*Channels the Plan for the New World*

Allen Michael is the Galactic Channel for this planetary transcendence taking place now. He is the founder of the One World Family Commune and the Universal Industrial Church of the New World Comforter. We recognize him to be the Comforter prophesied to come in St. John 14:16 & 26, & 16:7-13.

Allen Michael has channeled a World Master Plan from the God-mind, which gives the way to end the usury money system through a non-violent World Wide Work Stoppage/Karma Yoga Exercise and the 30/30 Plan.

Allen Michael's message relative to the world's tribulations, as well as the purpose for which this planet has been used as a healing project for spaced-out entities following a solar catastrophe, is from a perspective of relativity far removed from the consciousness prevalent on this planet. Many of the words in our language reflect the duality of "good versus evil," coming from a godless, unenlightened society. However, those who are open and able to transcend doubt and fear of the unknown, are now recognizing the truth.

These channelings bring forth a

## News from Creation Universe

Let's start with being thankful to the Creator of the Universe for creating such a wonderful electronic Universe that gives us all so many eternally joyful things.

In Normal Creation Universe, no money is used. There is no war, crime, disease, poverty or death. These negative effects are here on this planet because the planet is a redeeming place for souls who lost their way and ruined their solar system when some of them tried to bring about a 13th dimension in which they would have fame and fortune. These are things that don't fit into Creation's Natural Law of giving and receiving.

The souls who lost their eternal bodies in the solar catastrophe were brought to this planet to come back into the knowing of their oneness with Creation, through reincarnating lifetime after lifetime.

The average person on this planet at any given time doesn't know about life in the Normal Universe, which has millions of galaxies, billions of solar systems, trillions of planets and zillions of entities. Actually, the whole thing is infinite. The Creation is Alive, living Spirit. Earth people like to call It God.

Amazingly, the Creation has created a way of transportation that is weightless and crash proof. Its spaceships levitate and teleport all over the Universe, where life is always the same. It's all filled with giving and receiving, and everyone has an abundance of everything that is needed for a happy, healthy, eternal life.

In the Creation's Eternal Universe, there is no death. On this planet everyone eventually dies, but the entities or souls that were in the body reincarnate again and again, staying here in this planet's aura. The fact that there are funerals and caskets for dead bodies,

buried in graveyards, shows that those people don't know that they are eternal souls in bodies and will reincarnate again and again. What does this mean? It means that the body the soul is in wears out, and the entity gets a new body. On earth they call it death of a person, but in truth, the soul in a body lives on, coming and going from the heavenly abode.

During the Renaissance Period in the years 1490 to 1530, there came the first sign that the spiritually advanced people were going to change the world into a communal world that would stop using money and would restore the full measure of giving and receiving, and the great arts. The essence of the arts is simple creation that blossoms into a natural system in which there is beauty, joy and happiness for everyone. There is nothing in a true life system of the Creation that in any way is trying to make money. If the Creation charged money for Its things, would it start paying people wages so they could buy things?

Now, during this transcending period, there are many channels coming forth with books to assist in the rising consciousness, such as Eckhardt Tolle's *The Power of Now*, Hale Dwoskin's *The Sedona Method*, and many more.

There is no evolution in normal Universe. Evolution came on this planet

new understanding of Mind and its relationship to collective consciousness, or the morphogenetic field. We can be free of guilt and judgment when we recognize that our heads are just radio/TV transceivers and that all words and deeds are recorded in the space and matter atoms (also called morphic resonance or akashic records) of the planet. Whatever negativity within us, or evil acts we commit, is the karma from past negative conditioning – the Universe's feedback system which plays back in our lives until we can get it straight and act in truth. The Godmind fills all space, and our body and soul, with telepathic communion, which is utopian and blissful. This is our higher mind when we are living according to Natural Law, in the doing of providing ourselves and others with life's necessities, shared without thought of reward, all for one and one for all – the nature of the Universe.

