Heralding the new world of absolute freedom, security and abundance for everyone

From Galactic Channel Allen Michael

The Spiders and the Web

The following is our second excerpt from **The Everlasting Gospel – Vol. 2,** channeled through Allen Michael.

The best and easiest thing to do in the world is to make all people happy at once. How could anyone be anything

but happy in the New World, the Kingdom of God, which is Utopia, where there isn't any work to do, only creative things like growing food and building homes to live in, with hotels to stay at when on a vacation, opera houses where the symphony orchestras can play their music, the ballet dancers can do their thing, and singers can sing, and it's all wonderful and magic? So then, why is it all owned by people who make big money? Some of them understand that this is all part of Creation Uni-

verse – but the spiders who don't understand have all of it rigged with their use of money, and usury money is the spider web.

The things that people are unhappy about, which causes them to suffer financial losses and setbacks, or mental and physical illnesses, are all caused by false economics, false governments and

false religions. The thing that we must do now, since the great Armageddon is happening and the Socialist Muslims are making war on the Capitalist Christians and vice versa, is to get the Creation's "World Wide Work Stoppage/Karma Yo-

means that all the people (souls in body vehicles) come to live in the blissfulness of giving and receiving, thereby getting out of this Capitalistic rat race that has changed the world money from a medium of exchange over to usury. Yet Cre-

ation is not going to do it alone. It is going to do it through us, the Elohim, and through all people, putting their bodies, minds and souls into righteousness through right-use-ness of all material things.

This changeover in how money was regulated happened in recent history in 1913, during Christmas when most of the Senate and Congress people were at home for the holidays. Thus, the FRS banks came into America, fooling the people with the word "Federal" – and now the

We can't blame Creation Universe for the things that happened in this solar system which brought it to ruin and caused all this trouble here, and now the time has finally come when the Creation can restore Its full power here through Its great Universal Mind, which

whole world is under usury money, including Osama bin Laden of the Taliban and Al Qaeda, who was made rich by usury money over the years, inheriting a fortune from his Saudi father, the builder who invested wisely all over the Middle East and in Europe. And so like attracts like, and bin Laden attracted his nemesis in George Bush Jr., the ▶

► president of America, who can, if he tries, restore the Kingdom of God to the workers of the world, as it is declared in the Bible.

Anyone can be in meditation with the Creator of the Universe like I am. I am enabled to write down the things the Universal Intelligence is saying in my head, so that the people of earth can have a new world, called Placentia, where money isn't used, and there is no work to do, only joyous creativity.

Work is only work when the workers have to work for money. Now the workers of the world can bring the end

to their slavery by getting organized to stop all work, so they can be co-creators instead of enslaved workers who to survive do millions of things for money that are squandering natural resources, further polluting the air and causing people to become sick and injured and suffer pain. All of this has been created by the usury money system (money with interest attached) coming into America in 1913, "taking the highest branch in the Cedar Tree" (Eze. 17:1-10), and taking over "the young twigs," the youth, putting them into military uniforms and supplying them with weapons to fight against the "enemy." But there isn't any real enemy. If there were it could only be the ones who say there is an enemy.

The Satanic group believe they are supposedly going to rule the world with usury money until God sends Its angels to defeat Satan and cast "him" into chains. It's too bad that the Bible was cast in the concepts of good versus evil, rather than presented in relativity. Creation Universe is the giver of all true prophecy in the Bible, and the man-God and man-Satan is the fiction of priests who added their misunderstanding into the Bible script. However, there is satanic power, and this planet's aura and consciousness is full of it, in more ways than one. Let's face it, the old concept of good versus evil isn't true. You've been fed a lie, and have been swallowing it for a long, long time.

George W. is an important character brought in by turning an election around, where the fake Electoral College and the less than "Supreme" Court would choose the president of America through a falsehood. So now America rides on the Red Horse of the Apocalypse and is "taking peace from the whole world," and George W. is right in there, riding for all he's worth, trying to bring home a winner by whipping up a military victory against Islamic militants. Since 9/11, when the terrorists, on their mission, used big passenger jets to fly into the twin World Trade towers and the American Pentagon, George has spent about \$300 billion on the American military operations against the Terrorists, and many Americans feel it would have been better to use the money for clothing and food for the little children of Afgha-

nistan, to say nothing of the increasing poverty and homelessness in the US.

