of Israel*. But every person in our commune is a needed spoke in the wheel to make it work.

In the past, entities of this project - excluding the special entities of the ETI Adamen - were not far enough into the kind of industries that advance creative talents and spiritual understanding and were being held back by the people with lesser talents. But as the whole world is set up into social schools of all kinds of industries the people choose to express their creativity in, then the rate of each person's soul growth will be according to the amount of creative work they do. Each person receives the benefits of being a free spirit or soul and is admired by other people for the example they set.

It appears to people in mortal mind that they could build a successful money system in which the common people were under laws and money and still reach Universal goals. The present system of capitalism has evolved out of this trend; and - in regard to important events down thru the ages, when the big opportunities presented themselves at climactic times for the men and women of the Adamen to unite the common people into the one *Uni-IDEA* - the true history of the people wasn't provided, so the people couldn't know the kind of truth that brings real changes.

Not until the printing press was invented, and writings like those of Marx and Eddy and many others were published by progressive groups who saw to it that they were not slanted, could the people begin to understand their social problems. Before that time, history was slanted by money groups and religious hierarchies to suit their ends. What is the Bible but a history written by evolving hierarchies to rule the world with, up until the time that true science came forth in the hearts and heads of people who would give their life to see their known truth fulfilled? Even so, the money groups and religious hierarchies that worked hand in hand haven't really kept the people from social democratic progress. As *Uni-Godhead* says: "All things are working together for good unto those who are called, and love life, its nature and life energies with all their being." All opposites are relative at all times. That which has been hidden from us is being uncovered by inspired writers who are not afraid of telling the truth as it is. Now that the vain idea of national defense will be cast out, we shall be able to make friends with all nations, and the US tribe of Joseph will truly become a blessing to all the families of the earth (Gen. 12:1-3).

Nearly all literate people at some time in a lifetime, usually in their forties, read the Old and New Testaments in which the Bible is contained. Obviously Jefferson, Paine, Washington, Marx, Lincoln, Lenin, Roosevelt, Stalin and other notables had read the Testaments; but they didn't go out and join a church. They went to churches and were amazed as to what religious people had made out of the writings of prophets. They all saw a real spiritual revolution in some of the things Jesus taught, as did Gandhi of India.

I'm just pointing out that there are many millions of people at this time who are influenced by Old and New Testament teachings - twenty times more of them than there are going to churches and temples - who can read between the lines, so to speak, and are aware that, in these times of great changes, a kingdom of nature and the Universe is coming about. All the New Age needs to really key it off in the people's consciousness is for many believers to affirm it. Many people who believe say "maybe." This is not letting go of the past - letting go of all things that are of mortal mind - and directing one's energies into the real things that are not secular, to bring about the prevailing positive consciousness that automatically begins to lift all people.

If it weren't for the history recorded in the books of the world religions, there would be no ideas about the changes that are taking place now, which are all prophesied in the Old and New Testaments and the books of other world religions as well. These writings of the books of the *Everlasting Gospel* series are the *synthesis* of all religion and science too, and it fulfills them now and begins the New World. Just as the writings of Marx brought together the World Communist Movement, now these writings put the crowning glory upon it all, and lead the whole world into the things that are to come. I do not speak of myself, but whatsoever things I hear, that shall I speak (St. John 16:13).

This is the Universal Christ Idea. Christ means Universal Consciousness, and does not pertain to person, place or thing, race, color or creed; but simply to the one common bond between all people, which is of one idea whose time has finally come and cannot be stopped. All who try to stop it are being plowed under by their own foolishness.

In this book, I have outlined clearly how antithesis versus thesis are relative to each other and evolve one upon the other into the synthesis. This knowledge can be used by those who are yet in duality, as the right and left wings of the present US government are. They will come out of duality and strike directly into the heart of the red dragons, who would, if they could, go on perpetuating the old order and prevent the Kingdom of God from coming about. But they can't go on. At this time the real crusade for the Kingdom of God begins with Allen Michael, the Cosmic Messiah, who - with his elect in key places all over the planet and a great UFO command with him - brings in a complete New World.

Jesus was sponsored by the Solar Government, or United Planets Organization; and they were motivated by the Solar Logos. The all-knowing beings of the Galactic Command Space Complex, however, are represented by the woman with the twelve stars over her head who is symbolically carrying the New Age Child, travailing to be born at this time (Rev. 12:1-7). And the GCSC is directly in touch with the *Uni-Godhead*.

The Jesus episode set up a snare for the religious hierarchies that existed at that time and would evolve on down thru the ages until this time, when the "appointed one" came to lead the *world people of Israel* out of the period of grace and into a Heaven on Earth. The religious hierarchies would jump on the Jesus bandwagon and turn the episode around to justify their own inability to act in straightforward spiritual ways to materially and politically establish the New Order. Jesus left nothing in writing. The religious hierarchies wrote their Bible stories to fit their own psyche; which, as we see, falls far short of the World Master Plan of the *Uni-Godhead*. But now the law of the *Uni-Godhead* and Its World Master Plan for the *world people of Israel* has been given. Every person will know what their duty is in regard to establishing the

New Order, and then all the worthless religious eulogies and emotionalism will be cast out forever by the super kind of right-on action that all enlightened people will adhere to.

Jesus and the other twelve cosmonauts, who were flashed down into the telepathic Andromeda Strain of bodies here, were to bring about, at that time, a heaven on earth according to a plan drawn up by the government of the United Planets Organization headquartered on Jupiter. Galactic Beings knew that it was only the crossroads of history and that the Kingdom of God wouldn't be established yet. It was three million years ago, by earth time, that Galactic Beings of ETI set up this planetary project; and they had the exact cybernetics, to the year, in which their project would be completed.

The men and women of the Illuminata and Adamen are aware of cause and effect-karma retribution, which causes their group to see the fulfillment in a much different light than those of the right and left wings. They see True Communism as the fulfillment, and this is why they are pulling strings, so to speak, to bring the whole world into communism. They turned Vietnam over to the communists on those ideals, and their interplay with the Soviets and Red China is to not let the world be socialized, but to cause the Soviets and Red China to come into true Universal Communism also. Rev. 17:17 says: "For God hath put in their hearts to fulfill his will, and to agree, and give their kingdom unto the beast, until the words of God shall be fulfilled."

The "words of God," as spoken of here, are these writings of the books of the *Everlasting Gospel*. The meaning of the "Ten Kings" giving their kingdom to the beast (those who fight under the power of cyborg capitalism, which is the beast) is that they are the Multi-national Corporations and are of one mind, unable to do anything else while under usury money.

The Great White Brotherhood, the Ascended Masters and their coordinates on this planet are beings of the 7th density, under the Solar Logos. And it is only since the synthesis energies that produced these writings have begun to work in this planet's aura - as well as in the aura of this whole solar system - that those who are of the United Planets Organization (or UPO, headquartered on Jupiter) have begun to understand that the higher Galactic Beings over them of the 12th density Galactic Worlds are not as they thought they were - evil beings, cast out of God's heaven - but are beings who all along have been carrying out a great project for this whole solar system.

The war in heaven that the Michaelian Space Team (GCSC) has with the great red dragon (Rev 12:3,4,5&7) depicts this time in which ETI space beings must confront Solar beings with their objective reality. Solar beings are ignorantly reinforcing the religious hierarchical movement that they first brought to this Planet with Merk, and later with their appearance on Mount Sinai to Moses, who was the reincarnation of Merk. Later, Merk, or Moses, ascended into the "7th Heaven" of this planet's etheric realm as a master of the UPO, and was finally sent back again as Jesus. Now, the same entity is incarnated as Dr. George King, founder of the Atherius Society in England and the United States. Marianne Frances, founder of the Solar Light Retreat in Gold Hill, Oregon, near Mount Shasta, is the incarnate of the Lady of the Sun, Ilipaaton, who came with Merk from Venus in the first space flight of UPO space beings to this planet. They are the major contactees of the UPO government on this planet and have given the advanced ideals of the UPO interpretation of what the New Age is here. Marianne Frances was Moses' companion and also was with Jesus.

Because I am connected with ETI consciously, I have the advantage over all the other contactees on this planet - both the UPO ascended masters and GCSC personnel incarnated here at this time of the climax of this old dying world order and passage into a beautiful New Age.

ETI is all-knowing, while those beings of the UPO are still in duality - the vain belief of separate good and evil.

The war is in space (not heaven - heaven refers to this planet's etheric space), and the space in which the war takes place that the GCSC beings have with UPO beings is this solar system's aura. The war is in no way a physical war fought with any kind of space weapons, such as laser beams, etc., that kill and destroy. It is simply a matter of *Uni-PSI synthesis energies* channeling into and rebalancing mind energies that are still of duality consciousness into the synthesized, omnipresent state of Universal Mind awareness.

Anyone who knows anything about outer space knows that no one gets into outer space operations except beings who have passed thru the 'acid test'. I mean that no one can exist or operate in outer space unless they are in mental polarity balance with the PSI energies there.

No one can take any superstitions or fears into outer space. All that fear is, is fear of the unknown. In PSI space energies, everything is all-knowing. So fears are simply the negation in a person's aura which keeps them grounded to the planet or shorted out in the planet's aura.

To even conceive in having a weapon of protection that did not save your brothers and sisters from themselves, would mean your own self-destruction.

However, this planet's space project is a special one, designed to take earth people's consciousness back into *outer space Uni-imagining*, and the way for its clearance is directed by Galactic Government. It is headed by space incarnates here who are telepathically led by Galactic ETI space beings.

These same incarnated personnel here directed and produced the Star Trek TV series. This series has caused those of antithesis, or Antichrist, who appear sort of like wolves in sheep's clothing (the great red dragon that draws a third of the stars - big wheels of UPO operations and their subordinates - on the planet), to make the TV series called "Space 1999." They want until 1999 to put their millennium together here. But Galactic ETI space beings are directed to bring the showdown now - to bring in the fullness of the Kingdom of God at this time and fulfill the prophecy of Dan. 2:44&45. All of this can take place in as little as 1290 plus 1335 days, as Dan 12:1-13 tells. Daniel and Ezekiel are, in part, Galactic prophets; whereas Matthew, Mark, Luke and John are UPO prophets. The Eternal Scriptures, which is the real truth from the *Uni-Godhead*, contains the Bible that religions follow. The Bible is not false, but most of it is given by the Father God, or Solar Logos; which can only compute in duality because the input of the consciousness from its microcosms is in duality. All the beings still in duality can do nothing more than follow the Solar Logos' cybernetics, however, until they are opened in synchronized chakras to receive *ETI all-knowing*.

With all these explicit directions in truth and knowledge, this shouldn't be hard for earth entities to accomplish. To be all-knowing is simply to affirm known truth that always deals with *one Universe* and *one people*, on a planet that is already abundantly rich in all things. The people can have the creative imagination to do unlimited things when they put their social environment in the proper order, so that all things flow to all people without any secular thought of the things themselves. And, of course, the people must use their science and technology

properly, which could never be done under usury money controlled by private banks.

When money is used in any other way than a pure medium of exchange (no lending of it or taxing of it) then the lesser evolved beings rise to the top and get control of the world thru money games. They will have the greater control over what is built and how the people's money, which should be people's free cash flow, is used. They are able to spend billions - for armaments, ordering the books written that are pure propaganda, training the secret armies and so on - to fight against the people of *Israel* who have been rising since 1917 to bring about the world changes that climax into the New World or Kingdom of God. Most Communists didn't know they were the *Uni-Godhead's Church* that rose out of the people, although some suspected they were fulfilling such a destiny - especially those communists who had diverted from Orthodox Judaism or Christianity to take part in the actual building of the New World. A New World which is ordered by the Universal Mind, which is Omnipresent, Omnipotent, Omniscient and audio-visually in space atoms for all people who seek first the Kingdom of the *Uni-Godhead* and Its right-use-ness of all things - which can then be added unto everyone.

The purpose ETI beings had in the Star Trek TV series is two-fold. One was to carry earth people, in imagining, out into space to raise their consciousness. The other is that the GCSC could watch the programs in their command space ships, and see from them exactly what their contactees on the planet who write out the parts of Star Trek could do with the PSI energies of ETI sent thru them. These energies would cognite them into the yin and yang, negative and positive poles of the earth's akashic record or time track, which, in turn, animates all the people of earth, as far as their ideas and motives are concerned.

Also, radio and TV programs sent thru the electro magnetic field of the planet's aura activate changes; and ETI can, thru their electronics, correct the errors before they go into causation, so that the positive vibrations keep rising in the planet's aura.

Just as soon as money is cast out altogether, then only inspired persons who are PSI-ETI psychic adepts will do the writing, directing, acting and designing in all media. Every play, movie, and TV program will be of the synthesis. There will no longer be dramas that have dual parts of villains and heroes. They can play yin and yang parts, but only to the end of synthesizing them together into successful, beautiful adventure. There will no longer be mournful melodrama where everything went wrong and people were born to lose. No one ever loses important things when they are in the service of the *Uni-Godhead*.

The war in space we spoke of, which is told about in Rev. 12:1-4&7, is no more than the ending of the old order here before life goes biologically beyond the point of no return. ETI beings must clear the space aura of this solar system and this planet of beings who have the kinds of artificially mutated bodies which can only carry out duality. Some of this has come from misled scientists of this planet who have hidden away and believe they are going to mutate a new race. Such was the plan of the Hitlerites, in which they actually believed the beings they could contact telepathically, and could see at times in apparitions, were Gods from outer space leading them into the real Christ Mission.

The truth about any person or persons on a Christ Mission is that they would be in service to all humanity, and not just thru money from their industry. But their industries in themselves would be directly rewarding to the people on an equitable basis.