In relativity, the usury money system was brought to the evolving consciousness as the motivating force in bringing forth the science, technology and now the computer electronics, which at last is the means by which we as a humanity come into the higher awareness of one as a great autonomous world government. The bringing forth of the Internet, with its capacity to link the world's production of goods and services with the people's needs, is the signal that usury money has served its purpose and it is now the time for it to be eliminated, along with its negative effects, war, crime, disease, poverty and mortal death. This heralds our new world of absolute freedom, security and abundance for everyone as a great one world family. The 30/30 Plan of the World Wide Work Stoppage wipes the slate clean and clears the consciousness of all past negative effects. Y

because billions of souls who caused a solar catastrophe are being redeemed here. Through the Voyager, the unmanned electronic spaceship that relayed pictures back to their Pasadena headquarters, NASA showed the people that there was no sign of life anywhere else in this solar system. One amazing discovery was that the rings around Saturn were big boulders that had been blown out of the planet's crust and were orbiting in space about the planet's surface, out a few hundred miles.

No one in the Universe knows when or how the Universe began. This planet is a Carlanon healing project planet in this Plentoria Solar System. The Solar System erupted when the energies short-circuited because some people thought that there was a 13th dimension they could add to life, where people would be able to be famous and seek their personal fortune. There is no way in Normal Universe that a person could be famous. There could be people who were recognized for their serving, but there is no way for fame and fortune to be in one's life. In capitalism on this planet, people can gain fame and fortune, but in true socialism and communism, they can't.

In the period between 1917 and 1947, the Soviet Communists, with Lenin, could have easily converted the planet back to real freedom for everyone by encouraging the workers of the world to stop work all over the planet and start freely creating and serving one another. Capitalism can't go on unless they have workers who are paid wages.

To own private property would be a great interruption of the ways of the Cosmic Creation, which doesn't use money in Its Universe. The only reason that money, or even bartering, is used on this planet, is because souls have fallen, meaning they fell into lower vibrations because of what they did that caused the solar catastrophe.

The Creation's Universe is all sonar electronics. There are no separate governments on or in solar systems or galaxies. They are all operated within the Creation's Natural Laws and are based on the way its Electronic Universe

operates, which is giving and receiving. No fame and/or fortune for anyone. The Creation didn't have to buy space in which to grow the Universe. Speaking of seeds that healthy natural food grows from – it's all programmed by words spoken. All the words that have come from thinking – thinking that we have a body brain that thinks up the things we say and that education improves our thinking – come from a duality consciousness.

The mortal-minded of the earth have a mechanical science, which is now evolving into the higher cosmic science of Creation's electronics. At this time, the upheaval on this planet is the great tribulation period, in which the planet is made free again.

Daniel 12:1-13, "Michael's Stand," tells that, at this time, Michael shall "stand up for the Children of thy people, and there shall be a time of trouble, such as there never was since there was a nation even to that same time, and at that time thy people shall be delivered, everyone that shall be found written in the book."

In this prophecy, Michael is depicted as a warrior who has angels who fight against the evil doers. This prophecy of events to come are happening now in the war in Iraq. Bush is the King of the North and Hussein is the King of the South. Michael, that is "me, myself" □

and I Am," doesn't have warriors to fight an enemy. He has the workers of the world, who end their slavery in an old obsolete technology simply by ending work and starting real creativity, the main thing that the Creation has all over Its Universe.

In Daniel's prophecy, he tells of 1290 days and then a period of 1335 days. The 1290 days started in Year One of the Third Millennium, and they climax in mid 2004. Then comes the 1335 days, when Michael and the Everlasting Gospel become known all over the world. *The Everlasting Gospel - The New World Bible*, that knows all and tells all, went into circulation in August of 2001. Those of us of the Universal Industrial Church and the One World Family Commune have mailed the *Everlasting Gospel* to many of the heads of nations, news reporters and authors of New Age books, and have given the *EG* to many people who have come to us.

The symbolic 1290 days depicts the time when Creation comes in to restore Its Kingdom on the planet, and everything that isn't part of the Creation's Kingdom falls out, or falls by the wayside, meaning that all the words, the pharmaceuticals, the perverted food stuffs in cans, boxes and bottles, the capitalistic usury money system, all these things fall out. The Creation does away with money, private property, national governments and weapons of war, and the Creation's giving and receiving is restored all over the planet.

The Money Changers have forgotten that the worker slaves can stop the whole world just by stopping work, while agreeing to keep the necessary services and supplies going, which will all

be free. Thus, the workers of the world are set free. They end their slavery as workers and start their new life as creators of all good things. So then, thinking, guessing and supposing drops out.

This planet is returning to the natural ways and means of the Creation. After the solar catastrophe, this project was begun on this planet by Hermes, the one who supervised the building of the three trinity pyramids at Giza. This was done in order to send cosmic electricity (Creation's Spirit) around the planet to the twelve colonies that were built to process billions of microcosms who had fallen in the solar catastrophe because they supported the idea of fame and fortune in a 13th dimension.