There are over a billion starving and homeless people on the planet, and this isn't because the Creation doesn't grow the healthy vital food and furnish clean air, fertile soil, minerals, coal, oil, gas, etc. The Creation does all these things for the people on the planet, and still the people buy and sell their daily bread for secular profit instead of doing the things that Jesus and many other prophets have taught them about life. Jesus's main idea was for the people to hold all things common and make distribution to one another according to need (Acts 4:32-35). This is true Communism, so it doesn't go over in Capitalism very well.

The Capitalists obviously are thinking of ways to get rich, thinking the world is for making lots of money, like those of Enron Corporation who became brokers for electricity, which is like saying, "Oh, we of Enron, always making an end run, distribute the electricity for money, and soon the air, and as for P.G. & E. – well, we sell it all to them."

Now, Creation Universe operates the whole Universe on cosmic thought-electricity, and It creates air around all Carlanon planets, like this one. However, the jillions of planets that are in Normal Universe are different. Life exists on the inside of planets. Surprised? Like pumpkins, planets are all hollow and grow in the great ethereal gardens of space, sprouting out of thought-seeds in the Mind of Uni God.

The Creation goes right on eternally creating more suns and planets in space. You'd believe that It would run out of space. However, the Mind is Infinite. Some people on earth think of space as being empty because you can fly through space with an airplane, or a Galactic spaceship if you are of the Galactic Elohim in our Immaculaceptor Galaxy, who take care of certain solar systems in which some microcosms in body vehicles have gone astray by thinking that they have a body brain that can think and have free will to do right or wrong. All of this is an illusion. Space is a field of conscious love-energy, radiating Life-energy and thought-force that informs all creation, and all the creativity of us as microcosms that is inspired ►

in our life.

Satanic power builds simply from negated thought propagated through the words that people think and speak, when they speak sentences like Bush does, that are of the antithesis, and those like Clinton spoke, which are more the thesis of life, but in truth, both sides are out of balance. It's the same duality with Bush and Saddam Hussein, who are both in error, as are bin Laden and Sharon.

Let me introduce the Dragon and the Beast to you. John tells of these in Revelation 13:4, saying that many people worship the Dragon, which is the usury FRS bank. They have many people of the world gambling to get rich, "heads I win, tails you lose." The Beast is their satanic military and the CIA, who will attack anyone who threatens their evil empire.

This vacuum of evil couldn't be on the planet if the Americans had kept their constitutional "free cash flow money," that was only a medium of exchange, fulfilling the highest intentions of their Founding Fathers. This non-usury money might have been funded through the arrangement with Napoleon to buy the territory from the Mississippi River upward and beyond into the great plains and West of the country. The Louisiana Purchase for 8 million dollars turned out to be the best buy for the Jeffersonian USA at the time, and Napoleon used this money to buy war regalia and outfit his troops and pay them a wage, etc.

This world is just made for surprises. This is a Carlanon planet in a ruined solar system, and the Creation feels pretty

bad about having about 24 billion of Its microcosms lost in a space warp, all because they got mixed up in their brain and thought stream. For example, thinking that they were supposed to use labor to build Cathedrals so the people could worship their man-God.

Over 400,000 years ago, 12 Pyramid Temple Cities ringed our planet. Beings drawn away from the cities into the wilderness had to spend many more lifetimes on earth, evolving or devolving as they were able.

Of course the man-God concept came about on earth after the period of the pyramid temple communities ended. Twelve of them were built in the warm climates around the belt of the planet. They were electrified and filled with the Creation's Spirit by the Alpha, Beta and Gamma pyramids built at Giza and on the other side of the planet at Teotihuacan in what is now called Mexico, where their kind of pyramid stored the Creation's power like a battery.

Even later on Tesla was sent from the Galactic Elohim headquarters at Al-

tamira to bring the nations on Earth into social electricity so everyone would understand the Creation's part in returning them as microcosms back into Normal Universe by processing the negativity out of them. During the pyramid period of 400,000 years, some 16 billion microcosms were redeemed out of the nearly 24 billion microcosms lost in the solar catastrophe.