## ***SPECIAL HEALING PROJECT PLANET***

The problem being overcome here arose in this solar system, and this is why one of the planets in this system was chosen to bring spaced-out entities back into the Universal Family. The problems were of a nature that no one knew about at the time, except higher ETI beings in all-knowing energies who were sent into this solar system to heal the problem and recover the entities already affected by it.

We must understand that this planetary project of ETI space beings is simply a rerun of a lapse in eternal consciousness of the entities here, and now is the final time of their reunion with the Universal Family. It's sort of like a large group of people were on a journey together and part of the group got separated from the main body, who reached their *Uni-goals*. Part of the group got lost and, when the main group found them, they were out of bodies and in space. Since they had dematerialized from their eternal bodies and their vibes had gone too low to regain entrance into an eternal body, then such a project as this one had to be set up on this planet by ETI space beings, who were directed to do so by the *Universal Mind*.

The form of bodies earth people have now, that can produce their own kind, was needed so that the entities could stay in a kind of life experience through reincarnation, until at last they could meet up again with the main body of transient beings they departed from long ago.

Can you stand the shock? Can you stand having nearly all that you have been told blown to smithereens with the truth? Can you mentally balance with a high Universal technology that comes to this Placentia planet in great space ships? Can people on this planet, who even expect to win a war with angels of God, poison your thought about UFO's so that you will freak out and be self-destroying?

Although some entities fell out of eternity into a time warp, the whole Universe has gone along as always. Eons ago great space ships traveled the roads between star clusters, and it is the same now.

The story of Rip Van Winkle, who fell asleep for 20 years, sort of relates to the mortal minded slumbering of earth people. Now the entities who "fell asleep" are awakening because their science, technology and increase of knowledge has brought them to the place where they can create a world of abundance for everyone and begin to dovetail in with the great accomplishments of the *Uni-Godhead's* space people.

The only things that hold earth people back are their past conditioned reflexes and the fact that their money and property is based on illusion rather than truth. And since they are on a merry-go-round ride where they have to keep paying for effects in a world of effects, there would always be the piper to pay - unless the Godhead's Universal Family came to their rescue.

Some of the people on the planet want to be the chosen people, because long ago Space Lord Gods of the UPO appeared to Moses and his people, giving them the Ten Commandments. They believed that God had chosen them to bring his kingdom to all people.

Other people wanted to go to heaven and be rid of the Earth, because the Bible told them of a day of judgement and why they had fallen. And they believed they had fallen, but the Bible didn't show that they were resurrected in the example of Jesus, who was levitated into a spaceship.

The things we fear come upon us if we don't replace our fears with action, coupled with

reason, which brings sharing to all people.

The things we believe in come true, but they might not be the things we wanted at all after we get them. So then we should champion the real virtues of life, liberty, equality and justice for all people.

Some of the people want to be left alone to live in their own kind of conscience, but this is because past conditioning rules them. They need to find real comradeship with people in the kind of fun World Wide Buyers' Strike that's coming up.

Most of the people want a New World! That's where I come in.

Let Jesus come for his merry souls and take them to the heaven he has prepared for them, and I'll make Michael's stand with the democratic spirited people of the planet. And together we'll build the Kingdom of God right here on earth, the New Order for the Ages.

Let the Jews be the chosen people so they and we, together, can get on with the building of the Kingdom of God. And then they'll discover that 'to be or not to be' is the question, and to be is the answer. The Jews want, most of all, God's promise to them fulfilled. It is being fulfilled thru the EG's World Master Plan.

Let the people who want to be left alone experience being left out. And then they will want to be integrated into the coming big movement of the *world people of Israel* because, generally speaking, people want what they can't have and that's why they want it. To want private things of your own is not to have them at all. But to work for a kingdom for all people is to have all things added unto you in proper ways of sharing.

The New World that comes in now allover the world isn't what some people will want at first. But this is only because of past conditioned reflexes. Our New Age is a natural order of things that most people will have to get themselves into. It's not necessarily better to let situations force them in, because things are going to come down heavy. The way the old dragon is going to fall out will shock many people, because they won't all know it's gone and won't be able to relate to the people who *do* know what happened.

I am ETI, omnipresent, omnipotent and omniscient. Yet I am none of these things of my own will. I am a kind of microcosm the greater Universe uses to oversee Its important affairs, and so are you when you choose to follow the spiritual rules and be part of the greater team that you are dependent on, just as they are dependent upon you.

The Godhead's radiant energies are expressed thru people according to the soul evolution of their developed talents and abilities. Our talents and abilities are not created in us or by our creation, but they are acquired by our perseverance in the right ways and means in which we are loving and lifting all people.

As it turns out, the judgement of the *Uni-Godhead* is only good judgement in regards to what people do with the life force imparted to them. All people are under automatic karmic recycling, where their words spoken - and the deeds that fit their words - either return to give them pain, or else bless all people if cycled into love services. Then their words and acts build their eternal beingness in the Universe.

No one has ever been condemned by *Uni-Godhead*. Those who condemn others are condemning themselves. But ETI in this galaxy has delivered hundreds of special project planets such as this one, and there are only a few of them left to be delivered. The problems in some solar systems, which caused entities to dematerialize from their eternal bodies, are

corrected now. And the purpose for such projects as this one is to restore the microcosms to their eternal bodies and everlasting life once again.

The problems had nothing to do with what is called sin against a God. They all came about because the wise ones who saw what was happening didn't take decisive action. And I don't mean police or military action. No normal planet has police or military - only these special project planets evolve such things as part of forcing themselves into righteousness.

In this solar system the problem was in the leadership, who developed something like a democratic view that let people fall back to the land and nature - instead of keeping everyone evolving together in the same schools of experiences - and people began to drop out. It was because the leadership got caught up in building, building, building, and not doing all things at a relaxing pace; and all the people weren't spending half their time just enjoying what they were building.

So what happened? Their aura divided into yin and yang duality. You could say in atomic cosmology that it takes alpha, beta and gamma rays synchronized together to keep eternal bodies manifesting. Same with these earth time bodies.

The Bible uses terms like Father, Son and Holy Spirit because, when it was written, there were no scientific terms. The Father is the Universe, we are the Sons and Daughters of the Universe, and the Holy Spirit is positive Cosmic energies in the electromagnetic field. The term Holy Ghost is referring to the used energies circulating from planets back to their sun to be rebalanced and sent out again.

The Universe has Its metabolism, so to speak, and works at a relaxing pace. The Van Allen Belt around this planet is of negated energies, or what space cosmologists call luciferic energies, which are out of balance and, as we see, are raising hell with this planet.

The sun is overworked, has increasing sun spots and can't keep up with the dross that's coming out of the entities' process here, nor the amount of karma they go right on creating out of their big head trips. The sun is pressed to catch up with earth people's time lags while they go on in their silly ways, further polluting everything, letting millions starve, etc. Why do they do this? Well, they have an economy in which they always have another bill to pay. This keeps them on the merry-go-round.

Corresponding to this, some strains of bodies are obese. Some people have a big spare tire around them and cancer setting in, the cause of which is similar to the cause of sun spots. Obviously, their body wasn't designed to handle the commercial junk they are eating. Junk food can't build a body, nor can the present earth strains of bodies eliminate waste as they should, until the entities in them return to wholesome natural living.

Galactic Beings of ETI, observing the doings of UPO beings of this solar system, knew exactly what this project was all about and how it would turn out, because they set it up. This isn't the first planetary project like this one in this Galaxy. Galactic Beings have set up hundreds of them in other solar systems that had the same problems as this one, with entities losing their eternal bodies and having no way of remanifesting them.

On the earth plane, we see that the life cycle of bodies can be expanded by right living environments, creative experiences and proper food. We also see that some strains of bodies are in degeneration to the degree that they can no longer produce normal bodies.

Let's compare degeneration to an electric rheostat that can be turned to dim lights or

make them brighter. The rheostat can control the amount of electricity going thru. Comparing this with human degeneration, when the rheostat and fuses in the body are thrown out of kilter, the cycles of energies radiating from a planet to its sun and from the sun back to its planet do not fulfill their normal cycles. Then the person is not rejuvenated by clean energies. Their rheostat, so to speak, does not open properly to let energies into their system. Thus, degeneration sets in.

If *Uni-energies* are not passing thru the bodies and regulated by the entities' creative experiences, then, of course, those bodies, and the entities in them, will not have the proper amount of energies to sustain them in the uplifting cycles of spiritual or soul evolution. I'm using the word evolution, but not with the meaning that orthodox earth scientists apply to it. The present races of bodies here are not the end product of the evolvement of animal strains. Animals were put here in this project by ETI space beings for scientific purposes, along with the root races of bodies colonized here. ETI space beings are all-knowing at all times and can change space auras by causing people to live according to *Uni-natural law* so that the mental seeds they are sowing in all they do are sown according to *Uni-natural dynamics*, which are of total sharing in every way.

The original animals were put here to be helpmates for the people up until the time they developed the scientific-technological means of traveling, farming, making fabrics, etc. They were the horses, elephants, camels, cows, sheep, etc.; and there were also the kinds of sea life, birds, rodents, insects, microbes, etc., that take care of nature's balance and build natural immunity in human strains. The predator animals and nonessential forms of animal life are all mutations from the purposeful forms. These mutations took place in two distinct ways, and the prevailing factor was in the consciousness earth people collectively recorded in space auras, which, thru the *law of mental causation*, photosynthesized out of their own character.

The second factor was that human hormones got mixed with animal hormones and vice versa. Obviously, during this preliminary period in which entities were restoring their ability to share in all things and build right-use-ness into their ways and means of distributing goods and services, there would persist much error.

Popular earth science uses the term "evolution" in regard to bodies, but bodies are evolving purely from mind energies in the use put to the cosmic life force. And all the agents in nature, such as microbes, rodents, insects, worms, birds, etc., are mutating forms to compensate for the degeneration of human strains.

The amazing thing about all this is that earth material science would follow the road of treating the effects of war, crime, disease and poverty - vainly believing they are real and are the things they need to conquer - expecting to alleviate them by treating them medically, psychologically and with their own brand of jurisprudence. This kind of superfluous science only wants pay. They only create superfluous jobs to employ people who run a merry-go-round that just sells tickets to take people on rides. They say: "People are real suckers!" But people cease to be suckers when they see the vision and have the truth of how to change situations so that real life comes into being.

All these negative effects come about because the entities, sent here for processing and restoring, developed secularism - probably because they felt shame in sharing their innermost weaknesses and began to cover them up with secular pursuits of happiness, which obviously

haven't brought them happiness at all.

But in spite of all this, the scientific-technological age has come forth, having the potentials in it to bring the nuclear cleansing of the planet; or, if applied spiritually, to bring about the world of abundance for everyone.

The truth about *Uni-natural dynamics* convicts the whole world and convinces everyone of right procedure. Let us all see the effects of war, crime, disease and poverty in their proper perspective, and then we will easily rid the world of all negative effects.

To have liberty is to be free of all kinds of competitive commercialism. And to have justice is to be concerned about healing both the accused and their accusers. This can easily be done by putting people who need to be removed from society for a period into pleasant, progressive confinement, where they hold all things common and collectively do all things for themselves on scheduled shifts. Men and women would be put in the same environment; and they would not be sentenced for so many days, but only until they had learned sharing in all things. And as for equality, let's transcend to the real meaning of the word, where it is not just an unrealized ideal, as the words liberty, justice and equality are now, but where everyone would have true equality on the basis of equal opportunity in every social pursuit of happiness. This kind of real equality comes only when all things are ordered by the Universal Mind, which is the prime mover and sustainer of all life and has never sold for profits or bartered in any way.

The truth is that beings of the Galactic Command Space Complex went to work on this planet some three million years ago in earth time. They are not wound up in time consciousness, keeping track of years. To them it is always the same day.

Jesus and his Father God come into play because, about twelve thousand years ago, beings of this solar system accomplished space flight. The same entity that was Jesus first came to this planet from Venus as a being named Merk. This was during the last days of Lemuria, before the rest of that continent sank beneath the Pacific Ocean during a cataclysm caused by their negative collective aura. They created enough anti-matter atoms in their space umbrella overhead - the electromagnetic field - that it finally reacted and pushed their continent beneath the water.

They reaped what they had sown in mental seeds. All people do, and they are just kidding themselves if they think they can live on a planet and not obey the *Uni's natural programming* in atoms, which is of giving and receiving. When people do, they are blessed with all positive things, and if they don't they are cursed by their own hands until they do.

If people are silly enough, shall we say, to obey national political groups and create weapons and use them according to their erroneous hallucinations and fears, then they must die by their weapons. And they will, unless at this time they take a positive course to disarm the planet.

The world people must now denounce the military and nationalism and carry on with the kind of World Wide Passive Resistance Movement that I have outlined. As all the nations will become one *Uni-Nation of Israel*, then the people should no longer fall for the false propaganda that makes them fear the enemy. Do you believe that capitalism and socialism will knock each other out and then the New World will come? Our New Age isn't old world institutions reformed into a higher form of democracy. It is an entirely new kind of world!

The EG tells that this long period has only been a preliminary period that would end; and

that the preliminary period was a period in which certain necessary things would be accomplished so that, when the time came, a great world movement would rise out of the world people that would deliver them from the preliminaries into the New World. The New World isn't really new, but is the kind of order the world people should have had all along. They couldn't have it however, until many people responded all the way in the Truth, which deals only with what life, nature and the Universe *is*. The kind of truth that is of guilt or innocence is as phony as the court itself, and it is the same with the way the word 'love' is used. People are deceived by words when the words are not used in the proper sequences that always promote one reality for everyone.