It isn't possible for some people to be famous, because it has no real meaning, and the fortune part is to have your own private property and private money. Only in giving and receiving, is there joy and happiness. Money isn't used anywhere in the Universe, except on these few Carlanon planets, where the

*Our new world will be built with mind-over-matter galactic technology, with absolute freedom, security and abundance for all on one high standard.*

Creation is redeeming Its microcosms on the high level of cause and effect, karma retroactive in our mind. This is not in our body brain, which is only a transceiver to receive the words and pictures recorded in the collective computer mind bank and those recorded in our past lives. We can also receive pictures of what is coming in our lives when we let go of the way things are done here on

this planet, which is cutting the people off from Normal Universe.

Many people have seen the Galactic Spaceships, and many people are seeing the purpose of the light beams that they send out to make crop circles in incredible designs, where the plants aren't destroyed, but are folded over. All of this is to awaken people to the coming 1335 days in which the Creation is changing the whole world back from all this sorrow, into the normal way of life, which doesn't use money or have private prop-

erty, and all things are built on one high standard for everyone to enjoy.

The 1290 days of Daniel 12:1-13 started in 2001, when the Creation began to restore Its cooperative way of life here, which is fun giving, because what you are giving are the things created for everyone. The Creation grows all the food on land and in the ocean that we can eat and we

are not meant to eat animals, fish or fowl.

The entities of a solar system who have fallen are redeemed through a Carlanon healing planet like this one. The Creation doesn't punish anyone. The people who punish others for what is called crime, should be healing the people and not punishing them.

The Creation started its main campaign on this planet in 2001, sending ☐

forth the energies to animate the 144,000 of Rev. 14:1-6, to lead the people into the New World. They are volunteers from Galactica who want to help the Creation redeem Its microcosms who have fallen in the space warp they created, themselves.

Just imagine our Galactic government, and then, picture people living by the Natural Laws of the Creation, which supplies everything we need to have a happy and blessed eternal life.

How many people of this planet know they are a soul in a body vehicle, that doesn't die? Only the body dies, and between lives on the planet, the soul goes to the heavenly abode, established in the aura of this planet, with no materiality. Normal Universe flourishes with the wonderful things that the Creation has brought for Its microcosms to enjoy in beautiful and wonderful body vehicles, that develop the great arts that give everyone real beauty and entertainment.

The Natural Laws of the Creation are not based on good versus evil, but are based on cause and effect, showing that, when the Creation's microcosms go against the Natural Laws, everything that happens to the souls in body vehicles that is harmful, they have caused themselves.

All the souls incarnated here from our Immaculeceptor Galaxy are volunteers, and our purpose is to get the Earth economy back on track, so the seven body and soul chakras are in harmony with the Creation's Energies.

Let's explain this in an electric way. What is called God's Spirit in the Bible, is the energy circuits flowing through the body and soul chakras, so each chakra is in harmony with the electronic ways that

the Creation has made and developed in the Universe for the greatest happiness and joy there is. But the body and soul chakras crossfire when the soul in a body goes against the Natural Law. When a person sells something to make money, they are doing things the wrong way, just as President Bush of America is doing.

With Bush, we have started the 1290 days told of in Daniel 12:1-13. The planet is now in the last days of Armageddon, and all of this is part of Creation's Plan to bring Its splendid way of life back into being on this planet. The Creation's way of life has no disease, war, crime or suffering.

It's all giving and receiving. So why would some souls want to change the Creation's way of life so that they could be popular and declare their own private property? In other words, the real way of life that the Creation

has intended, is in serving each other freely and participating in the Creative Arts. They include painting, sculpture, acrobatics, dance, and of course the New World kind of band saw art that Allen Michael does, as well as his public access television show, *Galactic Messenger*.

I Am making Michael's Stand, told of in Daniel 12:1-13. The whole world is going through the 1290 days that began in 2001 with the walk-in President Bush of America. Bush is the King of the North, who makes war against the King of the South, Saddam Hussein. These "end days" are of the way the world has been, with their buying and selling, wheeling and dealing, which is all wrong. This can be called evolution. Normal Universe didn't develop through evolution, it developed through the Creator. It is a big Electronic Universe and is perfect in all of Its ways of sharing, in a Universe where people freely give and receive.