However, what we might call the Sirens of Ulysses called some people to leave the communal communities and venture out into nature, where at that time there were only three dimensions of consciousness that supported the vegetation and animal kingdom. But for those who became hypnotized by the thrill of nature, endless foliage, for example, and the water channels like the Nile Valley's tributaries, were tempted to venture

out into nature. Their soul, which was being realigned, of course, went with them. As a consequence of this they have had to go through many thousands of years in bodies born of woman, being born and dying, and between lifetimes going to the etheric ashrams in the Heavenly Abode which the Creation has established in the aura of this planet. Some people actually feel that they would like to die and stay dead, but the Creation Universe only has life. The man-God concept that got into the Bible has a great judgment day in which the believers are taken to heaven and the non-believers are cast into hell; this false kind of God reflects people's ignorance. After a rest and educational stay in the Heavenly Abode, the soul would reincarnate, picking up where it had left off, but with more awareness.

Now in Earth education they have the story of the Neanderthal man and his wearing of animal skins with fur on them to keep warm. So they teach that this is the evolution of the human species, and you can get your degree in it at the University. Now in the end of this world the way it is, supposedly in evolution, the politicians spend more ►

Allen Michael has channeled a World Master Plan from the Godmind, which gives the way to end the usury money system through a non-violent World Wide

Work Stoppage/Karma Yoga Exercise and the 30/30 Plan.

► money on the military and policing and prisons than they do on the people. You can see why the Universe calls this devolution.

In a way, it is too bad for the politicians that the World Wide Work Stoppage/Karma Yoga Exercise brings the end of this old world the way it is now, with a good half of the people starving and many homeless. This shows the greed and vanity of the politicians. In elections, the people think that they are voting for the cream of the crop, and that they will see the things that are wrong and change them. What they get are the bottom of the barrel, the blind leading the blind, and they all fall in the ditch.

The people never were to work for money. Money was only to be a medium of exchange which all people would have. The greedy selfish ones actually count the money and have banks that keep big bank accounts as well as small ones. Banks were never to be part of the people's money. The banks only show how the money changers are controlling all the people with usury money.

But still the omnipresent Creation Being operates Its Creation; no one knows how It does it, but it's easy to see that sunflowers have bright yellow petals, and in their centers are the sunflower seeds that are healthy to eat and each seed can grow a whole tall plant with thousands of more seeds.

We can see the spiders in nature spinning their webs on this planet, like the money changers catch people in the usury game, and these kinds of things

have evolved out of consciousness that is get for self first. Of course, that is the wrong way to run a business, and some of the old timers who operate the big department stores know this, and they dream that the world could stop using money and make all things free.

In this *Everlasting Gospel*, Creation Universe is using this hand to write these channelings the way the verses of the Bible are supposed to read. They have been changed by the editors of the King James Bible. The politicians certainly didn't want a Bible that would interfere with business-as-usual, where people are buying and selling the Creation's things. This is the way things would be on a Carlanon planet where the Galactic Elohim, the 144,000 of Revelation 14:1-6, have now brought forth this *Everlasting Gospel* "to preach unto them that dwell on the earth," whose name we change to Placentia, planet of plenty and rebirth.

You can see the supreme advantage of changing the name of the earth to Placentia, because then everyone starts talking about a new world which doesn't use money and in which the Capitalists can no longer hire workers because the workers have ended their slavery by stopping work and starting creativity.

There is no need for hard feelings. The world has had to be as it has been at every minute, because what people say and do is recorded in the planet's aura, and it plays back animating their bodies and souls, determining their reactions to events in their life according

to the status quo.

On earth there would be a status quo because it's a healing planet for microcosms who fell out of the Universe. This happened six million years ago when the solar catastrophe occurred because enough beings (souls in body vehicles) started thinking, instead of simply being in all-knowing. Thinking is the oldest addiction in the Universe, which pops up here and there in people who want to be independent gods. There is a center to the Universe made up of Gods or Angels, and we all are one with Creation in every way. Our consciousness and thought is of the Universal Mind. John of Revelation uses that kind of angelic thought.