This planetary project is part of a total transformation that's going on in this solar system. It is at last delivered, however, to become the lead planet in this solar system, because ETSI - Extra Territorial Space Intelligence - brings Its technology in here and teaches earth people how to use it to go forth and bring this whole solar system into the *Uni-Synthesis*. Galactic Beings are into a marvelous system of automatic production, where their machines produce such an abundance that they advance a free kind of giving and receiving economy. In other words, when we can all give gifts freely which everyone needs and that enrich everyone's life and creativity to produce more, then we really have an unbeatable economy in operation. Any kind of paper work, except for a simple inventory, is not needed by Galactic Beings. Among the millions of planets in Galactic Government, and their trillions of entities, there is no ID or census taken. Furthermore, earth people don't have to build all the New Age technology themselves! The Galactic Command Space Complex could deliver more New Age equipment here in one month than all the nations landed in military equipment and supplies during the entire WWII Armageddon period.

As the legends go about Merk, coming with a crew in a space ship from Venus, he and the lady with him, who is called the Lady of the Sun, finally dematerialized from their eternal bodies and were left in the earth's aura to reincarnate. There was a crew of eight, and the ship and six of them returned to Venus.

Merk later reincarnated as Moses, and in the meantime space technology had advanced in the civilizations inside Venus, Saturn, Uranus and Jupiter, forming the United Planets Organization - UPO, headquartered inside Jupiter. When beings from the UPO appeared to Moses (the same entity as Merk, reincarnated, with whom they had never lost telepathic contact) they gave him the Ten Commandments, which during the preliminary period would be God's law.

Civilization, in its expansion of consciousness, has followed the road of law, commerce and technology, which the Ten Commandments of the Judeo-Christian religion has influenced in people. But what has made Judeo-Christianity only a religion is the fact that they never formed an idealistic spiritual movement that was seeking first the *Kingdom of God - the Uni-Godhead* - and Its right-use-ness of material things so that all things could be added unto us and we would have a righteous government that administered actual liberty, justice and equality for all people in every way. Instead, Western culture has developed around usury money games, and only treats the effects of war, crime, disease and poverty, as though they were the real things they had to conquer, and not themselves.

The Orthodox Jewish movement comes from UPO beings, who brought religion to this

planet, and so does the Church Christians' movement of Jesus.

The information UPO beings have given to their contactees here, among the Jews and Christians, has all come from the Solar Logos, or sun computer of this solar system. It is not a source of *Uni-knowledge* in itself, but could only send back to mediums on the planet cybernetics as to their positive and negative works.

It is obvious that the writers of the Old and New Testaments, out of which the teachings of Judaism and Christianity come, wrote in first person as though an anthropomorphic man-God was laying it on the entities here and cursing them for their sins. So-called sin is only the effects, and upon examining the causes of overt acts called sin, we find out that their major causes are simply improper ways of distributing goods and services so that all people's daily needs are fulfilled.

But in most cases, the Bible prophets Matthew, Mark, Luke, and John gave the impression that God was angry with a sinful, wicked world and was punishing them for their sins. So-called sin is only effects of not comprehending the right use of material things and applying right use to them so that liberty, justice and equality comes to all people.

### ***GOOD JUDGEMENT RESTORES RADIANT LIFE***

The judgement of earth people by the *Uni-Godhead* turns out to be a real surprise, because it is all good judgement for those who can receive it by asking for it, doing it, and being in *Uni-Consciousness*. Those who cannot ask for the New World to come in - and do not act to bring it about and be at peace within themselves and in progress with all people - are judged during the 1290 days of tribulation by whatever judgement they put upon people and property.

The old religious idea is that there is a God who is angry with a sinful, wicked world, who sent his only begotten son to die on a cross for the remission of sin - which, according to the story, was caused by Eve being disobedient to God and being tempted by Satan. Therefore, supposedly, the whole civilization fell in sin and only those who believed upon the Lord Jesus would be saved at the end of the world when Jesus came for them to take them to heaven.

This is only true for those who believe it. The real church of the *Uni-Godhead* rose out of the people in Russia in 1917; and *Israel people* are still rising in every city and every nation to form the *One World Army of Israel*, which unites all soldiers of the world, then disarms the whole world and does away with the military.

The old forms of religions must turn to the greater Christ ways and means of radiant life. Then they shall become the way of saving entities from having to repeat this cycle over again. At this time, when the Kingdom of God comes in, people in most churches have not evolved far enough in soul evolution to be of the open-faced truth and to have Universal realizations. When they do, then they will be above all religions and into the actual kind of love services that have the potentials in them of bringing real freedom, security and abundance to everyone. The people in the religion attributed to Jesus would be less than five percent of the world's population, but potentially 90 percent of the world's population can fit into the *Uni-Godhead's* New World, if they turn to it now.

Rev. 12:4,7&8 tells that as the New World comes in, which is now, the red dragon - meaning those people who are antithesis to necessary changes that bring in the Kingdom of God

- represents one third of the stars of heaven, which are cast unto the earth. The stars are symbolic of entities of this planet's astral plane who have mutated bodies they can operate in. They have also been led to develop kinds of plasmic space vehicles which permit them to travel in inner earth and about the outer earth's astral realms. Their contactees on the earth plane, as we see, are covering up the real truth about the flying saucers many people have seen and some have photographed. The psychics that led the Nazi Party of Germany were and still are, in their secret places, part of these stars, so to speak. And Zionism and the CIA are also part of this red dragon, and they will do anything to win the world back for what they believe to be true. But the outcome is already predestined by *Uni-Godhead* and only Its World Master Plan in action will make truthful history with the people.

Those people who are in a high enough state of clairvoyance to see thru the illogical plans of astral entities in and out of bodies, know that their basic drive comes from wanting to find their way back into the higher radiant life their over-soul knows. But they cannot find the right kind of expressions for their ability to be able to have peaceful progress, and it's the same with nearly all people.

Astral entities will be high in the effects that control the material world; into such things as material science, religion, politics, finance, insurance, stocks and bonds, and so on. Also we see that in every one of these facets, persons with a higher thesis have risen to set up more liberal kinds of religions, financing, insurance clubs, etc., and are more liberal in politics, government and education. Now, with the EG's World Master Plan, they can really become knowledgeably active in the truth itself.

Progress has taken place here as the entities of this planetary project opened up in solar plexus, then heart and then head chakras. This progress follows the transition from right-winger to left-winger and then of being beyond duality altogether. That is, to be only *Universal* - One World in consciousness.

People who are predominantly solar plexus live, imagine and act according to alpha or infrared rays, which are of the reactionary right wing. And the left-wingers, who are predominantly of heart chakras, live, imagine and act according to beta or ultraviolet rays, in more creative and liberal ways than right-wingers. But persons who are opened into all three - solar plexus, heart, and head chakras of gamma rays, or the trinity of light energies - have the face of a man, meaning they are logical, reasoning persons who have regard for all people and would have the spirit to turn all things around, just to see that all people have food, clothing, shelter, etc.

This explains the kind of soul evolution that is taking place here to produce the three-in-one trinity beings of *Uni-Christ Consciousness*, who are ETI on the earth plane. These are the "144,000" that Rev. 14:1-7 speaks about. The purpose of all religion, science, government and education is to develop clairvoyance in the etheric soul of the entities here and transcendancy in the strains of bodies. To accomplish these First Cause musts, the people have to have a natural social environment, where all material things are facts of life - where they are all used according to their intended *Uni-purpose*. Then the people are mind over matter, because all things have become in direct line with the needs of all people - everyone giving in love services to the common good of all, and everyone freely receiving according to need.

The state of the Kingdom of God organization that comes over the world at this time isn't

the final state. It is the place where the world people lay the New Age cornerstone so that, from then on, all things level off into the *one idea* all over the planet.

The cornerstone is purely of the right-use-ness of all material things, and once it is laid in true Communism, then the spiritual nature of the cornerstone is realized by everyone.

So far, as we see, the world people outside of the Socialist Bloc are just playing with the material toys, and to some extent even the Socialists are. They are possessed by matter because they are improperly recording much of the energies imparted to them from the cosmic life force into the molecular structure of the materials and tools they use, make and live around. Thus their psychometry is reversed. Instead of their *Uni-nature* leading them automatically into right action, they are led into temptation by the playback of errors recorded in matter. But even this is part of the healing, because those who only play silly games with our heads are led into temptations to break their own laws in order to keep the truth hidden from the people - Watergate!

People thought they were recording their audio-visual recall in the cells of their brain, but they are not. Collectively they are recording their experiences that deal with materiality in matter atoms. This is their yin or negative mental pole, and in the Scriptures it is called the Holy Ghost. The theosophical part of their experiences is recorded in surrounding space atoms, thus forming the collective yang or positive pole of mind force, called in the Scriptures the Holy Spirit. In esoteric writings, it is referred to as the akashic records. The use of the words negative and positive here does not confer good and evil. It only designates the direction in which three-in-one energies flow to fulfill their perfect causes. And their perfect causes will be fulfilled when the elect of this planet set up the proper kind of world social environment in which all people will be able to channel the creative energies imparted to them into direct love services for all people. This is the laying of the full cornerstone.

In our personal aura we record the emotional impact of our experiences. Our emotions act as electric switches to contact us with the space we recorded our experiences in, thus we have astral and etheric traveling of ETI.

For example, if you were in Moscow, and what you were seeing and experiencing there brought back to memory pictures and experiences you had in San Francisco, this would be astral and etheric travel. And if your body was of the transcendental state, you could will it to materialize in San Francisco, or in any space in which you have recorded experiences throughout the Universe thru your eternity. Thus ETI - Extra Territorial Intelligence, the intelligence that animates all of us - is already recorded. And our conscience is to guide us to keep all auric territories in perfect order, so that there are not stumbling blocks of negated energies, as there are in this planet's aura, that people keep falling under the spell of to be mentally tortured by. The only way they can keep negated energies out of their aura is to be in *Uni-first cause love services for all humanity*.

The best example of disobedience to *Uni-natural dynamics* is millionaires who have everything for themselves and then rely on courts, police and soldiers to protect their possessions. No one can gain extremes in materiality without exploiting other people and leaving many people with hardly anything at all. This does not mean that all millionaires are selfish, greedy bigots. Their judgement comes now by the world people, and then we will know which ones are egotistic maniacs and which ones are with the world people in our New Age

crusading. We, the world people, force everything to a head and control the exorcisms of those who are out of mental balance with the cosmic life force.

Our World Wide Buyers' Strike is the good judgement we bring to them, and all millionaires who don't support our World Wide Buyers' Strike will be broken. We could draft all the millionaires into an army and plan a war for them in a field, as they have supported wars for youth to go to battlegrounds and shoot at each other. The millionaires have always told the youth all kinds of fables about God, country and their loved ones so they would fight the enemy, who, of course, was always themselves. The millionaires got richer off of armaments and war supplies. The judges, lawyers, bondsmen, educators, politicians and preachers all kept their affluent jobs. They went on under the illusions of actually believing they were part of a great government that trusted in God. "In God We Trust," they wrote on their one-dollar bills.

All of this has gone on in time, until ETI-UFO presence comes to earth to be prominent among the people. Now it all changes, because this whole planet is a special project set up by ETI space beings. This project is making up for a lapse of consciousness of entities here, so ETI cannot use pure consciousness to correct the long-standing errors in materiality without a great sacrifice of people. An alternative plan must be employed, which is our World Wide Buyers' Strike.

Much that is inspired in the Bible, in regard to the teachings of Jesus, is not written by religious hierarchies of the astral and etheric heavens. During the King James revision, ETI flashed in etheric entities to put many of the truth channelings of the Universal Mind into the Old and New Testaments that only I could reveal to you now. Those who are beginning to understand the meaning of some of these things are those of the high creative consciousness of the ring of white light in the outermost realms of the planet's aura. They are the spiritually balanced people, the many psychic mediums who can see how everything here is screwed up.

The purpose ETI had in Jesus, although he was sponsored by the United Planets Organization government on Jupiter, was to build up a positive world revolutionary movement around Jesus. At the same time, naturally, the religious hierarchies would do their thing according to their own soul evolvment. Then at this time, in the *Everlasting Gospel*, all the Scriptures would be synthesized into omnipresent, omnipotent and all-knowing reality that no religious sect or political force could argue against. The best they could do to keep me from coming forth would be to not give me freedom of speech, the press and assembly - the opportunity to talk to them and to appear before them. They would say: "O, Allen, you have as much right to talk and be in the news media and to use our halls as anyone else."

Yes, this seems logical and reasonable to mortals, but how could I get the money necessary to rent the halls, pay for advertising to bring the people out to hear about the EG's World Master Plan, etc.? I suppose I could start a profitable industry and earn the money under status quo controls to educate the people according to the *Uni-Godhead's* radiant ways and means. This is impossible, though, because this kind of maintaining of the status quo world would destroy the very thing we are doing. People allover the world must support GROM - Get Rid of Money, which is the first bank account that belongs to all people and is for Kingdom of God promotions. The people then reap the real benefits of the positive contribution they make to the world people's movement by acquiring the means to accomplish all that is necessary to

bring in the New Age.

I am in telepathic communion with my own people here - or entities sent here at this time to be with me - who are telepathic, number about two million and in Rev. 14:1-6 are called the 144,000. We are all workers and, although we are in key positions all over the world, we only have enough money to live day by day. So if we are to put things together to help earth people and inform them as to the radiant ways of Nature's God, then we are going to have to have financing from the world people to carry out an altruistic, idealistic world crusade - one that doesn't just travel around and repeat the same old status quo stuff that's already been said a thousand times, but carries out actual demonstrations in cities in which people begin to build the New Age in their community.

Let us understand that ETI - Extra Territorial Intelligence - is on a grid scale in atoms of space and matter, manifesting according to imagining; and when we aspire to the highest ideals for all of humanity, mortals will, of course, cease to be mortals and realize that there is a natural flow of *Uni-energies* that produces natural supply and demand equally - in real freedom, security and abundance - through everyone giving according to ability and freely receiving according to need. The *Uni-Godhead* doesn't run banks, nor does it save money or send out bills. There is plenty of money lying around that will soon be worthless. So why not have the faith in me to put that money in GROM - Get Rid Of Money bank accounts) towards accomplishing our destiny mission now thru real democratic action and saving this civilization from further karmic cleansing. The US Bill of Rights inspires the US citizens to abolish their government when it is no longer fulfilling the needs of the people, and this is especially true at this time when the trumpets of the *Uni-Godhead* are sounding worldwide, and great calamity is at hand.

ETI beings can reach into the atomic grid scale anywhere in their jurisdiction and effect the needed changes. They don't even consider the amounts of bodies and property that are destroyed in the changes, because they know only Life and Eternity. And they know, too, that everything which is meant to continue in *Uni-progress*, does continue; because it meets the *Uni*-requirements of associated space and matter atoms. And all space and matter atoms of negated areas, when permeated by synthesis energies, cause great upheavals in these areas.

Since 1914, ETI has struck twice in Germany, because it was the center of culture out of which great changes would come. Here again, ETI doesn't consider who wins or loses the war, for they know that the persons leading the people with true ideas that come closer to conforming to *Uni*-perfect programming must come out on top and keep improving the territories they acquire out of the struggle, until they overcome the whole world. The *Uni*-Communists ride the white horse of the apocalypse; they have won a crown and go forth "conquering and to conquer" with only a bow, hammer and sickle. But they could not win the whole world in this kind of a project if it weren't for the action of ETI space beings among them who are of the twelfth density and can create the contradictions, thru the CIA, that force the world into true Communism, leading the communists to occupy the whole planet according to the EG's World Master Plan.

The twelfth density is of this galaxy, and is of the Galactic Worlds or planets - the first planets formed about the Great Central Sun at the center of this galaxy, which you can see as a great star if you go out into space far enough perpendicular from this planet's equator and see

the huge disk that this galaxy forms. With powerful telescopes you can see other galaxies, some in stages of development like this galaxy was before it had many suns, solar systems and planets, which all started in the space of this galaxy from the Central Sun.

We of this galaxy, before there were planets or bodies in it, made up the "Great Central Sun" as microcosms or light energy force. We spread out and formed many suns. We didn't spread out because it was our idea; we spread out to form other suns because it was *Uni*-programming that moved us, and we had realization that we and the *Uni* were one, and thru us as microcosms It was creating the next steps ahead for us as one with Itself.

This eternal Universe of which I speak is not interrupted by anything and goes right along in Its usual ways, which know no imperfections at all. The problems that do occur are healed.

But coming over here to this little planet, a speck in the galaxy, we see that the people here are sort of in a hospital, getting special attention that they might be returned to *Uni-progress* again with the Universal Family of thousands of neighboring planets. We hear the things earth people tell in regard to us out in space and of other worlds, and in regard to their Gods and their problems in having a free and abundant life. One gathers that they know very little of important things. If they are to make the grade at this time, they must open up to all the things that are reasonable and of good rapport, and thus win back their real life in our Eternal Universe.

The whole planet will become everyone's home, and as the New Covenant-World Bill of Rights declares: "Each person shall have a place of their choosing to call their own and be free to come and go on the planet and use all facilities."

Perhaps here I should explain that people are not communal property. People live by different statutes than those by which materiality is held common.

The communal dwelling places where people live are their own private palaces. In the many new cities we will build, most people will choose to live in large communal condominiums, equipped with everything of good rapport imaginable. There will no longer be schools, colleges and universities as we have now. All education will be on-the-job doing, except for special technical knowledge people will become acquainted with in books. All of their practical tutoring will be in the actual doing of the thing.

Some housing will be built for single people and others for soul mated couples with children. Each communal condominium will have its new member's committee. As the old saying goes, "birds of a feather flock together." With people this means that people are of different vibrations and talents.

Communal living quarters will be built for people who are on different kinds of projects. Best results come - for producing quality in material things, and as well in art, music, TV, movies, etc. - when the people of these different fields of endeavor are together. It is the collective aura they create around their industry and living quarters that takes them on into the finest things.

### ***PLAYBOY SCIENCE TREATS EFFECTS***

Material science has taken the world as far as it can. Now comes into play the ETI psychic mind - which is led by the Universal Mind - that puts the greater technology into gear

thru which the PSI-ETI synthesis energies can be used that will bring about weightless, timeless transportation, where the center of gravity is in moving objects. Numbers, weights and measures can never figure these things out. They are a gift of the Universe for people who will use them properly, and they can only get this advanced knowledge when kept in Its meditation.

Everyone will respect the "new law," because it is simple and pure and gets right down into the lowest and up to the highest feeling to cause all people to meet on common grounds.

The sun of this solar system has cancer, or sun spots, from being overburdened with earth people not using mind energies properly - negating them, so it has to rebalance them faster than it has evolved the capacity to do so. Now the cancer has set into human flesh, and the blind who lead the blind make big money off of treating cancerous effects in bodies and souls, which are only effects of the people's wrong causes. All negative effects will begin to automatically go away when the world people come into *first causes*.

I say: "Why wade through more spilled blood, when the true communist world can come in right now thru the ETI-World Master Plan?" This will totally fulfill *RNA-DNA-ESP-PSI* for all the people of the Earth.

Cosmological-scientific letters in themselves reveal the truth that ETI-minded beings can pick up on right away. So, follow this equation: *Uni-Helix=RNA-DNA-ESP-PSI*. It represents an energy matrix, whereby the Universe creates Itself!

Science is attempting to trace RNA-DNA-ESP-PSI to Its source, believing that thru the manipulation of these things they will solve the problems of human degeneration - war, crime, mental illness and poverty. This is the biggest illusion there could be.

But even the blind who lead the blind believe they do right. It is not that they understand the truth and then purposely deceive the people.

However, this kind of science of effects had to go on up to this time of full truth, because in such challenges, those men and women still in the illusion are changed, and even their pseudo-science finally leads them to the truth. This ends their kind of medicine and brings into practice the true health processes of natural living, which has no need of artificial antibiotics and other such kinds of drugs.

Already, all scientific and technological growth follows ETI, and the negative effects that most scientists treat will all automatically heal when these things are done:

1. When everyone is returned to only fresh natural food that comes from the vine in its pure forms.

2. When all the transportation is converted over to ETI dynadran clean power, where rapid space transportation will take the place of the private automobile.

3. When the whole planet is disarmed and brought under the *Uni-Godhead's* World Master Plan.

4. When the New World Government that is emerging out of the *world people of Israel* is operating the whole planet, without police or soldiers, as such, and without money.

5. When world leaders begin to plan the New World objectively and leave past conditioning behind, because it is all part of the preliminaries and its data is not usable in the kind of world order we shall build now. The New World shall be built upon the *Uni-Christ Idea* of total sharing.

These great changes can come now by just telling people about them and affirming them.

The changes are all fun to make! They benefit everyone in every way. No one loses anything of value, but instead they gain all the things of good rapport.

The prophecy of this time (the cybernetics of ETI given in the Scriptures) in St. Matt. 24:22 says: "And except these days should be shortened, there should no flesh be saved: but for the elect's sake [all the New Age builders] these days shall be shortened."

What does this tell? It tells that thru the present ways and means of handling big world problems, the leaders of the world people are failing; and if ETI doesn't intervene before the *world people of Israel* and their leaders go right on off the deep end, then all flesh would be lost. And not thru accidental nuclear holocaust, as this is all controlled by ETI and is only used as described in Revelations, Chapter 18, to end the misery here in a great sacrifice, if need be.

Socialism has produced some of the ways of eliminating world starvation, the pollution of air, soil, water and food, and also economic tensions. But as long as capitalism (the cyborg machine) exists, then even socialism is making a big curve back to the old ways and means and cannot go forth into true communism.

It is good to know that war, crime, disease and poverty are only negative effects of the world people's wrong causes and will automatically go away when the world people are brought into *first causes*.

This is true because *Uni-RNA-DNA-ESP-PSI programming* is perfect and has been healing all negative effects all along. The only reason the full healing of all things can't come about is that people have other things they want to do before they do the first things that must be done, if the last part of Armageddon isn't to be karmically played out. So, if it is played out, the world people go thru the Last War for the World, only to cause them to do then what they could do right now out of the true democratic spirit as applied to total changes.

Either way the planet ends up in the Kingdom of God space organization of ETI, and those who remain - who are 'standing in the lot' after the world cleansing and purification is carried out by ETI - will experience an eternal rebirth.

Earth science has it in their hands now to purify the planet's biological factor and ecological factors pertaining to air, water and food. The present drugs and kinds of pesticides, etc., given by ETI for earth science to use are not the things we shall begin to use now to heal all things. The earth civilization would have already been wiped out by microbes, etc., that have photosynthesized to take care of the trend in all things toward degeneracy, had ETI not been rebalancing the negated energies all along.

In other words, science's treating of effects has kept this civilization in the contest of overcoming their imperfections, and the true spirit in them is still wanting real expression.

Thru science's present means, they can never heal the planet or its people.

This is accomplished by ETI space beings, who can feed PSI synthesis energies into the planet's aura at the rate the people can bear without freaking out, and can at first bring a slow transition which gradually speeds up and climaxes. It's like saying that once you fill a balloon with helium gas and let go of it, it comes under natural law.

So it is now with all the people of earth as the *Uni-Godhead's* spirit is being poured out on all flesh. The psychedelic age, begun with the ETI development of LSD, was and is for the purpose of giving people self-induced transcendental experiences so they can have neuro-electrical soma, psychodramas and paranoid experiences and finally begin to understand what

they are.

It is no wonder that the establishment outlawed the use of psychedelics. Although, as we see, there are plenty of them still being passed around. All thru history, the establishment at first has outlawed everything that's good, simply because the things that are right conflict with private property and the jobs of people who work for the establishment. Yet all of this is relative between all opposing groups and is subject to the synthesis coming in thru the world harvesters who finally inherit the planet.

They don't win it thru wars, but at last they cast out all forms of man-made laws and their enforcement. The proper way to govern people is thru right social environment and creative schools of experiences in an atmosphere of real freedom, security and abundance.

The New World that is coming is all built for happiness. War, crime, disease and poverty - all negative effects - are caused from the people's wrong causes. Thru the doing of first cause love services for all humanity, we shall end the 'ways that men think are right but the ends thereof are disastrous to all people'.

National governments and medical science pretend that they are concerned about the health of people and the preservation of life. It's all malarky, because most of the commercial thought, and food in cans, boxes and bottles, is giving people their degenerative diseases such as cancer, heart trouble, etc.

If they are so concerned about the preservation of life and the eradication of social diseases, then why don't they end the cause?

They are either ignorant or, if they do see what's wrong, they think they will play the game and work into a position in industry or government that will enable them to eventually bring proper changes.

This never works, because in the process of getting there, they are recording status quo experiences as their playback and finally their dreams are perverted. But they still remember their dream - what they were inspired to do - and wonder why it isn't coming about.

When you are called to do a humanity thing, then you must depart from the status quo world; otherwise you'll never accomplish it. Form a commune with people of your vibrations, who are into the kind of creativity you are in. Hold all things common. Put all your money into one pot and use it for first causes. Then you'll begin to develop the kind of communal living and industries that can eventually liberate all people from sweat, blood and tears.

You'll discover, as we of the One World Family Commune have, that our heads are truly radio-TV transceivers. And the Universal Mind is broadcasting thru the atoms about us, and Its special energies or rays are always of one unit. Everything becomes one, one, one - right on thru the line of eternity.

Then you realize that the yin and yang thought coming into your head is of the kind of trips right and left wingers are going thru; you realize that the synthesis of the two is true communism and that the prevailing energies are automatically going to carry the whole world into the New Age.

You are no longer frustrated or anxious or wearing your heart on your sleeve for the suffering people. You know that there is only one way relief and help can come to them, and it is in their uniting to share all things. Then they are liberated.

You begin to laugh about the people sitting in prison cages, and the people going to

hospitals, and the people paying taxes and interest, and the couples going thru marriages and divorce, etc. You're only laughing because you know that the people could open all the doors that bind them, if only they would use the *hot line* that runs through the maze. Jesus called this praying. Religions that got on the Jesus bandwagon relate these teachings to a man-God up in heaven. Such prayers are vain and foolish. The *Uni-natural thought force* is of mental causation, which only works when you love all people thru service. We should tell people what's wrong with their institutions and show them how they can be liberated from mediocrities and turn all their institutions into real healing services for all people.

For example, the doctors, nurses and workers of any hospital can convert their hospital and their living situations into a commune. Whether the hospital is state run or owned by private investors, these operators cannot stop the communalizing of property. If the people begin pooling their income together, getting their food from the source, and doing all things as one people in the Universe, then all that is of a perfect order comes to them. They begin to experience life as it should be, and they become all-knowing and all-wise.

We begin to know that past fears can no longer turn us back. The whole world is on its way into a New Age. History will not repeat itself again, and those people who have done the necessary things to meet the Universal standards for all people shall be standing together in the lot at the end of these days.

If ETI has to purify the planet thru Its means, then there's really going to be misery here for a lot of people, and plagues will wipe out many who do not have natural immunity. Read Rev. 16:1-12 and Rev. 7:1-3 for the prophecy.