We who are channels of the Creation Universe just write down the thoughts coming into our mind, and we're not thinking them. We are in the Knowing Synthesis, which is direct Realization, filled with richly creative thought. To think we would have to have a brain that can think. No telling what we would think up if we were taught to think, instead of learning through the actual doing of things that are related to life in the Normal Universe, where there is no war, crime, disease, poverty or mortal death, only the blissful synthesis thought. So then, all the capitalistic antithesis and socialistic thesis is just yin and yang, as a Chinese woman would say. The Chinese man lives by eight symbols that are all of the synthesis, where the Christian Bible has commandments that tell what we shouldn't do.

The earth is a Carlanon planet in a solar system ruined by thinking – people thinking that they had a brain that could think and that they had free will to think up their life in any way they chose. But by adding one thought unto the thing, you can't add a synthesis thought. The thought that isn't satanic still grows beautiful flowers that radiate in magic colors and exotic perfumes. Talk about natural food, we receive a watermelon and cool it with ice, and the family and friends have that wonderful fruit to share, that is healthy to eat as well. I remember these things at the Hancock County Fair that took place every year in Britt, Iowa, when I was a teenager. ►

Direct from the God Force — Brought to Heal the World

The Everlasting Gospel

Channeled from the Universal Mind by Allen Michael

THE GOD FORCE IS REAL, AND THE UNIVERSE IS FILLED WITH LIFE! In the *Everlasting Gospel* you'll learn the full story of Galactic Space Beings and their causation spaceships, who came here long ago to heal a catastrophe in this solar system. THE HEALING OF THE WORLD means transmuting the unfolding energies of past world karma, which

are going into breakdown. Breakthrough into a spiritual, free Utopia lies on the other side, where Love lives eternal, with absolute freedom, security, abundance, and equality for everyone on the planet.

By Donation (\$20 suggested). Order your copy on page 4.

Now by saying I, I'm not referring to my body, because I am the eternal soul in the body, and I was just as cosmically enlightened then as "I AM" now. Then, a soul mate of mine inhabited the body, and in 1947 I entered the body. You might say there are two parts of myself, which aren't yin and yang, for we are of

oneness. Yin and yang are the Creation's relative opposites, that come together in the three-in-one, alpha, beta and gamma synthesis. This is not in the King James Bible, but instead the Ten Commandments has been substituted, telling people what they shouldn't do, and when they read them and speak them, then they are recorded in the earth's akashic records and play back in us as fear instead of understanding.

Everyone who is reading this New World Bible, can know that the beginning of this third millennium was the start of the 1290 + 1335 days of Daniel's prophecy about Michael's stand with the holy people (Daniel 12:1-13). I am that Michael, the one who delivers the souls in body vehicles into a spic and span New World Utopia, that doesn't use money and doesn't need laws, judges, prisons or the military. The holy people are the wheat, separated from the chaff. The chaff are those who instigate and fight wars, who remain here after the karmic cleansing to build the new world.

In the Universe it's all one big happy family of the Creation, which the earth entities have been away from for a while, but now we have Bill Gates of Microsoft, along with many others like Steve Jobs of Apple Computer, and Larry Ellison of Oracle. They opened the GATE, and Jobs ate a macintosh apple and found it very tasty.

The Adam and Eve story is fiction that was needed for a while until Galac-

tic Causation spaceships began appearing on the New Placentia, planet of plenty of good things for everyone. You can see how necessary it is to change the name of this planet, which has been the old ugh, ugh dirt planet earth, but now it's Placentia. So we give up all talking about the old earth, which has a history of war, poverty, plagues, much mortal suffering, and even earthquakes and volcanoes, all of which are caused by the build up of Satanic Power in the earth's old aura. But now the Creation will clean out the planet's aura.

This means the utter, final end to the whole evil system of usury vandalism. The Universe gave money atonement knowing what it wrought in spurring a civilization to grow in spite of itself, and It gave nuclear atonement to end it.