Earth science and technology - coupled with radiant souls who take direct action to heal the planet and its people thru this World Master Plan - can accomplish the same things ETI is accomplishing by the pouring out of the six vials of the prophecy, which has been happening since 1914.

They would return the world people to only natural food from the vine, and in this way everyone would be assured of pure nutritious food, instead of the fancy cans, bottles and boxes with fancy labels on them that waste a lot of labor and give the people only dead food, which is a great part of the cause of their degenerative diseases. The lower bacterial ranges manifest only in order to decompose bodies that are already in degeneration. These lower bacterial ranges are the same stable yin and yang microbes mutated into lower forms to handle degeneration. When the right steps are taken for right food, right sexing, right body hygienics and planetary ecology, then microbes begin to move up the light scale again into their original forms.

This also explains the mutated animal forms thru which, science imagines, that human evolution came forth. The fact is that the original forms of humanoid bodies colonized here by ETI space beings a million years ago were all robust and beautiful, and there was no perversion in them. They were all on natural food from the vine, and the males and females practiced natural selection, soul mating and caring for their children collectively. They had no ideas of sin or even death. Only perfection was programmed into the atomic nature that produced the bodies.

It was only when the entities sent in here from space entered the bodies that, immediately, the shit hit the fan, so to speak. Ha! The entities, who had spaced out and lost their eternal bodies, began to work out the problems they took on while out of body. And these were

problems which could never be solved without body forms that they could operate in, and thru which they could follow a facsimile technological project that would at last bring them back to the point of realization of who they are and, most of all, of the fact that they are already potentially delivered.

### ***SONS AND DAUGHTERS OF GOD'S PURPOSES***

There is nothing wrong with any of the parts of the Universe. There are only problems to be resolved here on this planet, and they have to be resolved by the people themselves. The fact that many bodies could be destroyed and cities ravaged is of no consequence to the *Uni-Godhead* which is omnipresent in atoms, and not sitting upon a throne in some heaven. Its Kingdom established here is all that matters!

The cities are all going to be remodeled into New Age planning, and the entities that leave bodies either go on somewhere else or, if they are of these energies, they will return here to go on in progress and transcendence.

All the ETI personnel here can be taken back to their motherships in space and put into eternal bodies, so we are in no danger. ETI beings can return all the earth people to eternal bodies if they will follow the spiritual road of transcendence as it is given in this *Everlasting Gospel*. Follow this plan you are reading about here. This is what everyone has been waiting for!

In choosing a path, which would you choose: to go on just being an earth person reincarnating back here, or would you choose to be in an eternal body again and be free to go to many planets and travel in space? Naturally, if you have any wisdom at all you'll choose to be eternal again. But before you can become eternal again you must choose true *Uni-Communism*, because it is the economic and technological ways and means thru which you can channel your creativity properly so that the mental seeds you are sowing build the kind of akashic records in the auric territories of this planet's aura that will make transcendence possible. Things are so dense here that transcendence is impossible for most people. The air, soil, water and food have to be returned to balance. This can all be done now in a short period of time, when the EG's World Master Plan is put into full swing all over the planet.

The Jews who only say they are Jews and are hanging in the balance of power are destroyed, and Ezekiel writes about them in chapter 35:1-15. I reveal these things not to judge the Jews or any other group related to them. I have no power to judge anyone. I am only to reveal the prophecy so that Jews, Protestants, Catholics and Communists - and as well all world leaders, speakers and writers in all fields - acknowledge that which is Universal Truth; and then get with the *Uni-Godhead's* World Master Plan-World Wide Buyers Strike, which can change the whole world thru people having the best time they have ever had. We change the world thru celebrations and not thru fighting each other in useless battles.

The word Jew still means Jehovah - sons and daughters of God's purposes - and no true Jew is trying to build the Kingdom of God with money. It can't be done! He would only use money to the end of getting rid of money - GROM. So let the Zionists remove the privately owned Federal Reserve System, and private banking system of that part of the planet that is still in Gentile hands and opposes the Socialist Bloc. They can do this by agreeing with the EG's

World Master Plan, which I, as Emmanuel, bring to them.

Let the Catholics and Protestants take up the EG their Comforter has brought and get it in circulation everywhere. Let the Masons and Communists do likewise, and to them I am Michael making his stand with the Cosmopolitan World People.

It is most urgent that I promote a World Wide Buyers' Strike which, in as little as 90 days after it is in full swing, will completely change everything that is wrong here and make everything right by uniting all people into the One Idea whose time has come and cannot be stopped. From then on, the whole world progress will go up the main highway to the total fulfillment of all souls here.

### ***JUDGEMENT AGAINST MOUNT SEIR***

Do you remember the case of Julius and Ethel Rosenberg? They were hostages caught up in a decisive period between the CIA's futile attempts at world conquest and the Communist world movement. Julius and Ethel, and their attorneys, thought that the judgement rendered would be that they were innocent of the charges. The people who understood didn't really believe that such an atrocity, as that which did occur, could happen in US jurisprudence. It wouldn't have happened if the judges and attorneys who knew the truth had gotten up and said in no uncertain terms that the whole thing was a big fascistic frame-up, and in no way would they support such evil. But as we see, almost no one stands up and lets out with their real feelings for fear of being persecuted and cast out from their position. I have maintained for many lifetimes and years in this project, and I am here now to fulfill it because I never give in one inch to idolatry and hearsay. Those who go all the way with the *Uni-Godhead* are protected in ETI communion.

I don't win friends and influence people, because I don't want friends and I don't want people, *per se*. I only want comrades who carry the burden of the world with me and me with them; and only we shall come together to build the Kingdom of God on this Placentia planet.

The Father God couldn't act to save Julius and Ethel, the father and mother of children, who were caught up in world karma - not their karma but everyone's karma. The Father God, or Solar Logos, is an impartial computer and couldn't compute freedom for the Rosenbergs without the many people who saw the treacherous plot raising such righteous hell that the forces of evil would be stifled by such direct action. Then the computer sun would have returned their acts fulfilled. In other words, it takes direct social action to solve any spiritual problem. Problems cannot be solved by status quo courts or governments because they are already under error and bound by old protocol that isn't even in concert with the time in which we live.

Now the judgement of America is in the hands of spirits like Julius and Ethel who, in a way, decide the fate of Americans thru their spiritual act of not ascribing to cowardliness or ambitious fame, but rather to be just people who represented the *World People of Israel*.

Julius and Ethel were absolutely innocent of all charges. McCarthyism, the same as fascism or Gog's exploits, was simply using them to tell everyone in the US that if they dared entertain any communist ideals, then the same would happen to them. This just goes to show you that when people aren't united to speak out for justice, they are led into captivity.

The truth within all this is that the US has been a melting pot for all races of people to

come into one *Christ Unity*. And now the indignation of the people will rise as they come to know that their government's hands are tied by the International CIA Ring, which is the seat of Gog and has control of nuclear weapons they could use against US citizens.

The US was formed by the *Uni-Godhead* for the purpose that it shall fulfill now. The US Constitution-Bill of Rights has been sadly perverted, and in place of it is protocol made by private profiteers to exploit workers and own our industries.

Who perverted the Constitution-Bill of Rights given by Nature's God? Or, for that matter, who turned the Bible around so that the people who read it wound up supporting the status quo state of confusion (Gog's armies) instead of the *World Israel Army* that never goes to war except in the defense of Christ Communist ideals, which are of the very essence of the New World being born?

From the very outset of the World Communist Movement - which came out of the channeled writings of prophet Marx, an ETI correspondent - the communist party had the same rights under the *US Israel* Constitution as any other party had. So then why was there an unconstitutional effort by renegades in the first place to try and put the communist party out of the US? This only shows the perversion that was already in the changed Constitution. But the big thing that changed all of it and made it worthless as a document thru all these years was the stone the US builders never laid. This put the *US Israel* into the hands of other people, who had other ideas about the coming of the Kingdom of God. There are those in Judeo-Christianity who have been waiting for the Kingdom to come. The Kingdom of God never comes to those who wait for it. It only comes to those who build it.

The basic challenge of the Bible is not to have religious freedom or to worship a God, but to bring people real freedom, security and abundance and put them on the path of true progress. The religious hierarchy turned the Scriptures into the kind of religions the orthodox Hebrews and Christians follow, which are all part of the error of usury, coveting, priest and political crafts; except for those Jews and Christians who are sons and daughters of God's purposes – the purposes that deal only with total world transformation and the Kingdom of God.

### ***TRANSCENDING USURY MONEY***

There is something happening that's bigger than all the religious teachings, and it is the order of how society itself evolves. As we see, religions haven't changed any of the social errors that keep the people bound in a paradox. It was philosopher Hegel who gave the truth about social evolution when he presented the ETI idea that antithesis versus thesis evolve one upon the other into the synthesis. At that time, the leading sect of Judaism was spurred on to make their pitch to get a way of shaping the destiny of humanity. It was in gaining control of money.

This came about thru the Rothschild's bank that rose in Europe to actually gain control of the fluent money of all Europe. And it came as the result of the persecution of Jews.

When the US was founded, only the few men of the Adamen (Freemasons) knew of the error of usury money. They were essentially Franklin, Jefferson, Paine, Adams and Washington. But as the majority ruled, they were outnumbered. The original Constitution they gave was ratified to include private banks, interest-bearing money and taxation. Thus the cornerstone for a free cash flow money didn't happen. But the men of the Adamen did get the

Bill of Rights in the US Constitution, over much protest from the opposition. It has shaped the US into what democratic ideas the people do have. Now the US tribe of Joseph must rise in the US and lay the cornerstone that never got laid in 1776. At this time, because we are ridding the world of money, the US citizens and their representatives need only to print free cash flow money and use all that's needed to communalize industries, freeze prices and put all the people into gainful employment. The bankers, insurance companies, etc., will scream bloody murder, but just hand them an *Everlasting Gospel* and let them read what the Spirit of Truth writes. The CIA will try again as they did in the McCarthy era to usurp the US revolutionaries. This will only cause the US tribe of Joseph to reach their high point of indignation thru which they will see that, if they allow themselves to be divided, the "powers that be" of the old world establishment have the power over them. The path of passive resistance-legal civil disobedience is the only realistic way to encircle calamity now.

The world people, in general, could have no real idea of what property and money is or how to use them properly until prophet Marx arrived to give the Dialectical Gospel of Materialism, and prophetess Mary Baker Eddy came to give the *Uni-science* of radiant health. The truth and the blessings are already programmed into *Uni-atoms*!

Why did they arrive after the US was already subdued by usury money, with the cornerstone St. Matt. 21:42-44 speaks of having never been laid? Obviously it was because the truth had to be born out of social perseverance in order to have *real* life, liberty and pursuits of happiness. And this could only come about because great numbers of people would be enlightened according to the right ways and means of distributing goods and services - the *Uni-Godhead's* ways of sharing all things.

The order of Zionism would finally have to give way and synthesize into the order of Communism, because money would become valueless when a large percentage of people had been shifted over into its games (white collar jobs, etc.). And national debts from paying interest would mount beyond the ability of usury money to maintain itself. Then its decline would automatically come because the mental seeds people were sowing under usury would be negative, and they would keep reaping what they had sown. Thus their enslavement to mortal self-desire would so conflict their conscience that life would become ridiculous and jobs would become boredom.

The orthodox Hebrews of that which is called Judaism are bound up in a paradox. Money as usury has turned them into a monetary-political-military force for protecting private property and money. But their destiny mission has been the Kingdom of God; and now I, as Emmanuel, lay it before them in the EG's World Master Plan. The enlightened Jews, however, went forth to join in with the *Uni-Communists' World Movement* to change the whole world, starting at economic basic root levels - a grass roots level which simply explains that "all people will share all material things; all people will help produce them; and, in return, this will produce life, liberty and pursuits of happiness for everyone."

This is very different from that which is called the free world, which says: "You can do as you please with your money and property as long as you pay its tax and obey the laws of the land."

The idea of full giving and receiving far surpasses the lesser idea of having your own private property and money. Why own pieces of a planet and be hassled with money when you

can own the whole planet and have use of all of it and its social facilities, free of any charge or vain judgement of men?

Some interesting facts: In the lands of usury money, only about three university students out of every thousand have any knowledge of Marxism or even Christian Science. And they have come mostly from families oriented in Marxism or Mary Baker Eddy's Science and Health. Also, US history (or even world history), as taught, doesn't give any ideas as to what the basic problems are or why the world is divided against itself and the opposites stay in struggle against each other - until they synthesize into a One World Order, which is coming about now, in spite of anyone or any group. So then, how could the basic problem be resolved until the US citizens put the capstone on the pyramid. See the pyramid on the one-dollar bill. The words below it say: "New Order For The Ages."

On this kind of an overcoming planet things are happening backwards. So not until this time would things get totally turned around to go forward in true progress. Then intellectual studies would become spiritual and follow an intuitive channel. But when literature is clouded with dogma and garnished with religion, as it has been, then the intellectual studies are a cover-up of real truth, and they can be the academic knowledge and philosophy that leads the people into further wars. Knowledge should lead people to greater psychic and spiritual awareness.

No amount of formal education that is not in the doing of first cause love services is going to evolve the spiritual consciousness of people or educate them to carry on, other than in the old ways of the status quo. Only that which is directly associated with people's talents and abilities, coupled with the actual doing of first cause things to produce people's collective needs, can produce reality. The rewards for people lie in things shared and the creative life they have together. Then all our industries become communal schools of creative experiences. Universities and industries become one and the same.

People under the capitalistic effects of money under interest and taxation cannot get a real education in their schools, colleges and universities because they are only taught the ways of cooperating with the error. Nationalism and economic error will persist until people's consciousness rises to see the whole planet as one unit.

Formal education, in the greater sense, is to brainwash people to be satisfied with the chance of making it to the 'top' - to the top of what? They make fame and fortune because of the karma they took on to get up there, and then they fall back to the bottom in their next incarnation and their vibes are so low they cannot manifest anything.

I do not mean that this is the rule of all the people at the 'top', because some of them know cause and effect/karma-retribution and use their usury for the greater benefit of all. They will openly unite with me now. All of the status quo games will end as our World Wide Passive Resistance Movement and World Wide Buyers' Strike get under way, and we shall find out who is of the truth and who isn't.

These writings have no dogma. I'm explaining things neither from the historical nor religious points of view. This EG is in no way a religion. Its teachings are the essence in all religions, and they are all fulfilled in the EG's World Master Plan.

Basically, the EG brings back to all people the truths that all people can agree upon no matter what level of awareness they are on. How could anyone refuse a million dollar a day job of their own choice? The EG offers this to everyone, and it's World Master Plan guarantees it.

But the freedom, security and abundance everyone will have couldn't be bought even with a million dollars each day in each person's hands. It only comes thru the real right-on government of the Universe.

Spiritual things bless *all* people and leave no one out. But, as this planetary project is of a lapse of spiritual consciousness, when the climax comes there is an automatic separation of the chaff from the wheat. Some people don't arrive because they pass out of their body before they have the realizations of what it is they seek and the privilege of meeting up again with their space comrades, from whom they have long been separated and who are here in flying saucers preparing to deliver the harvesters of the world into the Kingdom of God.

However, those sealed in their heads (their etheric auras) with these energies of Christ Consciousness, even though they might lose their vehicle, can return here thru reincarnation and go on into eternal progress that is then won by the *Israelites* (Christ Communists) so that all things are moving forward in peace, harmony and abundance for everyone. Our Great World Celebration comes at the time of climax, when all resistance to the *Uni-Christ Idea* is gone and we have all prepared to celebrate together.

### ***MONEY THE LIFELINE***

The Hebrew Zionists who said they were Jews and still believe that they are - and it hasn't been decisively proven yet that they aren't or will not be - gained monetary control over Europe as a result of their being persecuted for having a God mission that differed from the Christians'.

Amschel Rothschild, speaking of these times, said, "It doesn't make any difference who makes the laws (meaning the laws of the land), it's who controls the money that counts." He was right, up to the point when the *Nation of Israel* was founded in the USSR by the Tribe of Judah. Then the whole world would begin to feel the new kind of workers' progress that would take place in the Soviet Union and great wars would be fought between the two contenders for the world throne: the Hebrews of Judaism expecting a kingdom, and the Communists building one. But opposing forces are relative to each other, and the wars are only the letdown of earth people's karma into our New Age. Throughout all of this there was only one objective, and it was and is to build a heaven on earth.

Usury money (money loaned at interest-bearing rates and under taxation not represented in the people's commerce) would cause value to be put upon property. Therefore, all the people who grew with this tree, which spread its branches out over the world, would be stifled and separated from the real spiritual growth of using money only as a token that represented each person's amount of giving to the common good of all.

The *Uni-Godhead* prophesied in St. Matt. 21:42-44 that the cornerstone would not be laid in the new US by the majority of Declarators. The reason was that money used only as a medium of exchange would not, at that time, produce great industries. That would take collective capital wealth, and this is what the Rothschild Bankers were to set up in the US. But the people's self-centered secular ways caused even their own "people's money" to become usury. As we see from history, Thomas Paine had to hammer away at the Tories with revolutionary ideals of independence in order to even have an independent nation. And then in

Abraham Lincoln's time the US Civil War was steered toward its outcome by ETI to keep the nation from being divided into smaller nations. *Uni-Godhead* had a purpose in this nation and its beginning which is to manifest now, as the US tribe of Joseph rises to join hands with the USSR tribe of Judah to bring in *Uni-Communism* all over the world (Eze. 37:15-17).

We could truthfully say that the immigrants that ETI led from the old world to the New World were meek as lambs, but they surely were not much wiser either. When it came to money and property it seems they were never as wise in the past as those old material serpents. It was an equal contest between the righteousness of the people being unified in prospering the Kingdom of God and the materialists doing it their way thru money (Rev. 12:1-3).

The pioneers staked out their claims, looked for gold in the hills, found it, dug it out, and fought Indians; but didn't know they were leaving their new kingdom to other people to lord it over them, until they would listen to the single voice calling from the wilderness of their despair.

Can a people be proud of their history when they have no real history of their own? Let's get it together now and make real history; by becoming history in the Omnipresence of *Uni-Truth Reality*, which is the Kingdom of God for ourselves NOW!

It took the game of banking and the accumulation of capital wealth to cause great industries to rise that would at last be a blessing to all people in this time when capitalism would return to the oblivion from whence it came. Really there are no capitalists, there are only people who have been mentally subjugated to a cyborg beast, where matter is endowed with fetish, masochistic, possessive consciousness. Now the veil is being lifted and the people of the US will stop fighting with the capitalistic beast against Christ Communism. They will see what the real controversy is between free enterprise and socialism, and turn to a World Wide Buyers' Strike as the spiritual way of taming the roaring lions in their midst.

Usury money has caused property and money itself to have value. The *Uni-Godhead* did not create capital wealth. IT already was the capital in all things. But until people could understand this, capital wealth would rule them. And when the *Uni-Godhead* delivered the *World Nation of Israel* in Russia in 1917, then Gog (CIA demagogues of banking) would begin to plan the WWII Armageddon to defeat those who they thought were Antichrist (See Rev. 16:13,14 and Eze. 38:4).

The US pioneers feared that if they didn't obey the "powers that be," then they would lose their homes, businesses, land and money, which they began to call their free world.

Now hear this: The Kingdom of God's radiant working concept was not of a Kingdom of God that would come at a future time, as the Zionists and the Catholics thought; but it was of a kingdom that was already in us and in nature, life energies and the Universe - and to produce it, those who Abraham had led to this North American Continent (Gen. 12:1-3) should have followed the ideas Jesus pioneered that we read about in Acts 4:32-35.

In other words, the Kingdom of God wasn't *coming*, it was already here to be built. But it could never be started until the cornerstone was laid; which, at this time, is obviously not capitalism or socialism, but is the Christ Communal way of holding all things common.

Just as the prophecy in St. Matt. 21:42-44 tells, a nation would come forth bearing the fruits thereof; and of this the Lord said: "This is his doing, and it is marvelous in our eyes." It is marvelous what Soviet communists and communists over the world have done since 1917.

The only way to see the Hebrews' Zionism is to realize that they have only been filling in until the citizens of the *US Israel* rise to do their part in the Kingdom of God mission. Now the US citizens have no choice. They can't go on with the system they have. There's only one way for them to go, and it's all the way from here to there, in one big step, into the Kingdom of God. If they don't, then they will go thru their karmic cleansing revolution in these times. And their revolution will cause them to come into *Uni-First Causes*.

The US citizens have been 200 years in error, and their error has caused everything from soup to nuts to have a price tag on it and to be weighed and measured according to usury money values, going up and down according to the debts accrued in their wars, which, since 1917, have been aimed at destroying Christ Communism.

The World Zionists who run the International CIA Ring - which is the scout troops that protect the investments of the old world bankers allover the world - have been setting up coup after coup to try and get some kind of a revolution going among people to unite and fight communism and restore what they call "the free world". To them, freedom is the right to own property and have their own money to spend as they please.

Christ Communists are succeeding because they have basic economic ideas that conform to the natural law of supply and demand; which, when fulfilled, brings abundance to everyone and liberates people from usury money. Communism was born out of the people who have been struggling under a usury system where the people had to borrow money at interest rates. This could never deliver them into their New World, but was only a temporary measure until some people saw this error in economics and brought about a world movement that would correct it. Let us keep in mind that, in this kind of an overcoming planetary project set up by ETI, the Communists couldn't win the world unless the CIA provoked situations that forced them to occupy territories. Now the world people, thru the EG's World Master Plan, have the splendid opportunity to stop the Last War for the World before it starts and bring in the New Age now by applying right-use-ness to all material things.

The correcting of the error of usury money could be painful. This is because money has been the lifeline, and the correcting of the error would cause all that has been built around usury money to fall. Furthermore, since the common people have let the military and court-prison regalia expand, this would make the correcting of the error that much more painful because the military and penal system are in the hands of people who will fight to maintain the error. Only a real passive resistance-legal civil disobedience movement will serve to offset the necessity of going thru a Last War for the World.

What should people do when they have opposing ideologies or opposing ideas about the Kingdom of God? They shouldn't try to force their ideas on others; instead they should find the common grounds on which they can come together. The Jews and Christians haven't done this. When the true *Church of the Uni-Godhead* did rise out of the people as Communism, the established churches gave support to the status quo nations to try to defeat Christ Communism - which, as history shows, they couldn't do. And if people go on supporting any part of the old status quo, they are surely going to end up in a great tribulation.

So now you're all on trial and the judgement is coming up. Ha! Of these things I write, I'm not emotional about them at all. But if I knew a comet was coming to hit the earth where there were many people, I would tell them about it in advance and use every means of logic and

reasoning at my command to save them from disaster. In this case, *the cybernetics of the future as reported by ETI in the Scriptures are the best revelations written to cause world power groups to see prophecy*. The people are shown that I come in at a time when part of the prophecy has already been fulfilled - the WWII Armageddon - and that the remaining part of the prophecy will be fulfilled in The Last War for the World, if measures are not taken to proceed onward under the World Master Plan I bring.

In Eze. 35:1-15, I'll quote the outstanding verses from the King James Bible, which are the Scriptures of the Cosmic Adept assigned to this ETI space project. In the "judgement against mount Seir," mount Seir refers to that which came out of Moses' Mount Sinai encounter with UPO space beings of this solar system. The Galactic Command space beings of ETI used Moses to lead the Hebrews out of Egypt, because they didn't want history to record that a great unnecessary civil war took place there. ETI space beings have ways of accomplishing things so that the ends are met that serve the *Uni-Godhead's* purposes without a lot of bloodshed.

The EG's World Master Plan - which calls for a World Wide Buyers' Strike - is ETI's way of bringing in the New World now, so that the judgement of Zionism doesn't have to come. Naturally, when a people correct their error against *Uni-natural dynamics* - which had been tripping them up to fall flat on their face - then they can stand up and walk on thru the valley of the shadow of death with *ETI knowing* and fulfill the mission the *Uni-Godhead* has in them. This also goes for Catholics, Protestants, Masons and Communists, and not just Jews alone. They will all fall on their faces for fear of torment when the big fireworks go off in New York City. And then those who do get up will mourn and stumble around in carbon dust as black as a sackcloth of hair that blocks off the sun's rays for a few days afterwards.

What is it that causes people to go on towards the automatic judgement day which is in their own hands, under the vain idea that an arbitrary father-God or man-God can at last change his mind and save them from the very death and torment they go on producing daily in their dog-eat-dog, business-as-usual ways?

The judgement against mount Seir, in Eze. 35, is depicting what happens to the Jews' Israel: "Son of man set thy face against mount Seir, and prophesy against it, and say unto it, Thus saith the Lord God; Behold, O mount Seir, I am against thee, and I will stretch out mine hand against thee, and I will make thee most desolate." Here the *Uni-Godhead* is telling what happens because of technicalities in bringing in Its Kingdom of God.

"Because thou hast had a perpetual hatred, and hast shed the blood of the *children of Israel* by force of the sword (modern day weapons) in the time of their calamity (the time we are in now), in the time that their iniquity had an end." Their iniquities can have an end now because the EG's World Master Plan is given to the *World Israel* people.

"Because thou hast said, These two nations and these two countries shall be mine, and we will possess it; whereas the Lord was there." The two nations are, of course, the US Joseph and USSR Judah, and I AM here in the US.

"Therefore, as I live, saith the Lord God, I will even do according to thine anger, and according to thine envy which thou hast used out of thy hatred against them; and I will make myself known among them (the US citizens and USSR citizens of *Israel*), when I have judged thee."

This prophecy is accurate. I quoted verses 2,3,5, 10 and 11 from Eze. 35.

This takes place in the Middle East war, in the ETI karmic cleansing of that territory, which creates the opportunity for Christ Communists to occupy that whole part of the world. There are already strong communist movements going on in Arabia, Egypt and Zionist Israel. The Lord does not order their judgement, but it comes as the result of their own stubbornness in plowing on in the face of sure disaster, vainly believing that their God ideal is going to turn the victory over to them. The problem with Zionism is that their nation falls apart without money. And this is where the CIA comes in. The CIA didn't begin in 1947; it began long ago when the Israel family lost the throne to the Judah family. Since then the Hebrews have been divided, contesting for the illusion of the world throne as the chosen people.

I tell the Zionists that in Ezekiel 35:1-15, the "judgement against mount Seir" is telling what befalls the Israeli-Zionists in the coming Armageddon. They should see this not as God's judgement come upon them, but as the precarious position that fate has cast them into. Which do they choose, to rally with Emmanuel now or to try and have their own throne of David? What all *Israel people* lack is the economic system through which the sharing of all things can come. In choosing to create this with me, they can choose that which blesses all people, instead of playing out the role that fate has in store for them.

Now the Old World International Bankers have the US sewed up so that the destiny mission of US people isn't being fulfilled. The economy has been subverted so that the Zionist-CIA can get what they believe is their world throne, in the restoration of King David's Israel. However, Emmanuel has come and given the Jews their real crown in the *New Covenant-World Bill of Rights*, with which we can all bring about the New World. I am Allen Michael - ETI cosmic adept.