This is why the Creation has led the evil doers into temptation to make nuclear weapons, which It can use right now, sending them into the astral plane around the planet and adding the catalyst unto those that cause the nuclear explosions, and this will take out of the planet's aura all the satanic power (negated energy) that was in it. The Galactic Elohim have the power to do this in a way where there is no radioactive fall-out, and no bodies are harmed.

Now isn't this just sweet? Who else but Creation could come up with a solution to end satanic power and give the planet a new name, Placentia, and bring freedom to the creative workers of the world who had been slaves of the artificial rich. As we see now, the multi-millionaires get the workers to come and build their mansions, and the workers work for a wage during this time of reconstruction that has been taking place for 20,000 years, since some souls ventured out into nature. Now 20,000 years later, they have arrived at the end of their long struggle, but not yet having the understanding that this Universe is a Creation Universe that doesn't use money. Money is only used as an incentive to get people to start doing love services for everyone, and in this all people finally love themselves again. ✨

Separating the Wheat from the Chaff

by Beldon Gelff

The idea of separating the wheat from the chaff has been kicking about in the Bible for quite a while, but it is relevant right now. What it means in terms of spiritual/scientific understanding based on the channeled messages of elect masters who have been around on this planet for 6 million years, since this solar system short-circuited, creating a solar catastrophe – is explained in the *Everlasting Gospel: The New World Bible*.

Now, with this planet becoming a heaven on earth, all people must be synchronized to the great changes coming about. Changes like ending the military and disarming the nations, as the military industrial complex (“the beast”) is totally dismantled. The end of the money system, replaced by a world based on a free giving and receiving system. The end of the judiciary/penal system so no one is punished anymore, but persons enter a system of objective healing and rehabilitation. All new energy and transportation systems replace those which are spoiling our planetary eco-system and, of course, the reconnection of this planet to the rest of our galaxy. The Galactic Command has arrived!

So, as you can see, any one of the above changes is a tall order, however, all and more must come to be in order for a heaven on earth (Kingdom of God) to be fulfilled.

Now, let the reader consider a new term that really explains a great deal about men and machines. The term is “matter psychometry.” All the thoughts, words and deeds that go into building and operating a weapon go into the morphic resonance of formative causation around the planet and are recorded in the matter psychometry of the

weapon, itself. The operator records and re-records the destructive purposes of the weapon until the operator and the weapon become one. Because the world is divided against itself in the false belief

The New Age spiritual revolution of the people brings vital creativity and social living to everyone. All armies disarm and unite into a World Peace Corps whose first mission is using all necessary resources to alleviate hunger, poverty and disease among people everywhere.

of fundamental inadequacy (not enough for everyone), nations will use their military to gain and maintain control of world natural resources. Under such consciousness, weapons operators go into battle to seek and destroy the designated “enemy.” The recorded matter psychometry of satanic force in the weapon takes over the operator, leading opposing forces into paranoid self-destruction, based on the orders of the chicken hawks, and we all know who those players are.

So, when the Universal Mind directs the Universal Soldier to “come out of her, my people, and do not partake of her plagues,” it means the soldiers are to disobey the generals’ orders and go tell the commander-in-chief that he’s a “moron!” Ha! Ha! Those who obey orders and self destruct are the “chaff,” those who disobey man’s orders by obeying God’s order, “Thou shall not kill,” are the wheat.

On January 20th of 2003, Amerika

invaded Iraq, to begin the last part of Armageddon-World War III. What’s the matter, people, haven’t you had enough of this stupidity?! You had World War I, World War II, Korean War, Vietnam War, Gulf War, the recent Afghanistan War, and now, the Bush, Inc. oligarchy War to get Saddam! When is enough, enough?

The main issue of the Universal Soldier is not to “do or die,” but to “reason why.” The soldiers must exercise their right to freedom of speech and form a union, where they decide whether or not they go to war, thereby taking the army away from the nations. When the soldiers around the world hear of this on the real news, all will lay down their arms, relieved of the fear of being invaded or invading

others.

People all over the world, to enter the kingdom of God, must use their science, technology and industry in first cause, providing food, clothing, shelter, care, transportation, communications and utilities for all the people on the planet on one high standard. This will eliminate the satanic consciousness that goes forth to produce weaponry on this planet. ☼