In the final part of Armageddon coming up, beginning in the Middle East and spreading across the US, the destiny or fate of the US Joseph and Israeli Zionism isn't the same. At present they contradict each other. Zionism must use military force to maintain itself. But *US Israel people* must build and bring economic changes to fulfill their destiny. Those who control the old world banking system control US people. There's no way for *US Israel people* to win their independence, except to now return the US to the kind of money system it was supposed to have in its beginning. To do this now would cancel all debts and end private banking, insurance, money and property values. So you see, dear Americans and US tribe of Joseph, you're up against the firing wall. If you let yourselves drift on into civil war, you'll really have a big freak-out and it won't be pretty. You can change it all right now, though, by rallying with me in making Michael's stand with you (Dan. 12:1-13).

I choose them, why don't they choose me? I am a good Jew, but I'm not of Hebrew extraction. In fact, I'm not any nationality. I'm a mixture of astrological strains that came from the energies of each constellation in our part of the galaxy. And *me* is the *Uni-Christ* nature in every person that causes them to provide for every other person as they would want to be provided for themselves. As the soil grows the food, the planet furnishes the elements and the electromagnetic field furnishes the energies that animate all life and mechanical things. So there is only to give and receive of these gifts of the Universe between all people. The Universe, thru ETI, rules all.

### ***THREE WISHES OF THE FISHERMAN***

I give the Jews the EG's World Master Plan before calamity comes to them so that they can rise in support of it and be in the world harvest at the end of these days. The Zionist Jews do not have direct control any longer of the Gentile world banking system, but are now dependent upon it. It has spread out its branches over the world and has not brought forth good fruits to all people. It has gone into cyborgetry and is out of the hands of Jews, Catholics, Protestants, Masons and Communists. Nevertheless, only as long as usury money continues will Zionism continue, and usury money is ending. So the Jews must turn the last wish of the fisherman - who pulled the brazen vessel out of the sea in his net with the seal of King Solomon on it - into real down-to-earth, grass-roots practicalities. As the prophetic story from the Arabian Nights tells, the fisherman took the stopper out of the vessel and up rose a mighty genie in the form of an awesome black column of smoke, mushrooming into a great cloud between the land and sky.

Everyone who is inspired with the great literature of the world knows that this story was telling of the time when, out of atoms (very small vessels), would come a power so staggering at the time, to the people who developed it, that the rest of the prophecy would be carefully reasoned out before they continued.

Now, why was King Solomon's seal on the vessel? Had Judaism followed the wisdom of King Solomon? Or was it that the Jews' Zionist world movement seized upon the first two wishes, in that it was they who, thru their CIA clandestine operations, turned the power into atomic bombs, vainly believing God had opened the vessel to them as part of the promise to the chosen people for world rulership?

It wasn't the God of *Israel* (that which is real) who poked to Moses on Mount Sinai, it was just space Lord Gods of the United Planets Organization - UPO - headquartered on Jupiter who gave Moses the Ten Commandments out of which came the mortal laws of men, which served as best they could during this long preliminary period until the one law of the Universal Godhead could be made truth all over the planet.

Atomic bombs were developed to destroy Communism; which the *Uni-Godhead* had brought forth thru ETI, not to rule the world, but to bring about the kind of world system in which people would be self-ruled - with everyone having absolute freedom, security and abundance. The Jews can rally with me and help bring this about.

The first wish to the genie was for power; and when the CIA at the time had no atomic bombs that would explode when dropped from the air, they had a vain thought to carry out a make-believe atomic bombing on Hiroshima and Nagasaki out of fear that the Red Army, which by then was defeating the German Army, would take all Europe. They were even more flabbergasted because the great explosions that did occur were not of their doing. Only they knew for sure that some kind of destiny had caused the explosions, which again they attributed to their God as though it was a sign of their final victory in the future with nuclear missiles.

Then came the second wish of the fisherman. Mankind had long suffered from hunger and disease, although atoms had already been healing all things with their mysterious rays, and the shortcomings of the people had been causing the degeneration in all things.

Atomic rays are not mysterious at all to persons who know atoms as they know themselves. But, nevertheless, in the second wish, science would use atoms to heal and furnish more power, which would only lead to worse problems.

Earth science has only been passing thru matter atoms that have a cohesive substance in them which is neutral with gravity waves, and when their yin and yang poles are separated, naturally they will fly together again with the force of gravity and make a big explosion. But ETI scientists of the earth realms are on their way into *energy atoms*, which is the real power that animates life everywhere and brings perpetual motion generators that spin without an auxiliary power to turn them. The earth turns as a great armature in space, so why wouldn't an armature turn anywhere by the same force that turns a planet and moves whole solar systems and galaxies?

The first two wishes of the Fisherman, who represents all humanity, were granted thru the genie of atomic power. If atomic weapons, in the wish for power, were sent to targets by every nation that had them, then we of the heavens could only say: "Those of the earth were really stupid and had no real spiritual intestinal fortitude to change the things that were wrong with their way of life so they could all have all that is wonderful."

Even though ETI has direct control of all nuclear weapons, it has let a rather mad science and warlords follow the negative karmic road that has led to the present development of many nuclear warheads, enough to destroy all large cities and kill all the people on the planet fourteen times over.

The biggest surprise ever is going to come to all people of the earth when they find out who and what the main source of the flying saucers is, what their first cause mission here is, and that they are not going to save any person who does not come into the EG's World Master Plan and begin to give and receive and bring about total sharing.

How about the USSR Judah and their nuclear weapons? Did they develop their nuclear weapons for the same purpose as those mentally subjugated under the cyborg beast (capitalism)?

Thank heavens, they have the face of a man (Rev. 4:7) and have only developed their nuclear warheads to let warlords of the cyborg beast have full realization that if they tried to use nuclear weapons to destroy communism, they would get destroyed themselves. The warlords of cyborgetry live in the image of fantasy and, as we can see, the CIA is a kind of clandestine covert clan that believes God gave them nuclear might to save the world from antichrist, which they believe is Soviet Communism. They also believe that Soviet Communism is Gog's army.

"Energy-thought atoms" have two poles - which are yin and yang, right and left, antithesis and thesis - governed by their neutron center, which is the synthesis between pro and con dialectical thought; and the opposites, which are right and left wings, will fight each other in a planned and controlled war (the last karmic cleansing war) to cast all people out of their midst who are negating the New Age energies. This is what their wars amount to. In the final results of warring, the wars are simply to gather the people out of society who will use weapons under orders to destroy the enemy. Of course, there is no enemy. Their 'enemy' is only the paranoia they feel from their own unstable emotions in their unclean aura, which in turn causes them to automatically select from the planet's akashic records, or mental library, the ways they will act. Their actions can only be changed if they have a world plan to act within. A World Master Plan that is of *Uni-natural causes*.

As you have learned from these writings, ETI has control of all nuclear weapons and could easily explode them all right where they are. But even this would be disastrous. ETI space

beings, who brought forth the knowledge of atomic fission and fusion thru their telepathic personnel here, did so for two reasons.

One was to put a heavy weight on the end of earth people's bad karma. ETI knew what earth science would do with such knowledge when being possessed with karma. It doesn't seem to bother the masses of people much that they could all be given the baptism by fire, but this long period of potential nuclear suicide has surely caused the people in responsible positions regarding the firing of missiles to begin to reason about the validity of their act.

The second reason was that - thru atomic bomb and nuclear bomb tests, also controlled by ETI - enough atomic radiation has been put into the atmosphere to affect biological changes over the planet and bring about the cleansing of degenerative effects. This also invigorates the people, rising in consciousness from incoming star energies, to astrally travel outside the earth's aura to have visions of the wonderful things going on out there, and of how ETI is hooked into their head set.

The fishermen have a third wish left. What is it to be?

Some wish Jesus would come.

Some wish Emmanuel would come.

Some wish a real world leader would come who could lead the people out of this world dilemma.

And still others wish that beings from outer space would land and bring in a New Age.

And then some look for messages from higher worlds that must know of Earth People's plight.

These are not wishes - they are all real. So then the last wish of all people should be converted into Universal or Christ Consciousness, so they can give affirmations of truth that all civil social people of good will can act on in unison to establish our heaven on earth.

Among the many solar systems in this part of our Immaculaceptor Galaxy, this Placentia planet - so named by the Archangel Michael - is big news because it's at its time of delivery.

ETI beings could come in on Radio and TV any time they wanted to, but the healing of entities is not done by some trick or treat. It is only accomplished by persons breaking ties with all thought that possesses them to do foolish things, which most of them know at the time are harmful to others and themselves as well. It's time for people to have fun in a real movement that will convert the whole planet into the wonderful vision of the *New Covenant-World Bill of Rights*.

All along, ETI personnel of the heavens and upon the earth plane have led earth entities into their scientific technological age. Take notice though, that they have not even tried to stop the wars for the sake of superficial peace. As long as there is any kind of military on a planet, there will be war. It would be stupid to have a military if you're not going to have war. The military of these times is a product of an old system Adam Smith wrote about, which at the time wasn't creating capitalism, but a free-exchange commerce of the people - and it would have worked had there not been private banks that lent money at interest rates.

The word capitalism comes from "capital wealth." And the Jews' Federal Reserve System was to finance large industries, which people's money couldn't do because it is equal to and geared to supply and demand. The Jews did not create private banks. Private banks only evolved out of the people's secular ways.

The *Uni-Godhead* tells that "the people went their own secular ways and left their kingdom to other people." "Other people" here refers to private banking, insurance, bookkeeping, government papers, etc., all of which has only been filling in until the people would unite together and fulfill the *Uni-Godhead's* natural laws that are now written in the inward parts of many people who are of, or leaning towards, the world communist movement (Jer. 31:31-33). The *Uni-Godhead's* New Covenant is the World Bill of Rights I have been inspired to give.

These are special planetary projects, and the ETI beings who are delivering this planet have delivered hundreds of similar planetary projects. So they know just what they are doing. They know that cream rises to the top of milk, and so it is on such overcoming planets. The cream of the crop would rise to deliver the others, and they dare not let up their defense or all would be of no avail. ETI beings know, when they even have to go to such extremes as putting the abomination of nuclear weapons into the hands of world leaders, that their psyche is really a hard nut to crack open to let the light in. If the people and their present leaders knew positively that ETI space beings had control of nuclear weapons and all things necessary for the delivery of this planet's harvest of radiant souls, then of course the psych-out plan of ETI wouldn't be effective in causing people to change. The fear of nuclear disaster must remain with people until they have what I would call common sense and faith in *Uni-natural dynamics*, and will cooperate with the EG's World Master Plan to disarm the whole world in a realistic way.

The cream of the crop has risen and more are rising every day. They are communists and they must not put a false peace ahead of their mission. Universal Soldiers never die - they don't even fade away. They keep coming back until the real victory is won. This shall be when the planet is one people, all of them freely giving according to their ability and freely receiving according to need.

Once the people know what is expected of them and how they can build the true autonomous state of communism, they will gladly respond.

### ***TIME OF DELIVERY***

For all who give their full being to radiant life now, they shall have a new birth; and unto those who can't leave boredom now, we say 'good buy' and we'll see them on another overcoming planet we may be assigned to. However, I'm getting sort of bored with these kinds of assignments. Maybe if I ask my overseer, who is the Archangel Michael, for a new kind of assignment the next time I meet him in person, he will grant me my desire.

Whoops - I've already asked and it's been granted. Just goes to show you how fast ETI works. I'll be going back to Altamera, my old home base.

Altamera is the computer base of these kinds of GCSC operations. It will really be fun to flash in there and see many of my comrades and comasels (lady comrades) that I've been away from for some time. It's only this body I'm in that feels time; my head is at home on Altamera and with all our people here and up there, and we certainly want all the people of this Placentia planet to be with us again in eternity.

We are created, evolved, made, whatever, to enjoy life in the Universe. There is no work left to be done. It is only work when it's never done, and it's never done until the proper social

foundation is laid; and from then on, all that is built is built to last thousands of years.

All things get done with joy when they're not toiled over, but are passed around so that everyone learns the essential creative arts that give expression of beauty, form and grace in all we do.

We shall return into the Universal Family and know our Creator thru what we create for all of us as held common. When each of us experiences the Universe in regard to Its life, which is in part ourselves, then we shall know that It is the mind and the audio-visual signals in our headset, and that we are not thinking or seeing with human brains and eyes as such. In reality we are seeing and hearing creation in all things.

We need to know that there are three lines of thought unfolding through our centers of intelligence in our etheric body. The first is right wing thought of infrared frequencies radiating thru our solar plexus chakra of antithesis. The second is left wing thought of the thesis-ultraviolet energies radiating thru our heart chakra. The third is the Synthesis thought of gamma, or X-ray, frequencies that flow through our head chakra. This corresponds to the basic trinity structure of *Uni-atoms* that are composed of electrons, protons and their neutron centers.

Right and left wing thought is only used to form judgement. We can end the dialectical pro and con discussions now and apply only the Synthesis to all things. The Synthesis is always ONE - one people, one planet, one Universe, one kind of full life for everyone.

As soon as thought divides into 'we and they' then it is pre-secondary and secondary thought. I use dialectical thought in these channelings, but I use it in the Synthesis. Therefore I don't give the idea that I'm supporting any world *isms*, but only true Universal Christ Communism.

Each of us is the Christ for whom we seek. Christ means *Uni-Consciousness* (anointed ones or those of the elect), and it is up to every person now to acquire *Uni-Christ Consciousness*. One way to do this is to begin to use your extra money to open a communal facet. Form a new age industrial church. And, thru your commune, begin to serve the people on a normal rate of exchange in which there would be no saving of money, but only a flow of goods and services to all who were attracted by your auric vibrations. Don't strive to do big business thru commercial kinds of promotions and advertising of products. In all your promotions sell the IDEA, and the love services you render will speak for themselves. Your group aura attracts the people who are ready for your love as service done and keeps away people who are only going to use your energies for their own secular turn-ons. Keep a high spiritual discipline and beauty.

We are microcosms and the Universe is Macrocosm.

The coming now of ETI space beings in flying saucers is quickening the people's rise of consciousness and the radiant spirit in them that wants to know the truth, that they might be made free again of all the illusions that block them off from the Creative Intelligence of the Universe, or ETI.

It could be that the US citizens - and those who want the people to know the truth -will get the facts to the people thru their news media, so that their indignation of the whole mess can be planted in a way that will save the US tribe of Joseph from a karmic cleansing revolution that could happen to prepare them for their destiny mission with the USSR tribe of Judah and also Red China.

But, if this is to happen, the *US citizens of Israel* can't go halfway or go about it halfheartedly. They must go all the way from here to there in one big step. They can do this by blessing the whole world with a World Wide Buyers' Strike that begins in the US and spreads all over the world.

Our World Wide Buyers' Strike will only last as long as it takes for capitalists to realize that, without workers, no profits can be made, and until the only wheels that will keep turning are the ones necessary to our revolutionary cause. No one really loses pay, because we stop paying rent, utility bills, taxes and all bills in general - to the end of ridding the world of money altogether. We affirm and fulfill the Lord's prayer.

We put everyone in the same boat, and we all sink or rise together. There's no danger of our sinking, though, because our ship is a sturdy vessel built by workers of the world and engineered by the master craftsman of centuries gone by and of eternity to come – the *Uni-Godhead*. History will not repeat itself again. We come off the pages of history books and come out upon the New World Stage to rock and rally with New Age song and dance. It is a glorious event we undertake to establish heaven on earth, which has been held off until the time was ripe. It's either now or else later on, after the last part of Armageddon. Why not put it in your appointment book now!

Read the prophecy in Eze. 37:15-19 about the joining together of two sticks, and you'll see that the *Uni-Godhead* is uniting the USSR Judah and its companions with the US Joseph, Ephraim (England) and their companions to be "one stick in my hand." And of course, the Red China project will also be with us. The rift between the Soviets and Red Chinese is only as wide as not having the full detailed plan. But they shall have it now. Both nations are led by ETI, and so is the US. So we will see them all dovetail together into the EG's World Master Plan.

*We and the Uni are one, and we are humble enough to know that It does the greater work.* And what we have to do, besides living in beauty and abundance, is to keep our hearts and heads in the Synthesis. When we learn to keep our heads in yin and yang polarity balance with the cosmic life force, then nothing can go wrong; and soon our planet's auric time track, or akashic records, will be completely changed by the new mental seeds we sow thru "love as service done for all people" without thought of what we shall get in return.

Everyone will have use of the whole planet, with everything at their fingertips for their use. Everyone will have absolute freedom, security and abundance. There is no higher vision of democracy and spiritual life than this.

Absolute freedom doesn't mean freedom to do wrong things. In absolute freedom, people can only do right-on things! When money is no longer used and the social environment is organized so that every person is freely giving according to ability to the common good of all people, then everyone can freely receive according to need and the state automatically withers away.

When we, the world people of *Israel*, have completed our project of bringing heaven on earth, then all the world religions are fulfilled. The cause and purpose of Judeo-Christianity, as well as the other religions, is fulfilled by our movement. Therefore, there will never be religions again.

The *Uni-Godhead* is sending Its high angels of light in space ships to meet up with us. This will end all superficial things and bring forth real values and real creativity in and about all

things.

We are going to build a heaven on earth, and to do this we get rid of money. We will completely do away with the penal and military systems. There will no longer be "business as usual." There will no longer be national governments and boundaries.

Our New World Government will have no power over life and death. There will be no laws, only rules of integrity that make life graceful and beautiful for everyone. And there will be no way any person or group can control anyone else except by helping, loving and lifting them.

As startling as it may seem, surveying the whole world scene, we find no church of God, save it be Soviet Socialism-Communism. There is no religious force that even slightly resembles what Jesus teaches. There's only one power and one work that fits into the Kingdom of God prophecy and it's Soviet Socialism-Communism. Can and will the Soviets take up the mission of fulfilling Judeo-Christianity?

It is certain that true communism couldn't come about and religions remain, nor could socialism end religions.

If the Soviets did away with money - which they could do and still carry on - and if they did away with the penal system, then out of this they would discover what communism really is. It is a way of life in which, when people live it together, there can be no negative effects and in essence everyone has absolute freedom, security and abundance.

Don't you agree that by now the soldiers of all nations should have a Soldiers' Union of Universal Soldiers so they can speak out on their own behalf and that of all humanity? How come after all these stupid wars there isn't a united front in the ranks of the soldiers? The soldiers are still obeying national political groups, which is to say that soldiers, except for those who make up the *World Israel Army* (the defenders of the rights of the people), are simply the dupes of the money-changers and their political-religious bosses who deceive the world people. Part of the problem is that Judeo-Christianity doesn't have real God direction; so therefore, they do not give the people spiritual guidance.

How come earth people don't have faith enough in *life force* to stand together on one IDEA - the idea whose time has come and cannot be stopped? This IDEA is the *Uni-Christ Idea*, and each person is the Christ *Uni-consciousness* for whom they seek. All else is filthy rags to the *Uni-Godhead*.

It is becoming increasingly obvious to the masses, thru demonstrations like the New York City blackout, that the people are now in desperate need of the World Master Plan. During the blackout, when the opportunity was at hand, thousands of people looted billions of dollars worth of goods from stores - openly showing that they were out to rob those who robbed them, like modern Robin Hoods, and to redistribute the goods among themselves which had been kept from them because of the negative effects of the wrong use of money thru capitalism.

Soon ETI will send in high PSI synthesis energies directed toward uniting US citizens in their world destiny mission. These same high energies could cause out of balance people to riot across the nation. This time the Christ Communists will be ready to go all the way, and the US will be cast into its karmic cleansing revolution. That is, unless US citizens unite to do something really far out: get into a World Wide Buyers' Strike that will take the place of the revolution.

The workers shouldn't fear the democratic procedures of a planned passive resistance-legal civil disobedience. The workers must show the money people - of whom many are just parasites, making money by actually hurting life and squandering labor - that the time of money-changing and wheeling and dealing is over.

Our World Wide Buyers' Strike is proclaiming that the prayer Jesus gave will be fulfilled right now. And all who oppose the Spirit of Truth (that's me) will die by the swords (guns and bullets) they live by, and not by others' hands but by their own hands.

We shall have our daily bread. We shall forgive our debtors and they shall forgive us. We shall no longer be led into temptation to spoil and rob those who spoil and rob us.

The Wall Street stock-brokers play the money game. And they made their own laws and legalities to play their games by. They get investors to put more money into conglomerates; supposedly as a way to make more profits, more enterprises and more jobs. And what they actually create is war and poverty.

Such things as Wall Street are only possible because of the 'stone the builders rejected'. The majority ruled and signed the Constitution Bill of Rights, not as Nature's God had given it, to produce liberty, justice and equality for all; but as the conditioned status quo people saw it, with the nation for business purposes.

Mind you, these people couldn't figure out how to form a new nation that printed its own money and regulated the value thereof.

The pioneers who came to the North American continent came to leave an old world behind, a world of usury (interest-bearing money and taxation), coveting (private ownership of land and industries), and priest-craft (false religions). But just as those who before them struck out, they also struck out under capitalistic effects.

There's nothing new about the trip you're on. It's the same material trip you have been on for 2000 years. Only the advanced material world wrapped around you makes it seem that there has been progress, but socially you're still looking out for yourselves first and leaving many people to starve and be outcasts. Yet there is plenty here for everyone! How come you haven't found the way to guarantee that everyone on *Uni-Godhead's* planet is cared for? You expect the Universe to keep on running for you, but how many people "love the Universe with all their heart and soul and serve all people as they would want to be served?" Is that statement old fashioned? It is so modern it hasn't even been realized yet?"

I write in the United States, not because the Americans give me the right, but because I'm the *spirit* that gave the declarations to the founding fathers. But the fathers were out-voted by the majority of signers, who signed the Declaration that gave away the real virtues of free cash flow money that couldn't be lent at interest rates, couldn't be taxed and need not be saved; and instead, in their erring, they incorporated the right to private ownership of property and private money.

Here two hundred years later, the Americans wonder what happened to the American Dream! But even before the nation was founded, the *Uni-Godhead* had already told about the stone the builders would reject. Even today people don't know what money or property are and how they should be used.

Everyone can use the whole planet and have all things added unto them when they don't fight for national armies to own pieces of the planet. They are fighting against communists that

the *Uni-Godhead* sends to cause people to hold all things in common.

Some people haven't even awakened to the first reality of using mental force. This planet is about as safe and sane as living in a gasoline drum and playing with matches. Spiritual imagining can bring to all people all they can dream of. What is there to dream of? Do you want health, happiness, vitality, real freedom, security and abundance?

What vision must we hold in order to stay sane and be in the harvest at the end of these days? The atoms that make up the aura of this planet, out of which all things within are governed, automatically cleanse themselves as *Uni-Godhead's* spirit - PSI Synthesis energies - are poured out on all flesh. We must be of the highest and most natural vision, which is like the expectations of a child being born. Our newborn children do not expect to get a job and buy milk from their mother. Natural instincts lead the newborn to nourishment, and so it is all the way thru the use of natural things. Practice the right-use-ness of natural things and then they shall all be added unto you; not by "the devil's money," but simply because you are giving of your talents to the common good of all people. You are able to do this because you live in a communal society where all things are held common.

While things still have money value, sell all the things you have (houses and property) that cannot be used communally, and put the money into the "Is Real World People's GROM Bank Account." This money potentially belongs to all the people on this planet - even those entities not born into bodies yet who will incarnate from astral and etheric bodies to finally transcend on into eternal bodies and the Universal Family again. This does not mean that the purpose of this planet will be finished when the entities transcend from this planetary project. It only means that ETI has solved the problems in this solar system and on this planet, which they have used as a base from which to heal the problem that caused the so-called fall of civilization.

Money deposited in GROM accounts can only be used to set up communal industries for "is real people," and the promotions thereof. It cannot be used to pay wages, interest and taxes. The *Uni-Godhead* gave money atonement to earth people to cause them to begin to build a social structure and develop the elements and energies into their technological potentials.

The *Uni-Godhead* (Omnipresent Universal Mind) has accomplished these things, so now it takes money away thru GROM. GROM means "Get Rid Of Money." If every person on the planet over 18 years of age deposits a dollar a week in a bank of their choice into GROM, then we "is real people" of the world would quickly have the largest piece of joint stock capital in the world.

Then thru our well-planned "World Wide Buyers' Strike," we could cause every industry to go bankrupt and buy them up a dime on the dollar: one way of ending the cyborg beast that leads the blind who lead the blind on into doomsday! Of course this would only happen in cases of industries who would not join in with the People's World Wide Passive Resistance Movement and convert their complexes into communal structures, serving the people in a healthy way.

Somewhere along the road of the 1290 plus 1335 days, we shall all come together and celebrate our great victory over the beast. This isn't a victory over a group of people, however, because all opposites are relative to each other and, therefore, all things are working together for good.

Our final victory is over a cyborg beast, which is none other than the collective words

and deeds that - for centuries and thru our many incarnations - we have all poured into a big computer: our planet's aura. When the polarity of the planet's aura was reversed in 1914 by ETI space beings, then the mental seeds we had sown began to play back thru us and lead us into the temptations of our exorcisms. The wars, famines, earthquakes and other disasters that have resulted should only remind us that we did it all wrong and are still not doing it right. But at last I believe I've got it all down pat in these writings. So by following them - as I intend on doing - we should come out in good shape and deliver most of the people on the planet at this time.

The actual landing of great ETI space ships on this planet at the time of our Great Worldwide Celebration will be consciousness-expanding enough to open most people up to eternal realities. It has to happen sometime in the near future, so why not hurry it along with good news flashing on every TV screen and headlining every news sheet?

We have everything to gain and nothing to lose.

We have much to lose and everything to gain.

We have everything new in sight and much more coming.

We have children who want to return to space flight and eternal bodies.

We owe it to ourselves and to our posterity to do the right things now.

We shall overcome all that is unsightly to ourselves and the all-seeing eye.

We shall never fall out again - once is enough. What a trip!

We shall all have absolute freedom, security and abundance. This is what counts. The counting of people, places and things adds up to nothing. All things are already counted, calculated and predestined to fulfill all human needs when people live according to *Uni-Natural Dynamics*. Now we have created the gift thru our talents and science and technology. So, let's give it to ourselves.

## ***WORLD BILL OF RIGHTS NEW COVENANT***

Let each of us share all the world - the kingdom of God -  
and call one place of our choosing our own  
and be free to come and go in the world  
and stay at any dwelling place accommodating travelers.

Let each of us give of ourselves to the extent of our abilities  
to the One World Company,  
and in return all things shall be added unto us.

Let each of us be judged only by our conscience in God,  
and let no people judge their fellow beings,  
but rather take judgement of their own thought and action.

Let no person or group hold any authority over another  
except that people be willingly led by wisdom and true personality.

Let the government be of the people, where the people are self-governed;  
by the people, where the people enjoy perfect freedom;  
for the people, where the people give themselves abundant living.

Let the Government seat be only the storehouse  
and inventory of the People's products.

Let all things be done unto edification,  
for God is not the author of confusion.
